DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, April 13, 1920.

MEMORANDUM.

Mr. Scott,-

Mr. Agent Ogletree forwards a recommendation from Rev. Father Perrault, Winnipeg, for the appointment of Raoul Martel as teacher of the Lake Manitoba Indian Day School, and also a letter from Chief Moise Paul approving of his appointment.

Mr. Martel was in the service of the Department for sometime before he enlisted in 1915. He was re-appointed as teacher of this school in July, last, but the Indians protested his appointment on the grounds that he was drunk on the reserve several times. Chief Paul made the charge, but he now recommends that he be re-appointed. Father Perrault says that the charges made against him were false and states that, as he was recently married, there will be no cause in future for any charges being made on account of his conduct, and that he is quite satisfied that he will give good satisfaction, if reappointed. Mr. Martel has Normal training and had several years experience as teacher in this school previous to his enlistment.

Enrolment - 17
Average - 14

Henry Springer, who was the former teacher, has resigned from March 31st, last. As there is at present no teacher at this school, I would beg to recommend that Mr. Martel be given another chance, his retention of the position, however, to depend on his conduct and the success with which he meets in this work. The salary paid to Mr. Springer was at the rate of $500.00 per annum, and I would recommend that Mr. Martel receive the same rate of payment.

It will be necessary to fit up a residence for the teacher of this school. Father Perrault last summer reported that he could purchase a house for $250.00, but would have to have it moved about three miles to the schoolhouse and it would cost about $100.00 to move it and fit it

up. He now states that, if the Department does not wish to carry out his suggestion, it will be necessary to build a residence, as it will be impossible to get a teacher unless suitable quarters are provided.

The school building also requires some repairs to the foundation and to be sided on the outside. The present building is of log construction and is not situated in a central locality. There are about thirty children of school age on the reserve.

The Agent does not furnish any information regarding a building for the teacher's residence or the fitting up of the school building and I think that he should be asked to furnish a full report in the matter. In the meantime, in order that the children may not be deprived of an education, I would beg to suggest that Mr. Martel be appointed and take up his duties.

Sir,-

I have to acknowledge the receipt of your letter of the 9th instant enclosing a recommendation from Rev. Father Perrault for the appointment of Raoul Martel as teacher of the Lake Manitoba (Dog Creek) Indian Day School and also a letter from Chief Moise Paul, in which he also recommends Mr. Martel's appointment and states that he has now no complaint against him.

In reply I beg to say that, in order that the school may not remain closed, the Department will approve of the appointment of Mr. Martel, to begin duties as soon as possible. His retention in the position will depend upon the success with which he meets and also his conduct on the reserve. The Department will allow him a salary at the same rate as was paid Mr. Springer, namely $900.00 per annum.

Father Perrault requests that a suitable residence for the teacher be provided, as there is very poor accommodation at the present time. He informed the Department last summer that a house could be purchased for $250.00, which would have to be moved about three miles and it would cost about $100.00 to move it and fix it up. He states that quarters for a teacher are absolutely necessary, as it is impossible to keep a teacher at this school without living quarters are provided for him. You should furnish a full report regarding the question of obtaining a residence for the teacher and whether you would approve of Father Perrault's suggestion being carried out to purchase this house and have it moved, or whether you think it better to build a small residence near the school and the probable cost of erecting the same. You should state your views fully regarding the question of providing suitable accommodation for a teacher for this school.

Father Perrault states that the school building also requires to be repaired. You should furnish a report stating the repairs that are required to place the school in good condition and the probable cost of having the work done. You will be good enough to give this matter your prompt attention, in order that the Department can arrive at a decision regarding this matter.

In the meantime, as advised above, Mr. Martel may carry on the work as teacher.

Your obedient servant,

A. Ostelyer, Esq.,
Indian Agent,

Dear Sir,

I am in receipt of your letter dated, May 11, informing me of the appointment of R. Sinclair as teacher of the Lake Manitoba Indian Day-school. In the mean time, Mr Cyclus Indian Agent informed me of the decision of the Department to reduce the salary $1000.00, for my own I beg to say that I could not accept the position unless I am given, $600.00 a-to Dec 31st next. We promised a raise that time

the high cost of living has not been reduced and the difficulties of communications have not changed he wondered why you deemed necessary to reduce a salary which was handy sufficient to support a family.

Unless you pay $600.00 a year, he refuses the appointment and I am in the impossibility to secure another one, and then the school has to remain closed for months for a common laboring man today is earning at least $60.00 a year is it not but for a skilled mechanic man, living in a lonely and remoted place as Dog Creek get the same amount.

Hoping you will comply with my request and so allow the Indians of the Dog Creek, from the benefit of education

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 22nd instant with reference to the salary allowed Raoul Martel, who has been appointed teacher of the Lake Manitoba (Dog Creek) Indian Day School.

In reply I beg to say that it is the intention to allow Mr. Martel salary at the same rate as was paid Mr. Springer, namely,- $600.00 per annum, and it was through an oversight that the amount of salary as stated in the letter to the Agent was given at $500.00. Mr. Martel will also be entitled to receive the bonus during the period which it is paid to the teachers in Indian day schools. Kindly inform Mr. Martel accordingly.

It is hoped, if he has not already taken up his duties, that he will arrange to do so at an early date.

Sir: -

I have to acknowledge the receipt of your letters of the 19th instant, enclosing the resignation of Mr. R. A. Martel as teacher of the Lake Manitoba (Dog Creek) Indian Day School. It is noted that he desires his resignation to take effect from October 1st, next.

The Department will accept the resignation of Mr. Martel, but would prefer that he give up his duties before the school reopens, in order that the new teacher can take charge from the reopening of the school after the present summer holidays. However, this matter will be left in your hands.

The application which you forwarded from Mr. Maxime Goulet for the position as teacher at this school to succeed Mr. Martel is also received, together with recommendations from several persons regarding his fitness for the position. Approval is granted for the appointment of Mr. Goulet, and he should take up duties immediately upon the retirement of Mr. Martel. The salary allowed will be at the rate of $600 per annum, plus any bonus provided by law.

If Mr. Martel teaches any part of the current quarter ending September 30th, next, he should prepare and forward his return through your office, in order that payment of salary and bonus due him up to the date of his resignation can be made.

You should inform Mr. Goulet that his appointment is approved, and that he should take charge when Mr. Martel leaves.

I shall be pleased if you will inform the Department of the date on which Mr. Martel gives up duties, and also the date on which Mr. Goulet begins.

Sirt -

A communication has been received from Mr. R. A. Martel, who formerly taught the Lake Manitoba (Dog Creek) Indian Day School, regarding payment of his salary for part of the current quarter.

If you consider that any payment is due Mr. Martel for his services as teacher, or for any other purpose, I have to request that you will forward vouchers covering the amount due at an early date. In this connection, I beg to refer you to official letter of August 24th, last, in which you were informed that the Department would accept his resignation, but would prefer that he gave up duties before the school re-opened on the 1st of September, last. If he did not teach during July or August, the annual summer holidays, it is not considered that he is entitled to any payment, but if he was acting as dispenser there may be a balance due him for that service.

You were requested to inform the Department the date on which Mr. Goulet, who was appointed to succeed Mr. Martel, began duties, and I would be pleased to have this information at an early date.

Ottawa, Nov. 7, 1922.

Sir:-

I have your No. 2..8-14 of the 27th ultimo, covering the Provincial School Inspector's report on the Lake Manitoba Indian Day School, of the Manitowapan Agency. I have noted that the teacher, Mr. Maxime Goulet, is poorly qualified and in addition has very little equipment for the conduct of the day school.

In reply I beg to state that the Department is writing Mr. Agent Ogletree, asking him to give some attention to the Lake Manitoba school at this time and requisition for any material needed. Mr. Goulet's progress will be watched carefully and, if there is no marked improvement in the school, the church authorities will be asked to nominate another teacher.

Sir:-

The Provincial School Inspector has reported on the Lake Manitoba Indian Day School. The Department learns that Mr. Goulet is not very satisfactory but that he may be helped somewhat by supplying the proper equipment. The Inspector states that the teacher had no idea of what books or programme he was to follow and was expecting orders from your office. He appears to be without an adequate supply of classroom equipment.

Kindly initiate a correspondence with Mr. Goulet or visit the school if you are in that vicinity, with a view to making it possible for him to show progress and good results in the work. The Department will fill any requisitions recommended by you, without delay.

Replying to your letter of the 21st instant regarding E. A. [redacted] subsequently, he advised me to put in another claim stating that at the time of my first demand he was not aware that I was entitled to my salary and that he would recommend the second claim for payment.

As I was not getting any news, I wrote Mr. Ogletree who finally answered that the Department had refused to change its decision and, as stated before, although I have complied with the regulations, I did not get my three months' salary and bonus and this possibly through a divergence of opinion on matters not pertaining in the least to the fulfilments of my duties as teacher.

I will not dwell any longer on the merits of my case ; I will only say that since I have the sympathy of such men as Messrs. Horace Chevrier, L.P. Roy, barrister of Winnipeg, Skuli Sigfusson, member for St George, in the Local house and many others with whom I have worked hand in hand to uphold a principle so dear to some of us, this should be concrete evidence and conclusive proof that I at least deserve more than a passing glance.

I trust I have not encroached too much upon your time and respectfully but hopefully request that you instruct the Indian Department to reconsider its decision herein and to give my claim a more favorable consideration.

Honourable Sir:

I [illegible] the following for your consideration.

I, the undersigned, was a teacher on the Dog Creek Indian Reserve, Manitoba, and during my term of office I sent in an application [illegible] for the position of Indian Agent at Fisher River, Manitoba, and subsequently for the Pelley Agency, Saskatchewan. At the time I applied for the latter, at the end of August 1922 (during the summer holidays) I also mailed my resignation as teacher at Dog Creek to Agent Ogletree at Portage la Prairie, Man., same to be effective September 30th. 1922, viz. the end of the quarter.

I was advised by Mr. Ogletree that it was useless for me to resume school for that period (September), and one Mr. M. Goulet, whom I had suggested to succeed me on October 1st was requested to report at Dog Creek on Sept. 1st; however I was ready and willing to resume my duties as school teacher and discharge the same for the month of September, and on account of the Agent's [illegible] which meant the loss of three months' salary.

As I had absolutely complied [illegible] Department acted upon his views which apparently were not favorable to me as my claim was rejected.

I am directed to acknowledge your letter of the 4th instant, to the Honourable the Superintendent General, with reference to salary received by you as Teacher of the Lake Manitoba Indian Day School.

In reply I have to inform you that I have examined the files in this connection, and I find that you were employed by this Department as from the first of September, 1920, at a salary of $600 per annum plus any bonus provided by law. Your services were continued for two full academic years, and I have learned that you have been paid two full years' salary, and bonus at the rate of $15 per teaching month.

whole of September, but was requested by your Agent here not to do so.

We also beg to point out to you that Mr. Martel began his term on the first day of September 1920 and that at the end of the month of September 1920 he only received the sum of $61. which was only the proportion of the salary coming to him for that quarter, and he was not paid then for the months of July and August, so that it is only fair that his salary for the same months during 1922 when he was officially and effectively on duty, should be allowed to him.

We beg to point out also that Mr.Martel does not want in any way to be unreasonable, and does not claim any salary for the month of September for which he was ready andwilling to work, although as a matter of fact he did not do anything during that month, but as he was officially and effectively on duty during the months of Julyand August 1922 there seems to be no reason whatsoever why he should not be paid for the said two months.

We trust therefore that you will be kind enough to look into this matter again, and trust that you will be able to satisfy our client's demand which seems most reasonable.

Dear Sirs-

re: R. A. Martel your file #126-6-1

Mr.R. A. Martel who is a personal friend of mine has requested me to write you with reference to your letter to him dated January 12th last.

We are informed that Mr.Martel who was employed at the Lake Manitoba Indian Day School from the first day of September 1920 at a yearly salary of $600. payable quarterly, offered his resignation, to take place on the first of October 1922, on the last day of August of the same year, thereby giving a full month's notice as required by the rules.

Mr. Martel was paid his salary in full up to the end of the last quarter ending on the 30th of June 1922; he was quite willing to go back and finish his quarter ending with September 1922, but was told by your agent here, that as this would necessitate a change during the school year that it was better for him not to go, and that the Department would take someone else. Mr.Martel was quite willing to do this provided he was paid for the months of July and August during which time he attended to his duties as much as was required from him, and there was no school then.

It may perhaps be objected, that the months of July and August were not school months, but we are informed by Mr.Martel that there were certain duties to be fulfilled by [illegible] We may also point out to you that Mr.Martel was quite willing [illegible]

Sir,

Acting upon the suggestion of Mr. J. E. Bunn of the Lake Winnipeg Inspectorate, I beg to submit the following for your consideration.

With further reference to my claim for salary for September Quarter 1922, I have noted the statement made in your last letter to me to the effect that having completed my full Academic year on June 30th., 1922 I was paid for such

I respectfully want to draw your attention to the fact that after June 30th, I was still in the employ of your Department, and that I did perform work such as looking after the sick, distributing rations, etc., during part of the holidays.

I admit that I was away for a time during the holidays, but it was with Mr. Ogletree's permission.

As stated above, being still in the employ of your Department, in order to comply with the rules and regulations, I could not leave the service without giving written notice, so the latter part of August 1922 I sent my resignation to Mr. Ogletree, said resignation to be effective September 30th., but he refused to let me finish my quarter on the grounds that most of the Indians would probably be

I also want respectfully to point out that during my sojourn at Dog Creek, my activities were not limited to teaching only. During my spare time I broke and fenced in a good sized garden. I built a substantial stable, 34 x 17, which is a credit to the Reserve, and actually an asset to the Department. It is well worth $250.00. As I was not asked to do it I did not expect any re-imbursement. I did it just as an example to the Indians, but the fact remains that these improvements are still the property of the Department and ar

finding a successor thereby avoiding delay and inconvenience.

It will have to be admitted that there has been no lack of earnest and effective co-operation on my part during the months in question.

(1)- There should be more conversation and less formal book work in order to give the children freedom and understanding in the English language.

EXTRACT FROM LETTER DATED NOVEMBER 19, 1924, FROM INDIAN COMMISSIONER W. M. GRAHAM, WHEN ENCLOSING THE REPORT OF INSPECTOR BARTLETT, ON THE LAKE MANITOBA INDIAN DAY SCHOOL.

In Department No. 126-6-1 dated the 7th of November 1922 it was stated that Mr. Goulet's progress would be watched carefully with a veiw to the appointment of another teacher if there was not marked improvement in the conduct of the school. When forwarding you Inspector's report of his visit in October 1923 I drew attention to this and was informed in reply that as it was the intention of Inspector Bartlett to re-visit the school at an early date and submit a special report, it would not be advisable to take any action until that inspection report was received. Inspector Bartlett did not apparently re-visit the school and after reading his latest comments there would appear to be no reason for withholding action to replace Mr. Goulet.

There is a day school on this reserve, which is taught by Mr. Maxime Goulet. At the time of my visit, the school was closed on account of an epidemic of measles amongst the children. There were 27 names on the register, 8 boys and 19 girls. The average attendance for the last quarter was 8, for the past year, 10.

The school is a log building 20 x 25 with shingle roof. It has a good high ceiling and is in a fair state of repair.

The teacher's residence is a log building 20 x 19 with an upstairs, but the walls being low, the upstairs can only be utilized for storing. It also has a lean-to kitchen 12 x 18. During the severe weather, the house is very cold, as it is lined on the inside with beaver board and I presume the plaster has crumbled away on the inside between the logs and the beaver board.

It is not necessary for me to say very much regarding Mr. Goulet's ability as teacher. I know him when he was teaching school on this reserve about 35 years ago and at that time he was a man well up in years. Mr. Goulet is getting much too old for this work. The attendance at the school has been poor and I do not believe the children are making much headway.

You will note what the Inspector says about the Day School, and I quite agree with him. We are merely marking time and I think depriving the children of a proper education by having a school of this kind.

Sir:

For some time, the Department has been considering the question of making a change of teacher at the Lake Manitoba Indian Day School in order to improve the work. From a recent report of Mr. Inspector Christianson, who visited this school in February, it appears that the children are making no progress in their studies. It has been decided, therefore, to dispense with the services of Mr. Maxime Goulet, the present teacher, at the end of the current school year, June 30th, next. Please inform him that his services will not be required after that date.

In due time you should endeavour to obtain the services of a qualified teacher of the Catholic faith, to begin duties on or about September first, next. The names, qualifications and experience of any applicants you receive for the position should be submitted for the consideration of the Department. The salary allowed will be commensurate with the qualifications of the teacher you are able to secure.

Please bear this matter in mind and forward applications in due time so that a successor to Maxime Goulet can be appointed to begin duties when the school re-opens after the coming summer holidays.

MAY 1 1926

Extract from Report of Inspector Bartlett on the Lake Manitoba Indian Day School - dated April 20th, 1926.

Original on file 126-6-6

Maxime Goulet - Age 71.
Has taught for a number of years here, and at other points.
No special certification.
Health - Infirm.
Success - Extremely unsatisfactory.

The old gentleman is too infirm through age and ill-health to make a success, even if he had the natural ability and training.

I have considerable sympathy for the present incumbent. He is an old man, ill, with an ailing wife, alone in a very uninspiring environment. He is probably doing as well as he is able - but that unfortunately amounts to very little.

I have called his attention repeatedly that regulations call for the use of the text books of the public schools of the province; but he persists under various pretexts in using the books of a certain church society for readers. I see no hope of improvement under present conditions.

Should you decide to make any improvements in building, I should be glad to consult without charge to your Department.

In forwarding the above report under cover of his letter of April 29th, 1926, Commissioner Graham states as follows:-

In 1922 the unsatisfactory conditions existing at this school were reported to you, and on the 7th of November you stated in letter No.126-6-1 that Mr. Goulet's progress would be watched carefully with a view to the appointment of another teacher if there was not a marked improvement in the conduct of the school. T Two years later, on the 19th of November, 1924, I again drew your attention to the very unsatisfactory report which had been received on this school, and pointed out that there was no change. To this letter I received no reply, and we are now in receipt of another report which, in my opinion, calls for prompt action.

This school should undoubtedly be closed up and the children transferred to a Roman Catholic Boarding School without delay. Some of them could be taken to Qu'Appelle School, and perhaps a few to Muscowequan, Pine Creek and Sandy Bay. I am quite satisfied there is a place for them if the Department decide that they should be sent to a Boarding School.

Sirs

Relative to the report of Inspector Bartlett on the Lake Manitoba Indian Day School forwarded under cover of your letter of the 29th ultimo, I beg to say with reference to the Inspector's remarks regarding the services of Mr. Maxime Goulet, the teacher, that Mr. Agent Ogletree was instructed to inform him that his services would not be required after the end of the current school year, June 30th. We have also requested the Agent to take up with the Church authorities the matter of securing the services of a qualified teacher of the Catholic faith to be in duties on or about September 1st, next, and to submit the name, qualifications and experience of any applicants for the position for the consideration of the Department.

Regarding the condition of the building, we will have no funds to provide for any new buildings at this point during the present school year. When the services of a new teacher are obtained, consideration will be given to the authorizing of a few minor repairs to make the building as comfortable as possible during next winter.

I may add that the Church authorities are desirous that the day school activity on the Lake Manitoba Reserve be continued.

Sir:

The Department has received an application for the position as teacher of the Lake Manitoba Indian Day School, to succeed the present incumbent, Mr. Maxime Goulet for the next school year. The applicant, Monsire Gregoire, Thibeaultville, Man., states that he is qualified and would be ready to assume duties at any date specified by the Department.

I have to request that you will get into communication with this applicant and ascertain definitely his age, qualifications (professional and academic) and previous teaching experience. You should forward to the Department this information together with your recommendation as to whether you would advise that he receive the appointment. Your early attention will be appreciated.

Sir:

I have your letter of the 17th instant, enclosing copy of a communication from His Grace the Archbishop of Winnipeg in which he recommends the appointment of John Malcolm Cliff McDonald for the position as teacher of the Lake Manitoba (Dog Creek) Indian Day School. The communication which you forwarded from the Registrar of the Department of Education, Winnipeg, to Mr. McDonald was also received.

As you are aware, we have also received an application from R. Gregoire, Richer, Man., for the position. Mr. Gregoire is recommended by Rev. J. Chaumont, the missionary at Dog Creek, and also the parish priest at Thibaultville.

We are communicating with His Grace and requesting him to state which of these applicants he would recommend receive the appointment.

Most Rev. Sir:

We have received from Mr. Agent Ogletree, Portage La Prairie, Man., a copy of your communication to him of the 16th instant, recommending the appointment of John Malcolm Cliff McDonald for the position as teacher of the Lake Manitoba (Dog Creek) Indian Day School. Mr. Ogletree also forwarded a letter from the Registrar of the Department of Education, Winnipeg, to Mr. McDonald regarding his qualifications and credentials.

The Department also received, through Rev. Father Guy, an application from Mr. Rosaire Gregoire, Richer, Man., for the position. Mr. Gregoire's appointment is recommended by Rev. A. Chaumont, O.M.I., the missionary at Dog Creek, and also by the parish priest at Thibaultville. We are not aware as to Mr. Gregoire's professional qualifications, but he has had one year's teaching experience.

I shall be pleased if Your Grace will inform me at your convenience as to which of the above named you would recommend for the position as teacher at Dog Creek.

The communication from the Registrar to Mr. McDonald is enclosed herewith, as it is thought that he will require this for his future information.

My dear Sir,

I am in receipt of your letter No.126-6-1. with reference to the appointment of a teacher at the Dog Creek Indian Reserve.

It is my recommendation that Mr.John Malcolm Cliff Macdonald should receive the appointment as teacher. I do not recognise the right of anyone else to recommend teachers for the Indian Schools that are in my Jurisdiction. I ask you to take Mr.MacDonald for this year. His qualifications are not as good as I desire and I am most anxious that the teachers in these Indian Schools should be as well qualified as the teachers in the ordinary Public Schools.

Very truly yours,
+ Alfred O. Sweeny
Archbishop of Winnipeg.

May I enquire if anything has been done to improve the condition of the Sacred Heart at the Fort Alexander Reserve? It is in a most disgraceful shape and should be attended to at once. Some time ago I made representations to Mr.Ogletree on this matter.

My dear Mr. Scott,

I have found a teacher for Dog Creek Indian Day School and I have sent her there. Her name is Miss May Samregret. She holds a Second Class Professional Certificate of the Province of Manitoba. She has been teaching for ten years on provisional certificates, but only recently finished the Normal Course and secured the qualifications mentioned above. She is a bright girl and an excellent teacher. In compliance with your wish and according to the programme you have adopted, I did not wish to recommend anyone who had not the proper qualifications.

I do not know what salary was previously paid in this School, but remembering what you did in the case of Miss Corman at the Ebb and Flow School, I promised Miss Samregret that she would receive at least $100.00 a month. It takes a great deal of money to reach the place, for the railway fare and for the 25 miles which must be traversed in a sleigh. Moreover, the teacher has to buy and have transported the furniture required for the house, including stove, cooking utensils, bed and bed clothing, etc., etc. The expense is so great, that a salary of $100.00 is far from excessive. As Miss Samregret is a very capable person, I wish you would place in her hands also the distribution of medicine, etc., with whatever perquisite s may be attached thereto.

Miss Samregret is entering on her duties at once.

Very Faithfully Yours,

I am enclosing you a request from Miss M. Sanregret, Teacher of the Lake Manitoba Indian Day School, asking for an assistant.

I quite agree with the request of Miss Sanregret. Miss Sanregret is taking a great deal of interest in this school and now has 25 children attending school and in a few days will have 30 children. Miss Sanregret is working too hard as she is alone and there is too much work for her outside of the school work, Miss Sanregret should not be here alone, I do not like the idea of young girls living on the Reserve alone, it is not right. I would recommend that an assistant be appointed at $ 20.00 per month.

My dear Dr. Scott,

With further reference to the request which I made through you for the erection of a Boarding School on the Dog Creek Indian Reserve, may I say that I have since had the occasion to visit the Reserve. It seems to me that the position is ideal for a school of this kind. There are about 30 children of school age on the Reserve, there are about as many more on the Ebb and Flow Reserve, and besides, between Lakes Manitoba and Winnipeg we have Catholic Indians on the Fisher River and the Jackhead Reserves. For these latter no provision whatsoever has ever been made, and, this, it seems to me, is something that should engage the consideration of the Department. Let me add that the Sandy Bay School cannot accomodate the number of children who wish to enter and who have a right to depend upon it for an elementary education.

To my mind the construction of a Boarding School at Dog Creek would meet the situation and incidentally solve some other problems. It is absolutely necessary to erect new schools and new school residences at Dog Creek and Ebb & Flow. The old school at Ebb & Flow is literally a disgrace to the Department, and there is no school residence there at all. If the Boarding School be not undertaken, then it is imperative to attend at once to the other, and that would in the end be a sheer waste of public money. Moreover, the Boarding School would relieve you, I naturally suppose, from the necessity of having a Farm Instructor and Field Matron, as the object lesson would always be before the eyes of the people.

My dear Mr.McLean,

I want to thank you for your kind letter of the 20th instant,126-4-5,in which you tell me of the intention of the Department to erect a combined classroom and teacher's residence on the Ebb and Flow Indian Reserve. I am glad to know this,realizing as I do the deplorable condition of the present buildings. But I was hoping that the Department would have accepted my suggestion and request to have a Boarding School erected on the Dog Creek Reserve,which would have made unnecessary the construction now contemplated. You may remember that I wrote Dr.Scott on this matter,but never received any answer. If there be any possibility later of doing what I believe best,it would be better to delay. I wish you would take the matter up with Dr.Scott and give me a definite final answer later. I wanted one Boarding School which I would hope to make a pattern for all the others.

Yours very sincerely,

Dear Archbishop Sinnott:

I have Your Grace's letter of the 23rd instant, acknowledging my communication announcing a new building at the Ebb and Flow Indian Day School and asking concerning the possibilities of a residential school on the Dog Creek Reserve.

The Department has decided to go ahead with the day school building at Ebb and Flow, as the establishment of a residential school and the provision of the necessary funds is most uncertain. There are many pressing claims on the Appropriation for Indian Education, and, when the matter was brought to Dr. Scott's attention, before his departure for the Maritimes, he was not at all hopeful that favourable consideration could be given to the larger programme. As Your Grace is aware, there are several Indian residential schools where the physical equipment must be replaced and this first claim on Parliamentary Vote must be satisfied before our system can be extended.

Yours very truly,

J. D. McLean,
Acting Deputy Superintendent General.

My dear Dr. Scott,

I wrote you some time ago concerning the advisability of erecting an Indian Boarding School on the Dog Creek Indian Reserve. At the present time we have an excellent teacher there, who has given satisfaction to all. It is only by persuasion that I can keep her there for another year. I foresee the same difficulty of finding qualified teachers for these schools. I wish you would take under consideration the suggestion I took the liberty of making.

In the meantime, would it be too much to ask you to grant $40.00 a month to the Assistant at that school for the current year. I have an excellent young lady for the position who has done considerable social work among the poor in Winnipeg, especially with the newcomers to our land. She wants a salary of $20.00 a month above all her living expenses. I figure that these expenses amount to $20.00 a month more. Am I asking too much from the Department? It is my wish to be of service in rendering these schools more and more efficient, that they may do their work as you wish it to be done.

Dear Archbishop Sinnett:

I have your letter of the 13th instant, urging that the salary of the assistant teacher of the Lake Manitoba (Dog Creek) Indian Day School be at the rate of $40 per teaching month. I am pleased to inform Your Grace that I am today writing to Mr. Indian Agent Ogletree, authorising this increase. It is my wish that these day schools be as efficient as possible and the teachers should receive a fair living wage.

The teacher, of course, was away for the summer holidays, but from what I could gather the teacher who was appointed there last winter, Miss Sampegwet, did splendid work but there is some question as to whether she will return or not. If the Department secure the services of a satisfactory teacher there is no doubt that some steps will have to be taken next year to provide better living accommodation. The school and teacher's residence here is a poor affair.

I have your letter of the 19th instant, with reference to Mr. H. A. Martel's application for the Pine Bluff Indian Day School. With further Reference to your letter of the 3rd instant, No. I26-6-I.

On making enquiries from Miss M.J. Sanregret, on what authority Miss Mary Sopchuck was appointed Miss Sanregret informs me that she had authority from His Grace the Archbishop of Winnipeg, which she thought was all that was required, as the late Indian Agent Mr. Ogletree had told her that her assistant must be recommended by His Grace, but that he did not tell her it needed the approval of the Department. I understand from Miss Sanregret that Miss S.A. Slavin left the last of January and that an arrangement was made between Miss Slavin and Miss Sopchuck regarding the salary, so I have forwarded the cheque to Miss Sanregret advising her to see that the arrangements that were made are carried out.

Miss Sanregret informs me that His Grace the Archpishop of Winnipeg, approves of the appointment of Miss Sopchuck to the end of the June term I928. I also note that Miss Sopchuck qualification is only Grade VI standing.

I have written Miss Sanregret, that in future when an appointment of an Assistant is made, it must have the approval of the Department, and that all business in connection with her school must be done through this Office.

My dear Dr. Scott,

I am taking the liberty of forwarding to you a letter that I have received from Miss Samregret, the teacher at Dog Creek Indian Reserve. The incident, of which Miss Samregret complains, is a very painful one. The accusation that two young ladies of excellent character were keeping or making "homebrew" is so absurd that the Agent should not have believed it for a moment and should not have insulted them by sending the Mounted Police to make a search of the premises. He owes them an apology.

Replying to yours of the 16th. inst., regarding the Teacher making wine on the reserve. I has heard before that she had made wine and got drunk, but I took it as a joke until Mr. J.H. Knox at Brixedale told me about the wine she gave him. She gave him the wine on Sept. 20th. and he told us about it on October 1st., when he came to the Reserve again.

I do not think Mr.Knox will deny this, as my wife and I heard him make the statement in our house, and he might have known that he was telling me something that I had to take up.

Knowing that there was wine in the Teacher's house on September 20th. I would think it proper to search the house now for further evidence.

Re: May J. Sanregret (Teacher) - Dog Creek Indian Res.
Complaint re.

Acting on instructions received from the Officer Commanding, Manitoba District, on the afternoon of the 13th, inst. I proceeded by C.N.R. to Brickdale, Man. and on the following morning by hired livery to the residence of the farm instructor, Dog Creek Indian Reserve, for the purpose of investigating a complaint that the above named May Sanregret, Teacher, residing on the Reserve, had made wine and got drunk.

I first interviewed Mr. J. Knox, Liveryman, Brickdale, Man. who was reported by Mr. Johnson, Farm Inst. to the Reserve, as having told him in the presence of Johnson's wife, that he had received a drink of wine at the teacher's residence. Mr. Knox stated that the drink he received at the teacher's residence was nothing more than fruit juice and water, jokingly referred to by the teacher and her maid as their wine, and that knowing the teacher and Mr. Johnson did not gull well together, he had asked Mr. Johnson if he had tried the teacher's wine and told he had had a snort of it for a joke, not dreaming that Johnson would take him seriously. I later took a statement from Mr. Knox to this effect.

On arriving at the Reserve I proceeded to the Instructor's residence, and informing him of Mr. Knox's statement, asked him what other information he had regarding the teacher having got drunk, and whether the Indians had reported this. He informed me that some time back Miss Sanregret herself had told his wife that she had fixed up some plum juice, and that after drinking it she had started to laugh and could not stop, this was the only information he had and he did not want his wife's name brought into the matter.

I then proceeded to the teacher's residence, and without giving her any names, told her that a complaint had been made that she was making wine and that the best way to clear the matter up was for me to search the premises, this I did but found no wine.

Miss Sanregret declared that there never had been any intoxicating liquor on the premises since she had resided there, and on being asked if she had ever made up any fruit juice, she stated that the water was not fit to drink and that to make it palatable she had used fruit juice from preserved fruit, of which she had quite a stock, and she thought that this had given rise to the story. I obtained a statement from her to this effect.

Statements from Miss Sanregret and Mr. Knox attached.

Sir;-

I beg to attach hereto a letter from Miss May J. Sanregret, Teacher, Lake Manitoba Day School, resigning from her duties as teacher on the 31st March 1929. Miss Sanregret claims that she cannot get along with her assistant, Miss Dubriel, and gives this as her reason for resigning. I have had considerable trouble at this school, Miss Sanregret cannot get along with the Farm Instructor, on the reserve, and I am convinced that the man has done all in his power to please her, she is very exacting and it is impossible to satisfy her. During the period of her stay on the reserve she has had four assistant teachers, Misses Koraski, Slavin, Sopchuk and the present Miss Dubriel, the three teachers previous to Miss Dubriel left because they could not get along with Miss Sanregret. During my last visit to the reserve, Miss Dubriel complained to me that Miss Sanregret was making things very unpleasant for her with a view to having her resign. I interviewed both parties, and the matter was patched up. Miss Dubriel appears a very quiet capable girl, and I would not think her of a quarrelsome disposition. Miss Sanregret has done very good work on the reserve with the children, she resigned from her duties last summer term, and I persuaded her to continue. I would strongly recommend that Miss Sanregret resignation be accepted by the Department, a teacher will have to be appointed to take her place, as Miss Dubriel does not hold a certificate.

Dear Archbishop Sinnott:

I have to inform Your Grace that Miss May J. Sampsonet, teacher of the Lake Manitoba Indian Day School, has resigned her position. It will be necessary to have a qualified successor, who can commence duties on April first. I should be grateful if Your Grace would let the Department have a nomination without delay. I understand that Miss Laurial, the assistant, is prepared to stay on but she could not take the class room work as she is not qualified. A salary of $100 per teaching month will be allowed for a teacher with second class professional qualifications.

I have been directed to acknowledge receipt of your letter of the 13th instant, relative to the resignation which you forwarded in February, last, to Mr. Agent Waite. Mr. Waite was informed that the Department accepted your resignation from the end of the present month, and we have written the Roman Catholic Church authorities of the Archdiocese of Winnipeg to nominate a teacher to succeed you.

Before leaving the school, you should prepare a return on the form for that purpose showing the attendance and days taught by you during the current quarter. This you should hand to Mr. Agent Waite, to be forwarded to the Department, when payment of the salary due you will be made.

The teacher is resigning her position at the end of the month, her resignation has been forwarded to the Department. Miss Sanregret is of a very nervous disposition and is on the verge of a breakdown. She cannot get along with any of her assistant teachers; she has had four in the past two years and is not on speaking terms with the Farm Instructor. Miss Sanregret resigned at the end of last term but I persuaded her to continue. I recommend that her resignation be accepted.

Sir,

In further reference to your letter of February 26th, last, enclosing the resignation of Miss Sanregret as teacher of the Lake Manitoba Indian Day School, and the Department's reply thereto of March 4th, I have to say that a communication has been received from Miss Sanregret in which she informs the Department that, at the request of the Vicar General of the Archdiocese of Winnipeg, she was instructed to return and resume duties as teacher. In view of the difficulty in obtaining the services of a teacher at the present time, the Department is informing the Church authorities that it will approve of Miss Sanregret remaining as teacher for the balance of the present school year, which ends on June 30th, next, at which time her services must terminate.

Right Rev. Monsignor

A communication has been received from Miss May J. Sanregret in which she informs the Department that she has, on your instructions, returned and taken up duties as teacher of the Lake Manitoba (Dog Creek) Indian Day School. I may say that the Department accepted the resignation of Miss Sanregret to take effect on the 31st of March, last, and His Grace the Archbishop of Winnipeg was informed accordingly. The Department received complaints from time to time regarding the lack of tact on the part of Miss Sanregret and that she was unable to work in harmony with her assistants. For this reason it was thought advisable to accept her resignation.

However, as it appears from Miss Sanregret's letter that she has returned and resumed duties, the Department will allow her to remain as teacher during the balance of the present school year, viz., to June 30th, next, after which date her services should terminate. This will give you an opportunity to make enquiries and nominate the services of a qualified teacher to take charge of this school when it reopens after the summer holidays, on or about September 1st, next, and I shall be pleased if, in due time, you will forward the name, qualifications and experience of the teacher whom you recommend.

My dear Sir,

In answer to your letter of August 15th, No.126-6-1,I beg to report as follows:

Miss May J.Sanregret has consented to return as teacher of the Lake Manitoba (Dog Creek) Indian Day School. I am glad of this,as Miss Sanregret has been very successful in her work.

Miss Antoinette Beiron will go to Dog Creek as her Assistant,in the place of Miss Dubreuil,who occupied that position last year.

These two young ladies will commence their duties on Sept.3rd. I hope that this will meet with the approbation of the Department.

I have made every effort to find a qualified teacher for Ebb and Flow Indian School, and I hope to be able to make a recommendation in a few days.

My dear Archbishop Sinnott,-

I have to acknowledge the receipt of your letter of the 10th instant in which you draw my attention to the advisability of building a residential school on the Dog Creek Indian Reserve.

As it is not possible to provide more than a certain amount of funds each year for the cost of erecting residential school buildings, we necessarily have to limit the number of projects in which we can engage during each fiscal year, and there are several buildings which will have to be undertaken before it would be possible to consider the erection of a school on the Dog Creek Reserve, and as the Department is not favourable to the formation of small residential schools, the matter would have to be given most careful consideration.

Dear Mr. Graham:

I have been giving consideration to the education of Roman Catholic Indian children in the Lake Manitoba district, as I am desirous of determining a policy for the future. As you are aware, at the present time we have the Sandy Bay Indian Residential School and the Ebb and Flow Indian Day School and a combined school at Crane River. In addition, there is the Lake Manitoba Indian Day School on the Dog Creek Reserve, on the eastern shore of the lake.

As I understand it, the buildings at the Sandy Bay Residential School are in fair shape, but the water supply is bad. Further, there is not sufficient accommodation there for the Roman Catholic children of the area who require residential school training. Your 208-11A H.C. 2. of September 16th, last, recommends that if the Sandy Bay School is to be rebuilt a better site should be secured. Good farm land and good water are of prime importance, and these are not found at the present site.

I may add, in confidence, that the Church is asking for the establishment of a new residential school on the Dog Creek Reserve. This request is not sponsored by any of the Missionary Orders and

I do not know what arrangements could be made for its conduct, if granted. Our census shows about 51 children of school age there.

On the four reserves around the lake, there are apparently 175 children of school age. Approximately 150 of these would be physically fit for residential school training. This suggests but one school for the district. As the Oblates are already associated with us in the conduct of the Sandy Bay School, I am inclined towards continuing the association by asking them to manage a new school. The next question is when should it be constructed - in other words, how long can the existing school be used? Lately, the Department has asked the Indian Agent to enquire if deep or Artesian wells have been successful in this area. This might solve the problem of drinking water.

I should like you to let me have a general report and recommendation in this connection. The day schools in operation are fairly successful and might be allowed to continue for the time being.

I have discussed with the Minister the question of a residential school on the Dog Creek Reserve and, as I anticipated, it was impossible to do anything at the present time. Dear Archbishop Sinnott:

I have Your Grace's letter of the 17th instant, urging the establishment of an Indian residential school on the Dog Creek Reserve. There are so many pressing claims on the Appropriation for Indian Education, that any extension of the work must be given very careful consideration. The future of the Sandy Bay Residential School should be considered in this connection. The Oblate Order is urging a new and larger building. I do not know when funds can be provided to satisfy this need; but I am free to state that the Department's policy is to put our existing institutions into good condition before establishing new ones. I shall give Your Grace's suggestion consideration when the future programme is being determined.

Yours very truly,

I think I should like you to read the attached correspondence with Archbishop Sinnott. I do not see how I can answer his letter of March 27th because I have nothing more to say. It will be some time I think before we get funds for a school on the Dog Creek Reserve, as you know we are not in favour of establishing small residential schools.

My dear Archbishop Sinnett,-

I must confess that I was rather disturbed by your letter, but your subsequent communication of March 29th allays the effect of your first communication. I have indeed endeavoured to meet Your Grace's wishes in every way, as I know how interested you are in the Indians, and I know also that your recommendations are well considered, however, the experience of the Department and the Churches has shown that it is not economical to have small Residential Schools. When I said that the matter would be considered, I meant that your views would be sympathetically considered, and your suggestion that we should not enlarge the school at Sandy Bay will have due weight. At the same time I cannot hold out hope that we will be able to get any further appropriation for education in the Estimates for the current year. We are building two new schools for Roman Catholic children to take the place of dilapidated and antiquated buildings, one near St. Paul de Metis, Alberta, and the other on the Muscowequan Reserve, near Lestock, Sask. Although my Minister is generous in his Estimates presented to Parliament, we have such heavy demands on us for medical and hospital services and general relief, that it is difficult to get full supply for our varied needs.

With the kindest regards, and thanking you for your letters, I am

Yours faithfully,

Duncan C. Scott

My dear Sir,

I shall acquaint Miss Weber with the news of her appointment as Teacher of the Lake Manitoba Indian Day School. She will take up her duties at the time mentioned.

I take it for granted that Miss Antoinette Doiron will be Assistant,as was the case last year. Miss Doiron did excellent work among the Indians in visiting them and nursing them in their homes. If it were possible to raise her salary a little,I would appreciate it very much. She deserves an encouragement,for she has gone into her work with a great deal of zeal and enthusiasm.

Most Rev. Sir:

I have to acknowledge receipt of Your Grace's letter of the 15th instant, requesting an increase in the salary of Miss Antoinette Boiron, assistant teacher at the Lake Manitoba Indian Day School.

In reply I have to inform Your Grace that the Department will be pleased to grant Miss Boiron an increase of $5 per teaching month from the 1st proximo. This will make her salary from that date at the rate of $45 per teaching month. The local Indian Agent is being informed accordingly.

It is noted that Miss Kathleen Weber, who has been appointed teacher, will take up duties on the 2nd proximo.

EXTRACT from Report of Mr. Inspector Plewes, dated November 3rd, 1930, on his inspection of the LAKE MANITOBA INDIAN DAY SCHOOL.

Original on File 126-6-6.

Katherine Caroline Weber - Age 18.

Interim 2nd Class Teaching Certificate.

Success:- Reasonably good. Miss Weber is a beginner and has been in charge only a short time. She is using the lessons or methods given in Normal School. Experience will help her to adapt these to the Indian child.

Miss Weber and her assistant seem to manage quite well. They are comfortably housed and seem to enjoy their work. Miss Weber is quite young and inexperienced but time will probably bring wisdom in handling Indian children.

A suitable man and wife would make a better pair in positions of this kind.

Re. Resignation Miss Doiron-DOG CREE

I just have received a letter from Miss Doiron, the actual nurse and dispenser for the DOG CREEK Indian Reserve, telling me that she had sent her resignation to the Department . Probably you must have it in [redacted] .

His Grace Archbishop SINNOTT, who had engaged her, is willing to accept this resignation and charged me to look for somebody fit for the job .

If you have no objection, I would be pleased that the Department engage Mrs. L. VAUDRY , actually 2-186 Provencher Aven. St-BONIFACE, who would be free for coming after the Christmas vacation, time when start the resignation . This Lady is a widow, all qualified for that kind of work, old however in good health and strong and of a very good morality. She is capable, and aside of her work for nursing she would willingly show sewing to the girls . I personnaly think that this lady will be of a great help to the Reserve . She knows already enough

of the work in the Reserves because a great number of years ago had worked with an old Missionary, Rev. Vales, principal at Fort Alexander .

She will agree better with Miss Weber than did Miss Doiron , enacting rather like a Mother to her . And if later on,a man will teach,she will be more easily associated with him than a young girl .

Now , kindly advise me as soon as possible about this arrangement, giving me the probable answer of the Department as well as the amount paid in wages and conditions .

I am indeed anxious to know all that in a way that we do not lose any time and be able to fix everythink before the time appointed by you for undertaking the work, so I was advised by Mhe Inspector HAMILTON .

MR. BUCKARD.

Mr. Agent Waite, Portage la Prairie, has forwarded the resignation of Miss Antoinette Doiron, assistant teacher of the Lake Manitoba Indian Day School, to take effect at the end of the current month. This school is located on the Dog Creek Reserve, No. 48, in the Manitou[illegible] agency and in the federal district of Portage la Prairie. Miss Doiron's appointment was made on the recommendation of His Grace the Archbishop of Winnipeg, under whose auspices the school is conducted.

The church authorities have nominated Mrs. L. Vandry, 146 Provencher Avenue, St. Boniface, to succeed Miss Doiron as from the first of January, next. The salary allowed is at the rate of $45 per teaching month, less 10%.

I should be pleased to be advised if the appointment of Mrs. Vandry meets with approval or to have the name of the person who should receive the appointment. I may add that the senior teacher is Miss Vener and it will be necessary to have a woman appointed assistant teacher, as both workers live in a residence provided for them, adjacent to the school.

Sir,

I have your letter of the 30th ultimo, enclosing the resignation of Miss Antoinette Delorme, assistant teacher at the ... Manitoba Indian day school, and also a communication which you received from the Principal Nurse of the Reserve, Manitoba, on behalf of the Grand Archbishop Langevin, the services of Mrs. L. Vandry, as housekeeper vice Mr. Dumoine, to succeed the latter as from the first of January, next. In reply I have to say that the resignation of Miss Delorme is accepted, to take effect at the end of the current month.

With reference to the nomination of Mrs. Vandry, I have to say that, provided she has the necessary academic qualifications, the Department will approve of her appointment as assistant teacher, to begin duties on or about January first, next. The salary allowed her will be at the same rate as was paid Miss Delorme, viz.: $40 per teaching month, less 10%.

It is noted, in the letter which you forwarded from the visiting nurse, who endorses Mrs. Vandry's appointment, that the (cross) thumbprint of Louise Vandry appears to be witness's mark to an enclosed document. Please advise the Department in accordance with the contents of this letter.

Sir:

I beg to acknowledge receipt of your letter of the 13th instant, in which you enclose the resignation of Mrs. L. Vaudry as assistant teacher of the Lake Manitoba Indian Day School. Her resignation is accepted. Please let me know when she gives up duties. It is presumed that she will remain at least until the end of this month.

In the past, the Department has permitted the Archbishop of Winnipeg, Most Rev. A. A. Sinnott, D.D., to nominate the teacher for this school. Please ascertain from him at once if he wishes to nominate a successor to Mrs. Vaudry, and, if so, the name, age and qualifications of the teacher whom he nominates should be forwarded for the Department's consideration. If he does not wish to nominate a teacher, you should so advise me, in order that the Department can secure one.

My dear Mr.Waite,

I beg to submit the name of Miss Loretta Retty for the position of assistant teacher at the Manitoba Day School. Miss Retty is 51 years of age and is a Registered Nurse. I feel that,as a Nurse,she can do excellent work on the Reserve. I understand that the salary is $45.00 a month,but,as Miss Retty is a nurse, I think that she is entitled to more pay and I would ask you to submit this to the Department.

You may send her appointment to me and I will see that it reaches her promptly.

Sir: Re: 26-6-1, Ottawa, Spetember 18th, 1934.

In reference to the above noted letter, I beg to enclose a letter received from His Grace, The Archbishop of Winnipeg in connection with the appointment of an assistant teacher, Lake Manitoba Reserve.

If I may be allowed to comment on His Grace's letter regarding an increase in the salary of the teacher, I consider $45.00 per month good pay for the amount of work an assistant teacher has to do on this reserve. The work consists of keeping house for the teacher and the issueing of medicine. There are occasions when an experienced nurse's services would be invaluable as the Doctor lives 28 miles from the reserve. I have also noted, that where a nurse has only had City experience, the Doctor is called out for very simple cases.

Sir:

I have your letter of the third instant, relative to the request of Miss Margaretta Graham, teacher of the Lake Manitoba Indian Day School, that permission be granted to keep the school in operation during the month of July, next, taking the usual summer holidays during the months of August and September. It is noted that the Indians will be at home during the month of July, while, during the months of August and September, they are away, harvesting.

The Department will approve of the school being continued in operation during the month of July and the usual summer holidays being taken during the months of August and September, next.

At the end of July, the teacher should prepare a return, on the form for the purpose, showing the attendance, days taught, etc., during that month, and forward same to the Department, through your office. It is understood that the assistant teacher, Miss Retty, also, will continue her services until the end of July.

The school should re-open, after the holiday period, on October first, next.

I wish to submit the following report on the Lake Manitoba Indian Day School, Portage Agency, inspected Nov.28/40.

The school is in charge of Sister Margarita and the grades arranged as follows:

Grade 1	15	
" 2	4	
" 3	6	
" 5	1	26

a total of 25.

The children appeared to be well up in their respective grades. The exercise books were neat and tidy and the writing exceedingly good. The speed with which the children are able to do their number work is remarkable, in fact the best I have

The average attendance is good. The children were fairly well clothed and quite neat in appearance. A hot lunch is served at noon. This is indeedneeded and I believe, greatly appreciated.

The school and residence have been painted and present a much better appearance. The buildings were indeed badly in need of painting. The residence is well kept and is now in good repair.

EX'D. A

Ottawa, October 19, 1943.

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.

I desire to refer to your letter of October 18, in which you intimated that Sister Cecilia, assistant teacher at the Lake Manitoba Reserve, was not returning to the day school and that her place had been taken by Sister Vergilia, of the same Order.

The last quarterly return from this school indicates that there are at present on the roll 18 pupils and there was an attendance of 16 when the public school inspector made his last inspection. In view of this comparatively small enrolment, it is exceedingly difficult to justify the employment of two teachers at this school. It is just possible, of course, that one of the teachers, probably the assistant, is engaged in welfare work or in providing nursing service on the reserve. If such is the case, this teacher, in my judgment, should be paid from either the Medical or the Welfare Vote. We have Indian day schools in the Dominion at this date with an enrolment of over 50, with one teacher in charge. It would be appreciated, therefore, if you would send forward in due course a report on this school and conditions on the reserve and a definite recommendation with respect to the employment of the assistant teacher.

H. A. Hoey,
Supt. of Welfare & Training.

Re: 126-6-1, Ottawa, October 19, 1943.

I beg to acknowledge receipt of the above noted letter, in regard to the two teachers on the Lake Manitoba Reserve, and wish to advise that the Assistant Teacher dispenses medicines and is also engaged in welfare work on the reserve. The teaching on this reserve is done by the sisters of the Order of St. Benedictine, and I am given to understand that a sister of this order is not allowed to live alone.

There will be an increase in attendance in a short time. A number of Indians are away cutting cord-wood and will be returning to the reserve towards the end of the month. The expected attendance will be 25.

There is a resident priest on the reserve who re-

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.

I desire to refer to your letter of October 18 and my reply of October 15, with reference to Sister Virgilia replacing Sister Cecilia as assistant teacher at the Lake Manitoba Day School. By the time your letter arrived the cheques for September had been issued and consequently a cheque for $58.65 was issued and sent to Sister Cecilia at the end of September. She has not returned this cheque. Possibly she endorsed it to Sister Virgilia. We require immediately one of two things: a statement from Sister Virgilia that she has received the cheque from Sister Cecilia for the month of September, or the return of the cheque by Sister Cecilia. In the latter event it will permit us to issue a cheque for the September salary to Sister Virgilia. Your immediate, kind attention to this matter would be appreciated.

Dear Corporal Wood:

In our 3 day absence from Dog Creek, someone broke into two cabins through the window and stole some articles. Should you be anywhere near this place very soon, we would be very pleased if you would check it. We would like to know exactly what was stolen so we could know whether anything would be done about the matter or not. The articles stolen do not amount to much, but it's the principle of breaking in that we should like to know the criminals prosecuted, as otherwise it may be repeated again.

With every good wish, we remain,

Very truly yours,

1. Further to the above and marginally noted previous reports, on 25-8-45, the writer interviewed James S[illegible] at Hendinsly Point. S[illegible] was given the usual warning after which the following statement was obtained:

STATEMENT OF JAMES S[illegible], 25-8-45.

(a) "On a Saturday about two weeks after Treaty Time at about 3 o'clock in the afternoon Norman Baptiste met me by the church on Lake Manitoba Indian Reserve. Norman said he was looking for me. I asked him why and he said 'I got some drink for you'. I started asking him questions and he told me that there were 24 bottles of wine in the school and that there was a case of beer there too.

(b) Norman and I walked north on the road and met my brother, Lawrence Sutherland, near Louis Chicoose's place. The 3 of us went into the bush and Norman Baptiste gave us a gallon jug of wine. Norman had a couple of bottles of wine besides. We drank some of the wine out of the gallon jug and hid the rest of it in the bush.

(c) The 3 of us then went to the school. Norman Baptiste took a stone and broke the glass in the first window from the north side. He put a piece of cardboard against the wall under the window and climbed up and stood on the window sill. He put his hand in through the hole and turned the lock off. Then he pulled out two 2½ inch nails that were put in the top of the window. He pushed them back and forth with his hand until they came loose. Then he pushed the window up and went in through.

(d) Lawrence climbed in next and I went in last. We were in the school about 15 minutes. Norman told me that when he put the first jug and a half on case of wine, one corner was cracked out of the window glass and he stuck his finger in to turn the lock off. The nails weren't in the window that time.

(e) Norman had opened the cupboard at the back of the school when I came in. Norman was pulling boxes out from the far side of the cupboard. We took out 24 bottles of wine and one case of beer. We left 4 bottles of same wine in the cupboard. Lawrence jumped out the window first, I followed him and Norman handed the wine and the beer to us. Norman said, 'Father Archibald must be here looking'.

(f) We put one case of wine and the case of beer by a corduroy pile near the school, inside the fence. About 15 minutes later we came and got it and took it into the bush where we were drinking it. George Sean came and was drinking with us too. After that Norman went away and got Jim Paul. Jim Paul was drinking with us too. We hid the case of beer and 5 bottles of wine for dinner. Eleanor Settyemashing came after Jim Paul and was drinking with us.

(g) On Sunday morning Jim Paul went to George Sean to get the rest of the wine from the school. George Sean brought it to us and Norman Baptiste took it away from him. Norman said, '

Re: B.E. & Theft - sec.460 C.C., forgery - sec. 470(j) C.C. - comp. of Chris Halldorson, Lundale, Man.

The O.C., "D" Division,
R.C.M.Police, Winnipeg.

FORWARDED 4-10-45. Memo from the Officer in charge "D" C.I.B. dated October 3rd, 1945, was received following the drafting of this letter to the D.M.O., and the following points have been covered:-

(a) Jesse Sutherland is now at the Manitoba Penitentiary, serving his sentence of two years imprisonment. In view of this it will not be possible to attempt any identification through the complainant, W. Delmer Ruston until authority is received so to do.

(b) It is understood from Cst. Weir, Division Headquarters Reader, that cancellation has been made of all arrangements previously undertaken to have Mr. Ruston patrol to the Headingly Usol with Cst. Chad for the identification parade planned to be undertaken.

May authority be obtained please from the Superintendent of Penitentiaries to permit the interview of Jesse Sutherland at the Manitoba Penitentiary so that an identification parade can be organized and an opportunity afforded to W. Delmer Ruston to see the suspect James Sutherland, and determine if he is the person responsible for the uttering of the cheque upon him at Treherne, Manitoba, on or about July 24th, 1945.

It is understood that Mr. W. Delmer Ruston is prepared to attend at the Manitoba Penitentiary if and when we desire his presence.

Dear Sir:-

Re: B.E. & Theft - sec.460 C.C.,

comp. of Chris Hellgerson,
[illegible]

1. The last correspondence between our offices was your letter dated September 26th, 1945, in the above connection.

2. Forwarded herewith please find a single copy of Laboratory Report from our Crime Detection Laboratory at Regina dated September 28th, 1945, showing that we can expect no help from handwriting specimens forwarded there for examination.

3. James Sutherland, the suspect in this general matter, was recently sentenced to a term of imprisonment in the Manitoba Penitentiary, and at the time of writing is located there.

4. It was our intention, and an effort is being made in this respect, to have the complainant at Treherne, W. Delmer Ruston, attempt to identify the suspect from a "line-up" of persons among whom would be James Sutherland, but at the time of writing it is not known if such can be conveniently cared for by Dr. Ruston's commitments.

5. I will write to you again in due course.

Yours truly,

SUPT.,

The O.C., "D" Division,
R.C.M. Police, Winnipeg.

FORWARDED, 27-9-46. May this file be referred back to Treherne Detachment, to be advanced as set forth at paras 6, 7, 8, & 12.

The case is to be discussed by our member at Ashern Detachment vide para 8, with Crown Counsel when in the Arinsdale district on the 28th instant.

Para 10 has been noted.

Copies of letter to the Crime Detection Laboratory with respect to para 11 are going forward herewith.

It is apparently intended to interview Bill Deacon, for whom James Sutherland worked at one time, and whose name was seemingly intended in the forged endorsement to the cheques passed upon A. Levi of Winnipeg and S. Delmar Huston of Treherne.

Copies of letter from this office directed to Ashern Detachment are going forward at this time, covering the outstanding charges in a general way.

There is a cross reference file in respect to James Sutherland which is your 43H 652-1-62 (Dpt. D/Division 43 B-488).

1. Further to the above and to marginally noted previous reports, this date while in Winnipeg on other duties patrol continued to Kendrigly Coal where Jacob [illegible] (Treaty Indian) was again interviewed. Nothing could be gained, [illegible] and denies any connection with offences which are the subject of this file. An effort was made to obtain further specimens of his handwriting, he refused to give any. In possession of this determined at present are 12 specimens of his signatures taken by Det. Larson on 21-6-48, it is noted that [illegible] states that he cannot write anything but his name.

2. Investigation herein has been delayed due to the fact that Det. Larson has been A.[illegible], and the writer has been faced with a constant press of other urgent duty.

3. It is considered beyond doubt that [illegible] is the guilty party herein, though proof at the present is not available. The following witnesses are now available [illegible] to state that an Indian (presumably [illegible] though not identified as yet) purchased a ticket to Winnipeg and paid with $5 expense and the remainder in coins and one or two bills, as stated by [illegible], Erikdale, to establish that [illegible] LAND was in the Erikdale district at the time of the offence.

4. Further enquiries at Erikdale show that [illegible] LAND worked for one [illegible] just before the time of the offence, this is the name he gave to [illegible]. Delayed [illegible] at [illegible], and close examination of the signatures on the two forged cheques show that they are probably an effort of a poor writer to write "Bill Wilson". [illegible] has not been interviewed to date, this will be given attention as early as possible.

5. It is further learned at Erikdale that [illegible] of Treasuring has been receiving letters to [illegible] an effort to make him pay the [illegible] account of the forged cheque. May I please be advised that [illegible] is no way involved in this matter, apart from his name being used by [illegible].

6. It is noted in [illegible]'s statement that [illegible] received a [illegible] registered letter sent by the [illegible] or two days previous to [illegible]. Origin of this [illegible] will be investigated. If [illegible] left no such [illegible] have been [illegible] for it [illegible] would [illegible] in this case as, [illegible] will be made at the [illegible] opportunity.

Sir:-

1. With reference to the above, I have to report that on this date I [redacted] (complainant) Ingersoll, gave the information regarding the forged cheque which he had cashed.

2. The following self explanatory statement was taken from K. Delmer B [redacted] -

Witness: "On the morning of Tuesday, July 24th, 1945, an Indian or Metis brand came into the store. He was about 40 - 45 years, 5'7", with no distinguishing facial characteristics, wearing a cap and I don't remember how else he was dressed. He wanted to get a cheque cashed and showed me a cheque and produced a registration form as supplied by a post office from a Saskatchewan Territorial Issue. I am sure on this form was "Bill Mason" and was signed quite legibly. The cheque was of the Royal Bank of Canada, Kinistino Branch, for $25. and is for an Interest Bearing Dominion Stamp on the face of it. The Saskatchewan Return Stamp had the signature of either "Bill [illegible]" or "Bill M[illegible]". This Indian then presented himself as Bill [illegible] endorsed the cheque as Bill Mason by copying from some "Bill Mason" from his registration form in his possession. At that time I thought that the same person who had issued and signed the registration form had placed the name "Bill M[illegible]" on it as the Indian's signature didn't compare very well with the writing of the name on the registration form.

I turned the cheque into the Bank of Commerce, Ingersoll, some two weeks ago, July 26th, 1945. Later it was returned from Winnipeg with the notation "No authority to sign".

I wrote a registered letter to the said Bill Mason, Nelsonville, who did receive notification that said letter and [illegible] delivered to [illegible] Erickdale, Man. I am now holding [illegible] receipt for the delivery of my letter as an appropriate receipt is at the Erickdale Post Office.

The Indian bought a pair of black denim [illegible] and a work shirt - total [illegible]. I [illegible] on the bus which [illegible] Winnipeg at [illegible] I was able to [illegible] receipt [illegible].

3. [illegible] was issued a [illegible] of 7 [illegible] of Indians, [illegible] Bands and which [illegible] a photo of James [illegible], Metis [illegible] issued on [illegible] and [illegible] of the [illegible] the Metis [illegible] Brandon. [illegible] ..... enquiries at the Federal Department of the Canadian National Railway revealed that [illegible] had obtained a refund of $20 on July 26th, 1945. This fact disproves [illegible]'s statement wherein he says that he bought the ticket at Erickdale on Friday. Friday was on July 27th, 1945.

4. On 27-8-45, John [illegible], Erickdale, Man., was contacted and from him it was learned that James [illegible] came to Sigurdson's farm which is situated one mile east and one mile south of Erickdale, Man., on Sunday, July 22nd, 1945. [illegible] had supper at Sigurdson's farm after which he left. On Monday, July 23rd, 1945, shortly before train time, James [illegible] approached John Sigurdson on the street in Erickdale and borrowed $20 from him. [illegible] stated that he was going to look for work and he did not have the required amount of money to buy his ticket. This definitely establishes that James [illegible] was in the vicinity of Erickdale, Man., about the time that Halldorson's garage was entered.

5. Was interviewed on 29-8-45, samples of James [illegible]'s handwriting were obtained. [illegible] contends that he cannot write anything other than his own name. Several efforts to have him copy other names and words proved futile. Seven samples of his signature, "Jim Bernard", were examined and are held on file here together with the above which was obtained by Mr. A. Levi. There will be held another further [illegible] in regard to the investigation of this matter at Treherne, Man. It will be noted in Mr. [illegible]'s statement that he admits going to Treherne, Man. [illegible] questioned further in this connection with him stated that he had visited a store in Treherne, the name of which he did not know, and that he had spent several dollars there but had not used a cheque.

6. Further investigation here will be largely governed by the results of the enquiries being conducted by Treherne Detachment. When the said information is received the indicated action for the furtherance of this case will be undertaken as expeditiously as possible.

7. Investigation will be continued and further report submitted in due course.

Investigation will continue regarding receipt of report from Treherne Detachment as to the people which was passed in Treherne.

No communication has been entered into with the R.C.M.P. for the present pending receipt of the result of investigation at Treherne.

1. Further to the above and marginally noted previous reports, on 8-10-46, James [redacted] was interviewed at Hendingly Deal in connection with the captionally noted offences. [redacted] denied all knowledge of the matter. The following statement concerning [redacted]'s movements during the time in question was obtained from him:-

[redacted]:

"I left the Trenty Grounds about four oclock on Sunday afternoon and went to Arkendale on Finkel's wood truck. Then I went back with a man from the Narrows, with a model A Ford car. I got off after we had crossed over and walked to Silvihill. I got there in the morning. I got a ride in a truck to Gypsumville. I stayed there two days. I came back from Gypsumville on a truck with a green box and green cab and went to Winnipeg. I went back to Arkendale the same day with an ashes truck. I went to Langton with a car from Winnipeg. I slept in Bob Kingsley's barn that night and walked to Arkendale next morning. On Friday morning I bought a ticket at the station to go to Winnipeg. I paid for the ticket - a one dollar bill, 2 fifty cent pieces, 3 quarters, and in coppers, and a dime and a nickel. I got a paper from the conductor on the train and took it to the mailing office in Winnipeg. They gave me another paper when I took to the railway station and I got 80¢ back.

"I took the moonlight train the same day to Victoria Beach. I stayed there a week and a half and came back to Winnipeg on the train. I took the Brandon bus to St. Claude, about 14 miles east of Treherne. I got a ride on a truck to Treherne. I stayed with my sister, Mrs. Norman Baptiste, in a tent. I came back to Winnipeg next day. I took the moonlight train to Grand Beach the same day. I picked berries there. I was there a week and two days. I came back to Winnipeg and the same night I went to Gladstone on a truck from Langruth. I got a ride from Gladstone with the priest from Sandy Bay. That was on Monday. On Monday night about 6 o'clock the policeman picked me up at Westbourne."

2. On 2-10-46, an identification line-up was arranged at Hendingly Deal, consisting of seven Indians including [redacted] (born [redacted]). Mr. A. Levi, of Levy's Clothing Store, [redacted] Main St., Winnipeg, Man., where one of the forged cheques was passed, examined this line-up but he was unable to identify the person who had passed the cheque.

3. On 5-10-46, enquiries were made at the Indian Affairs office in Winnipeg with a view of ascertaining the date of James [redacted]'s departure from Winnipeg, [redacted] a receipt he received to apply for a refund on his ticket. This office had no record of such matters. However,

1. With reference to the report in the above connection of the Ashern Detachment dated the 10th. instant, wherein mention is made of James SUTHERLAND, Treaty Indian, suspect in this case, possibly being at Grand Falls, I have to report that enquiries at Grand Falls revealed that SUTHERLAND has not been in that district since 1924. However, it was learned that he was in Winnipeg about a month ago and left for Westbourne, Manitoba in company with Frank FALLS and George BRAN, both Treaty Indians from the Long Brook Reserve. Within the last ten days BRAN and FALLS have returned to Winnipeg, and stated that SUTHERLAND was arrested by the police at Westbourne.

2. This latter information was obtained from Mrs. William Youl of Grand Falls, who had been told by Mrs. Adolf Solomon, [illegible] Pacific Avenue, Winnipeg, mother of George [illegible]. [redacted]

Sister Marguerita is in charge. Eighteen children are enrolled and 14 were present. The Grades are as follows:

Grade 1 - 10
Grade 2 - 5
Grade 3 - 1
Grade 5 - 2

The children were fairly well clothed and were clean.

The class-room was tidy and warm. The stove is cracked badly and should be renewed.

The school could be brighter and more cheerful if the walls received a coat of light paint. The Sister had some nice plants in the windows and this added greatly to the appearance.

The teacher's residence is in good repair. The cellar now has water in it to the depth of about three feet. A tank pump should be supplied so that the water could be pumped out. The walls of the cellar and floor is of boards. If a proper cement floor and walls were installed and a sump hole placed in one corner [redacted] to be made [redacted].

A school [redacted] was provided for this year from new [redacted] and the Sister intends to have the children to prepare their spring vegetables will be used for their noon meal. If the basement under the house can be kept dry it will be used for storage purposes.

My Dear Mr. Maybank,

In the Dog Creek Indian Reserve on Lake Manitoba there are something more than 40 children of school age. The Sisters from Sandy Bay Residential School have gone into the Reserve during the last year and by solicitation have taken away 8 children. So my kind and I think, to the mind of the Indian Department it is much better that the children should be educated at the Day School on the Reserve. When the time of schooling is over they are at hand on the Reserve but they take their place naturally in the environment to which they have always been accustomed. On the contrary those from the Boarding School are strangers and they find it hard to get back to their natural environment.

Consequently there should be a two room school on the Dog Creek Reserve. The school that is there now and another, preferably the present Sisters' House, with the kitchen where the girls could be taught cooking and another room where they could be taught sewing, etc. The children thus would get a practical education. May I ask you to submit this to the Authorities of the Indian Department.

Very sincerely yours,

Dear Ralph:

I have for acknowledgment your letter of November 13th, and also a letter received by you from Archbishop Sinnett sent forward therewith.

The Superintendent of Welfare [illegible] to build six or seven Indian day schools in the [illegible] year. The records here, however, do not indicate that a request for the establishment of a school at the Dog Creek Reserve has been received either from Indian Agent Waite or Inspector Hamilton. It is just possible, though, that if the needs of the Indian population there are more urgent than they appear to be at one or other of the reserves, [illegible] I would be glad to discuss with you personally immediately [illegible] your arrival at Ottawa for the Session. I am disposed to agree with the Archbishop that in view of all the circumstances, it would be [illegible] the children at Dog Creek on their own reserve.

I am returning Archbishop Sinnett's letter herewith.

Dear Ralph:

Further to my letter of November 18, I have now received further information concerning the school on the Lake Manitoba Indian Reserve.

Mr. Indian Agent White has made a full report concerning conditions in regard to the education of these children. His report reads as follows:

"With reference to the above noted letter and enclosure, being a letter addressed to Mr. Maybank, M.P., by His Grace Archbishop Simmett, I beg to advise that there are 45 children of school age on the Lake Manitoba Reserve. Of these, 18 are at the Day School and 23 at Sandy Bay Residential School. Of the four remaining, 2 are in Winnipeg and two at Pine [illegible]. Both families are resident at the points mentioned.

"At the present time there are two Sisters and a resident Priest on the Lake Manitoba Reserve. The idea in to increase the community, as two Sisters find it difficult to live together. Two additional sister teachers would make for a better and more congenial life. However, to build an additional school on the present site would be of no help to the Indian children, who are walking from four to five miles to the school. While the suggestion of teaching cooking, sewing, etc., may be sound, it still would be necessary to transport children to and from school if an addition on the present site was contemplated.

"No provision was made in Estimates for an additional school at Lake Manitoba. If it is the intention

Dear Sir:

Re: [redacted]

Inspector A. F. Kerr has turned over to me two letters relating to the above schools. These letters request a report on the teachers of the schools and state that no report has been received since June, 1946.

I may say that in September, 1946, I took over this field from Mr. Kerr. Since then I have made two inspections of these and other schools in the area. In each case reports were submitted to the Winnipeg office of the Indian Affairs Branch. It was my understanding that these reports would be forwarded from Winnipeg to Ottawa. It would appear, however, that such is not the case.

At present I am engaged on duties in Winnipeg. In a matter of two or three weeks I shall return to my division and shall forward to you copies of the reports sent to the Winnipeg office.

I regret the inconvenience caused, and trust that the above arrangement will be satisfactory.

When our records showed that we had not received any recent reports on the above two Indian Day Schools, we wrote to Mr. A. J. Kerr, Inspector of Schools, concerning this matter. We have now received a letter from Inspector Patterson, advising that he took over this field from Mr. Kerr in September, 1946. Since then he has made two inspections of these and other schools in the area and in each case submitted reports to the Winnipeg office of this Branch. It was his understanding that these reports would be forwarded here.

Could you please advise whether this has been done as our files do not show an Inspector's report on the Lake Manitoba School since June, 1946.

In your letter you refer to the Indian School Bulletin of June 1947 Article 56.

I left my copy of the bulletin in the Winnipeg Office. The only one on file here is Bulletin No. 5 dated September 1st, 1948. Apparently Mr. Waite took the first four issues for his own use.

May I please be supplied with the 1st four issues in order that I may refer to them as occasion arises.

Re: Salary R.A.Martel
Teacher Dog Creek I.R.

Sir:-

I have the honour to draw your attention to the fact that salary paid me for Quarter and year ending June 30th does not compare with that of last year.

At the end of the last Quarter for the School year 1921, I received $190.00 for school tuition, $45.00 as bonus and $12.50 for distributing rations. Thinking I was overpaid, I wrote you stating my impression.

Your answer was that having completed over the 200 days as required, I was entitled to the amount sent me, but that the bonus for Sept. Quarter would be less and it came less having received $13.00 only for said Quarter.

In view of this fact, as I have completed 205 days of School tuition, I would think that the principle applied last year is also applicable for the year ending June 30th.

As I am taking part of my holidays outside of the reserve, I would ask of you to kindly address your reply to

Yours respectfully

R. A. Martel

Ottawa, July 27, 1922.

Sir,-

I have to acknowledge the receipt of your letter of the 20th instant, with reference to the amount of salary paid you for the quarter ending June 30, 1922.

In reply I beg to say that you began duties at the Lake Manitoba Indian Day School, at a salary of $600.00 per annum, on September 1, 1920. The school year in Indian day schools begins September 1st and ends June 30th, and, as you were a new teacher at the Lake Manitoba school, you were paid for the quarter ending September 30, 1920, for the number of days you actually taught, an amount of $63.00.

For the December quarter 1920, you were paid one-quarter of your yearly salary, or $150.00, and for the March quarter 1921, you were paid the same amount.

When we received your return for the quarter ending June 30, 1921, (the end of the school year) it was found that you had taught the required number of days during the school year and, as you had previously been paid $[illegible].00, the Department paid you the balance of your yearly salary, namely, $237.00.

For the school year just closed, which began September 1, 1921, and ended June 30, 1922, the Department paid you as follows:-

September quarter,	1921,	.....	$150.00
December "	1921,	.....	150.00
March "	1922,	.....	150.00
June "	1922,	.....	150.00

You have, therefore, been paid the full amount of s[illegible] you.

There is still due you the bonus f[illegible] quarter ending June 30, 1922. The method of paym[illegible] bonus to teachers of Indian day schools for the fi[illegible] 1922-23, (which began April 1, 1922) has not ye[illegible] cided upon. As soon as a decision is made the [illegible] you for the June quarter will be paid.

Sir:

I have your letter of the 28th ultimo, enclosing the resignation of Miss Antoinette Doiron, assistant teacher at the Lake Manitoba Indian Day School, and also a communication which you received from the visiting Priest to the reserve, nominating, on behalf of His Grace Archbishop Sinnott, the services of Mrs. L. Vaudry, 186 Provencher Ave., St. Boniface, to succeed Miss Doiron as from the first of January, next. In reply I have to say that the resignation of Miss Doiron is accepted, to take effect at the end of the current month.

With reference to the nomination of Mrs. Vaudry, I have to say that, provided she has the necessary academic qualifications, the Department will approve of her appointment as assistant teacher, to begin duties on or about January first, next. The salary allowed her will be at the same rate as was paid Miss Doiron, viz.: $45 per teaching month, less 10%.

It is noted, in the letter which you forwarded from the visiting Priest, who endorses Mrs. Vaudry's appointment, that His Grace the Archbishop of Winnipeg approves the Priest's nomination of an assistant teacher. Please advise the interested parties in accordance with the contents of this letter.

Sirs

I have to acknowledge receipt of your letter of the 26th ultimo, enclosing a communication from His Grace the Archbishop of Winnipeg, nominating the services of Miss Loretta Reilly for the position as assistant teacher at the Lake Manitoba Indian Day School, to succeed Mrs. L. Vesmiry, who has resigned.

In reply I have to say that the appointment of Miss Reilly is approved. The salary allowed her will be at the rate of $40.00 per teaching month - this being the salary rating provided for the assistant teacher at this school. I would request that you inform His Grace accordingly and arrange for Miss Reilly to take up duties. Please advise the Department the date upon which she begins duties.

Sir:

I have your letter of the third instant, relative to the request of Miss Marguerette Graham, teacher of the Lake Manitoba Indian Day School, that permission be granted to keep the school in operation during the month of July, next, taking the usual summer holidays during the months of August and September. It is noted that the Indians will be at home during the month of July, while, during the months of August and September, they are away, harvesting.

The Department will approve of the school being continued in operation during the month of July and the usual summer holidays being taken during the months of August and September, next.

At the end of July, the teacher should prepare a return, on the form for the purpose, showing the attendance, days taught, etc., during that month, and forward same to the Department, through your office. It is understood that the assistant teacher, Miss Betty, also, will continue her services until the end of July.

The school should re-open, after the holiday period, on October first, next.

Sir:

I have your letter of the 31st ultimo, enclosing a communication from His Grace the Archbishop of Winnipeg in which he nominates the services of Sister Clara, O.S.B., as teacher, and Sister Cecilia, O.S.B., as assistant teacher, at the Lake Manitoba Indian Day School, and stating the qualifications and experience that they possess.

In reply I have to inform you that the appointment of Sister Clara, as teacher, and Sister Cecilia, as assistant teacher, at the above named school is approved. The salary allowed Sister Clara will be at the rate of $100 per teaching month, and Sister Cecilia, the assistant teacher, will be allowed $45 a teaching month.

I would request that you inform His Grace of the approval granted for the appointment of the two above named teachers. They should arrange to begin duties at the earliest possible date, and I would request that, later, you advise the Department of the date they began duties.

I enclose herewith Staff Questionnaire for each of these teachers, which they should fill in and forward direct to the Department as soon as possible. You should see that they receive these forms, as it is necessary that they be completed and returned before salary can be paid.

I also enclose circular regarding dates of opening and closing of Indian day schools, which you should forward to these teachers.

Re:- School No. 521.

In official letter of October 18, 1935, Mr. Agent Waite states that Sister Clara and Sister Cecilia commenced duties at the Lake Manitoba Indian Day School on September 23rd, 1935.

As yet, no payment of salary has been made to these teachers for the period the school was in operation during the current academic year and each teacher is, therefore, entitled to 8/30 of salary for September; plus salary for the months of October and November.

As Sister Clara's salary is at the rate of $100 a teaching month, the amount due her is 8/30 X $100 ($26.66); plus October salary ($100) and November salary ($100) or $226.66.

As Sister Cecilia's salary is at the rate of $45 a teaching month, the amount due her is 8/30 of $45. ($12.00); plus October salary ($45) and November salary ($45) or $102.00.

The following entry should, therefore, appear on the November Payliat:-

521 - Lake Manitoba - Sister Clara - Vegar, Man. - $1,000 - $226.66

521 - " " - Sister Cecilia - " " " - " 450 - $102.00

Supt. Dept. Indian Affairs,

Dear Sir,

It was my duty last fall to visit a number of Indian schools in the Interlake district in Manitoba. I wish to refer again to conditions in the Dog Creek school.

The visit of Mr Christianson and Mr White, practically, brings it again to my mind. Mr Christianson said that the matter of a new school for Dog Creek was under consideration.

The school building there is of log and mud, like the homes of the Indians themselves. It is very difficult to heat and the lighting is very poor. There is no porch on the door and the draft keeps the floor cold. The residence of the teacher and her companion is unfit for two young ladies to live comfortably in. I feel sure that conditions in the school room and in the home are responsible for attacks of illness from which the teacher suffered.

The teacher, Miss Langrell, does modern methods in teaching and has been getting good results comparatively speaking. I trust that her health will permit her to remain.

I might mention again the long distance some of the family could travel to and from home in the early winter and also the distance from town. Perhaps you have some others who are not in boarding school. Trusting that your deputation will improve the situation here. I am, Yours truly,

Jas. H. Ogilvie

Sir:

I have your letter of the 23rd instant, regarding your visit to the Lake Manitoba (Dog Creek) Indian Day School and reporting on the condition of the school building and teacher's residence.

In reply I beg to say that this matter has already been drawn to the attention of the Department. It is regretted, however, that we have no funds provided for the erection of new buildings at this point during the present fiscal year. The local Indian agent will be requested to report as to the urgent repairs that would be necessary to place these buildings in as comfortable a condition as possible for the next school year.

The Department is pleased to note that the teacher has been getting good results at this school. We have been furnishing milk and other supplies for the purpose of giving the pupils a midday meal.

Sir:

The Public School Inspector who has recently visited the Lake Manitoba (Dog Creek) Indian Day School has referred to the condition of the school and teacher's residence. He states, regarding the school building, that it is difficult to heat during the cold weather. There is no porch over the door and the draft keeps the floor cold. He says the residence is very uncomfortable for the teacher to live in.

There are no funds provided in this year's Estimates for the erection of new buildings on this reserve. You should inform the Department as to the more urgent repairs that would be required in order to place the school and residence in a fairly comfortable condition for next winter. You might state your views regarding the erection of a porch over the door of the school. Please mention the approximate cost of any work which you would recommend be carried out. It is not intended that any unnecessary repairs be made to these old buildings. This matter should receive your early attention in order that any work that may be authorized can be carried out before next fall.

Sir,-

I have the honor to reply to your letter of the 29thult.
Re the Day School Lake Manitoba Reserve.
I would advise that this school is beyond repair, a porch built over the door would improve matters a little , a new floor is absolutely necessary, & the building is not worth the expense, as the logs are rotten. The school is not large enough to accomodate all the children of school age. The house could be made fairly comfortable, a new floor would be necessary, and even in this case the building is not worth the outlay.
Mr Inspector Christianson recently laid a visit to this Reserve, & will be furnishing a report in due course.

Ottawa, August 9th, 1926.

Sir,

I have your letter of the 6th ultimo, relative to the condition of the Lake Manitoba Indian Day School building.

In reply I beg to say that the Department hopes to be able to erect a new building at this point next summer and, in the meantime, it is considered that only the most necessary repairs should be carried out to the present building. You may, therefore, arrange to carry out the repairs considered absolutely necessary to make the building comfortable for the coming winter. The expense should be kept as low as possible. I shall be pleased if you will arrange to have any needed work carried out as soon as possible, purchasing any material and arranging for the labour. The Department will leave this repairs in your hands to be carried out as satisfactorily as possible and at the lowest cost.

You should forward accounts, in duplicate, properly certified, covering the expenditure incurred.

Your obedient servant,

A. F. MacKenzie

to the poor accommodation last winter she, I believe, had a touch of pneumonia, and is afraid of a recurrence if she stays there another winter. The Agent should be instructed to make this school and house as comfortable as possible this Fall, without going to any great expense, and an amount should be placed in the Estimates this year for a new school and teacher's residence if the school is going to be continued. We cannot expect an efficient teacher to work under present conditions there.

KODAK SAFETY FILM

Regina, July 24th 1928

This school is taught by Miss May J. Sanregret, and she has been provided with a Helper. There are 26 children on the register, and three more will be ready to start after the holidays. There are also some children from this reserve attending the Sandy Bay Boarding School. Miss Sanregret is getting splendid results, as before she took charge this place was dormant as far as the teaching was concerned. Not only is she getting splendid results as a teacher, but she has helped the Farming Instructor a great deal where there has been sickness on the reserve, and I cannot speak too highly of her work. This opinion is borne out by the report of Public School Inspector Plewis, who has charge of that district. A lot of the children from the south end of the reserve come to school a distance of five miles, and some from the north end about two or two and a half miles. Inspector Plewis recommends a van for conveying the children from the south end to and from the school, and I am submitting this for the consideration of the Department. The school and teacher's residence are a very poor affairs. The worst feature of both buildings is that they are practically unfit for habitation in the winter. The teacher informed me that it was always noon before they could get any heat in the school at all, and the house is also extremely cold. For this reason, I believe, the present teacher is resigning from the work, which is regrettable, but she informed me that she had pretty nearly made up her mind that she could not put in another winter there, as her health would not permit her to stay. Dear Mr. Scott:

I am enclosing herewith a report on the various schools in the Manitowapah Agency, which shows that the work is being carried on satisfactorily. There are several matters, however, that require the attention of the Department.

I am not in favour of having the van system put into effect at the Dog Creek School. It would only end in failure. The residence at this school should be condemned and a new one built as soon as possible.

Ottawa, August 20th, 1928.

Sir,-

Referring to your letter of the 31st ultimo, enclosing the report of Mr. Inspector Christianson on his inspection of the Lake Manitoba (Dog Creek) Indian Day School, I beg to say that the Department will place an item in next year's estimates for the funds required for the erection of a classroom and teacher's residence. We have instructed Mr. Agent Waite, Portage la Prairie, to carry out the more urgent repairs considered necessary to make the building comfortable for the coming winter.

Sir:-

With reference [illegible] No. 126-6-5, dated the 14th instant, [illegible] that there are no funds available this [illegible] erection of a classroom and teacher's residence at the Lake Manitoba Indian Day School. I observe that you have instructed Mr. J. Waite, Indian Agent at Portage la Prairie, to carry out "the more urgent repairs considered necessary to make the building comfortable for the coming winter". Under separate letters of the same date, I was instructed to arrange for certain repair work at other schools in this Agency, but in this instance the Department issues instructions to the Indian Agent. I think, for the sake of uniformity and that I may be kept informed of what expenditures are being incurred, work of this nature should be attended [illegible].

Will you please advise me what instructions have been issued to the Agent, and what expenditures [illegible].

I have your 206-114 Gen. of the 8th instant, relative to the drilling of wells on the Lake Manitoba Reserve - one for the use of the school and the other for the use of the farming instructor.

In reply I beg to say that you may arrange to have a well drilled for the use of the school. It is noted that you estimate the cost to be approximately $200, which will be paid from the appropriation for Indian Education. There are no funds available at the present time for the drilling of a well for the use of the farming instructor. You should arrange for the drilling of this well when considered timely, and you may purchase the necessary pump, piping and other equipment required. Accounts covering the cost should be forwarded as the [redacted].

It is proposed to erect a new school building on this Reserve next summer, and due consideration should be given in selecting a site for the well so that it will be convenient to the school.

EXTRACT FROM REPORT OF MR. INSPECTOR FLEWAS,
dated Oct. 30, 1928, on his inspection
of the LAKE MANITOBA Indian Day School.

Original on File 126-6-6.

DEC 17 1928

One log building used for schoolroom (18' x 22'), plastered with mud outside and inside. Whitewashed. Four windows - 2 in rear and 1 on each side of the lighting for school purposes is poor. School banked with earth and manure for winter. The two layers of paper above ceiling will help to retain the heat.

One log house and frame lean-to banked with manure for winter.

Log stable about 16 x 30 - not in use.

A new school and residence are necessary.

Extract from Letter of W.M. Graham, Indian Commissioner, Regina, dated Dec.7/28, enclosing Inspector Flewas' report on the Lake Manitoba Day School.

Regarding Dog Creek, you are aware that both the residence and school have been condemned. These would have been replaced this year had funds been available. However, I have placed an item in the Estimates for next year and I trust the Department will see that it is allowed as new buildings are necessary to carry on the work there.

Sir,

I have to acknowledge receipt of a requisition from the teacher of the Lake Manitoba Indian Day School for supplies for the use of the classroom and school. An order is being forwarded to the Government Stationery Office to send to the teacher's address the classroom supplies considered necessary. Twelve tooth brushes will be sent to the teacher from the Department.

You may arrange for the purchase and delivery of the following:

12 hooks for cloakroom,
1 tin aluminum stove polish,
1 soup ladle,
2 yards white oilcloth,
40 " print (cheap).

After these supplies have been purchased, you should forward an account, in duplicate, properly certified, covering the cost.

The teacher has asked to be supplied with a sewing machine. I may say that the Department does not furnish this equipment to Indian day schools.

Sir:

Travelling Nurse Brandon, in a report on her recent visit to the Lake Manitoba Indian Day School, recommends that the noonday meal to the pupils be continued until the end of the present school year. She states that there is a girl engaged to help the teacher who would assist in the preparation and serving of this meal. You may, therefore, arrange as soon as possible for the purchase of a sufficient quantity of supplies for the midday meal until the end of June, next. These supplies should be of the same type as have previously been furnished. A certified account, in duplicate, covering the cost should be forwarded in the usual manner. Sir:

I have to acknowledge receipt of a requisition from the teacher of the Lake Manitoba (Dog Creek) Indian Day School for 6 single desks and a front and rear seat to provide seating accommodation for the younger pupils.

In this connection I have to say that you may place an order with the Christie School Supply Co. Ltd., Brandon, Man., to supply 6 No. 26 single school desks for pupils 5 to 7 years, also 1 rear and 1 front seat for the same size of desk. The purchase and delivery of these desks should receive your early attention in order that they can be delivered at the school before it reopens after the present summer holidays.

Please obtain an account, in duplicate, covering the cost, which you should certify and send to the department in the usual manner.

Sir:

I have to acknowledge receipt of the voucher which you forwarded in favour of Miss Sanregret, teacher of the Lake Manitoba Indian Day School, in payment of her expenses for livery in returning to her school after the Christmas holidays, last.

In this connection I have to say that the Department does not pay any part of the travelling expenses of teachers to and from their schools. The regulations of the Department and of the Auditor General do not permit of payment of this nature. The voucher which you submitted is returned herewith. Miss Sanregret is responsible for the payment of the expenses incurred by her for livery services.

Sir:

I have your letter of the 24th instant, informing the Department that a number of children have to walk a considerable distance in order to attend the Lake Manitoba Indian Day School, and recommending that a sleigh be hired to drive these children to and from school each day.

In reply I have to say that our funds for the balance of the present fiscal year are entirely assigned, and we are unable to provide the cost of engaging the services of the Indian referred to by you. Would it not be possible for the parents to arrange to have these children taken to and from school? Please make enquiry and see if the parents could not provide the necessary facilities.

[redacted] J. J. Weber is a qualified teacher, and I would expect fair results from her efforts. The teacher's residence is well furnished, and is occupied by Miss Weber and Miss Doiron, who prepares the noon-day meal for the children and acts as Field Matron. These two women do very well, but I would consider that a married man could fill this position much better and would be more capable of looking after the work, as well as attending to the outside matters which arise both about a school and residence.

A large patch of plaster has fallen off the school ceiling, and more is loose. This repair work should be attended to during the coming season. Dear Mr. Scott:

I am enclosing herewith a report on the various schools in the Portage la Prairie and Manitowapah Agencies. This report was made by Mr. Inspector Hamilton, who was occupied from the 25th February to the 11th April in making an inspection of these two agencies.

x x x

The Inspector points out that the Lake Manitoba Day School was closed on the day prior to Good Friday. I do not know why this should be. The attendance here is fair. The Inspector points out that while the teacher is qualified, he is of the opinion that a married man could fill this position much better. I do not know that I can agree with him in this. We have had some splendid results with two girls working in these schools, in fact better than when we had a man. We have nothing in the estimates to provide for repairing the interior of this school. I note the Inspector states that a large patch of plaster has fallen off the ceiling and more is loose.

93.

x x x

On the whole I would say that the report on these schools is very satisfactory.

Yours very truly,

W. M. Graham.

Sir,

Referring to the report of Mr. Inspector Hamilton on his inspection of the Lake Manitoba Indian Day School, forwarded by you under cover of your No. 208-11 of the 26th ultimo, I have to say, with reference to the repairs required to the plaster of the ceiling, that the Department will approve of you arranging to have the repairs required to the plaster carried out.

Regarding the eaves troughing required for the residence, I shall be pleased to have an estimate of the cost of the material and installation of same.

File No. 10.

OFFICE OF
INDIAN AGENT

Portage la Prairie,
Manitoba.
May 16th.1934.

Sir:-

I beg to enclose report on the Lake Manitoba Day School for the month of May 1934. I also beg to make requisition for the sum of $15.00 for the digging of stones in the school-yard. It is about six years since the new school was built and since that time the stones in the yard have raised and the yard is dangerous for children playing games. The smaller stones have been picked by the teacher and children but there are some requiring a team and men to haul away. Most of the large stones will weigh in the neighbourhood of half a ton.

The teacher made the request that a porch be built at the back door of the residence. The back door faces North and during the winter it is impossible to keep the kitchen warm with a cook stove and an additional heater takes up too much room. The porch could also be used for storing wood and the meat for the children's mid-day meals. The porch required would be 8 X 10 X 9, the material required as follows:-

13 pcs. 2 X 4 X 10, 300 ft. 6" siding, 90 ft. flooring, 200 ft. sheeting, 750 shingles, 1 roll tarpaper, 1 window 6X8 - 4 light, labour, nails etc. The approximate cost $60.00.

Will you please advise in these matters.

Your obedient servant,

Indian Agent.

Sir:

With reference to your letter of the 16th instant, I beg to say that you may expend an amount not exceeding $60.00 in the erection of a porch at the rear of the teacher's residence at the Lake Manitoba Indian Day School.

You may also have the large stones removed from the yard, at a cost not exceeding $15.00.

Sir,

The interior of the Lake Manitoba Day School is badly in need of kalsomining and painting. It is very necessary that this work be done, as it is some years since it was done.

The approximate cost will be $20.00, and I could use Indian labour on the job.

I beg to make requisition for an accountable cheque for this amount for kalsomine, varnish and labour. Labour sheets and vouchers, and any unexpended portion will be forwarded to the Department as soon as the work is completed.

The work should be done during the [illegible].

Sir,

On December 10th last, the teacher requisitioned for two single desks size 3. These were to accomodate new pupils entering the school. During my recent visit to the reserve I inspected the school, and would advise that ten single desks are required for replacements and to accomodate new pupils. The old desks have been in use since the early days of the school's opening and are past repair. I enclose herewith a further requisition from the Sister teacher.

The tanks asked for on the requisition are for catching soft water from the roof.

Dear Sir:

The Department is in receipt of your letter of the 26th ultimo, enclosing requisition received from the teacher of the Lake Manitoba Indian Day School.

You may purchase the two water tanks, provided you can obtain them at a reasonable cost.

It is noted that the teacher requests 10 single desks, sizes two and three. Please state the number of each size.

Yours truly,

T. R. L. MacInnes,

Dear Sir,-

D.I.A.

Indian Agent Waite advises that new desks are absolutely necessary at the Lake Manitoba Indian Day School and requests five (5) No. 2 single desks and five (5) No. 3 single desks.

I would appreciate it if you would arrange for the purchase of these desks from a firm on the approved list and have them forwarded to the Lake Manitoba School before September 1st.

Yours truly,

Dear Sir:

The Department finds it necessary to return the account which you recently submitted in favour of Sister Mary Margerita for scrubbing floor and washing windows at the Lake Manitoba Indian Day School. It will be necessary to attach to the accounts receipts from the two Indian women who did the work. We have only four statements from the Sister that the work was performed by two Indian women. Present regulations require receipts from those who actually did the work.

Dear Sir:

With reference to requisition dated the 30th ultimo you may purchase for use at the Swan Lake school the following articles:

1 Drinking fountain
1 Door mat
3 Prs. strap hinges and screws
1 - 7" furnace pipe
24 Bolts

The teacher also requests 5 loads of wood. This should have been the subject of a separate letter. If the wood is required you may secure it. Due to lack of funds the Department is not prepared to supply the recreational equipment requested by the teacher.

An amount of $2.50 may be expended in fixing the school desks and cleaning the furnace chimney. A flag, also pictures of the king and queen, will be sent to the teacher.

Yours truly,

R. A. Hoey,

Dear Mr. Waite,

On a separate form, I am enclosing a special requisition for school desks. At present, I have one vacant seat but expect six more children any day. With the desks on the requisition, I will have a total of twenty-nine seats, just enough to accommodate the pupils for this year. The attendance of the children at present enrolled is almost 100%. Would you please have the desks sent out as soon as possible.

Dear Sir,

For your information I quote the following from a memorandum submitted by the Rev. Archbishop Sinnott, dealing with the condition of the day school at the Lake Manitoba (Dog Creek) Indian Reserve -

> "The school and teacherage at Dog Creek Indian Reserve have not yet been painted. They are in a deplorable condition and deteriorating rapidly."

I find that Mr. Waite made provision for this work in the estimates but he may have overlooked writing and asking that the material be purchased. It is now rather late in the season to secure the best results from painting and as provision has been made again in the estimates for 1940-1941 to carry out this work, it might be advisable to leave the matter stand over until spring.

I would be glad to know the Department's decision in connection with this matter.

Yours very truly,

A. G. Hamilton,

Dear Sir:

With reference to your letter of the 28th ultimo it is presumed that you refer to the exterior painting of the school and teacher's residence at the Lake Manitoba Indian day school. In this event I agree that it is too late to obtain the best results from painting and you should notify Indian Agent Waite to bring the matter to our attention early next spring in order that provision may be made for painting the exterior of this school.

If, however, there is some interior painting that could be done you might let me know what materials are required, also the approximate cost of labour.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Sir,

An amount of $170.75 was asked for in Estimates 1940-41 for paint and labour for painting the Lake Manitoba Day School and teacherage. Recently His Grace, the Archbishop of Winnipeg expressed a desire to have this work done as the church buildings are painted and he considers the school and teacherage detracts from the general appearance of the reserve.

There is no doubt the buildings require paint and if the funds are available I beg to recommend same.

Sir,

I beg to enclose herewith a letter received from Sister M.Margarita, Teacher, Lake Manitoba Day School, in which she makes request for a water cooler. The cost of a cooler would be in the neighbourhood of $5.00, and is far more satisfactory that an open pail. For sanitary reasons I would recommend this purchase.

Dear Sir:

With reference to requisition dated June 1st, for supplies for the Lake Manitoba Indian Day School, you may arrange for the purchase and delivery of the following:

2 brooms,
2 scrubbing brushes,
1 teapot - 1 gal. size,
1 enamel dish pan, large,
3 wash boilers,
1 gal. turpentine,
1 gal. varnish stain, lt. oak.

It is noted that the teacher requests 64 skeins wool, and a considerable quantity of dress print and flannelette for shirts. You may purchase a reasonable quantity of sewing materials and wool for the purpose of teaching plain sewing and knitting to the pupils, but the expenditure should be kept to a minimum.

The other articles on the requisition considered necessary have been ordered from the Government Stationery Office.

Youre truly,

Philip Phelan,
Chief, Training Division.

EXTRACT FROM REQUISITION DATED June 5, 1943.

FROM THE TEACHER OF THE Lake Manitoba Indian Day School

ORIGINAL ON FILE NO. 126-6-4A

The Teacher requests the following:

Window Shades, Cream, 36 in.wide	4
Front Door Lock- Yale	1
Wood screws, 1½ in.	7 doz.
Flat Wall paint, Cream	1 gal.
Varnish, Light Oak	1 gal.
Turpentine	½ gal.
Brooms	2

The lean-to, which we use as a store-room for our previsions, leaks badly. At present we cannot keep anything in the cellar as the water is 4 ft.high. Hence if the Lean-to were repaired our problem would be solved for spring and fall, as the cellar floods at the present time.

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.

With reference to requisition for supplies for the Lake Manitoba Day School, you may purchase the following:

4 Window shades, cream, 36" wide
1 Front door lock, Yale
7 Doz. wood screws, 1½"
1 Gal. flat wall paint, cream
1 Gal. varnish, light oak
½ Gal. turpentine
2 [redacted]

The following is a quotation from the teacher's requisition:

"The lean-to, which we use as a store-room for our provisions, leaks badly. At present we cannot keep anything in the cellar as the water is 4 ft. high. Hence if the lean-to were repaired our problem would be solved for spring and fall, as the cellar floods at these seasons."

I presume from the above that the cellar to which the teacher refers is the cellar in the teacher's living quarters. It is too bad that some arrangements could not be made to drain out this water, because, for sanitary and health reasons, it is regrettable that this amount of water is continually standing in the cellar. However, if this cannot be done you should make immediate arrangements to repair the lean-to which is used as a store-room for the teacher's provisions.

Re: 126-6-5, July 26, 1943.

With reference to the last two paragraphs of the above noted letter, I wish to advise that owing to the high water level in the lake district this year all cellars in the vicinity of Lake Manitoba are flooded. To pump the water out of the cellar would not benefit, as it would immediately fill in again.

During treaty payments on the Lake Manitoba Reserve, I checked over the lean-to roof, and found the radio pole had been nailed to a piece of plank which was nailed to the roof. This allowed water to back up under the shingles and leak through the sheeting. This was remedied and I have heard no further complaint.

J.Waite,
Indian Agent.

I desire to refer to your letter of the 8th ultimo, enclosing an account amounting to approximately $170.00 for the installation of a windcharger at the Lake Manitoba Reserve. I have also noted the letter which Archbishop Sinnott forwarded to you.

As you know, it is not our practice to supply lighting units in either Indian day schools or the residences attached to them. No doubt the teacher was also aware of that fact and, if not, she at least knew that no expenditure can be incurred without first obtaining the Department's authority. Under the circumstances we would appreciate your making further inquiry regarding this matter and advising why the windcharger was installed without our being consulted.

Reverend Sister Margarita, Teacher,
Lake Manitoba Indian Day School, V o g a r, Man.

I am anxious to know if the wood supply necessary for heating the residence at the Lake Manitoba Indian Day School is purchased and provided by this Department.

I have recently had a report from the office of the Minister, in which the statement is made that this wood is purchased by the teachers in charge of the school. I may state, however, that it is the policy of the Department to purchase wood at all Indian day schools, and it is just possible that a misunderstanding has arisen in your case. An immediate reply, if possible by Air Mail, will be deeply appreciated.

Mr. R. A. Hoey,

OTTAWA.

Dear Sir,

In reply to yours of the 7th inst., I wish to inform you that the Indian Department does not provide the wood supply necessary for heating the residence at the Lake Manitoba Indian Day School.

We, the Benedictine Sisters, took charge of the Lake Manitoba Indian Day School in September 1935. Ever since then we have provided and paid for the fuel for the school residence out of our salaries. During the year, with an average winter, we use about 20 to 22 cords of wood. Last year we used 25 cords, the winter being most severe. We use our own fuel supply to cook the hot lunches for the school children during the winter months. For the current year, we have already purchased 10 cords of wood for the residence.

Thanking you for your kind consideration, I remain,

Yours truly,

EXH

I desire to refer to my letter to you, dated September 16, 1942, copy of which I am sending forward herewith.

The officials at the Minister's office are anxious to know what action you took to provide the wood necessary for the heating of Indian day schools and teachers' residences attached thereto, immediately following receipt of this communication.

The Minister is in receipt of a letter in which the statement is made that no fuel has been supplied to heat the teacher's residence at the Lake Manitoba Indian Day School, despite the fact that a certain amount of the fuel purchased by the teacher is used to heat and prepare noonday lunches for the pupils. May I point out also that when teachers' salaries are under review from year to year the amount of salary is, to some extent at least, determined by the housing accommodation provided for the teacher and the supply of wood allowed. We were under the impression here that all Indian day schools and all teachers' residences in Manitoba were supplied with wood by the Department. The information contained in the letter to the Minister, in respect to the Lake Manitoba Indian Day School, came as a great surprise to the officials. We are anxious, therefore, that you should send forward, just as soon as you can conveniently do so, a list of the Indian day schools and teachers' residences in Manitoba and the provision that has been made in each case to supply these buildings with fuel.

Dear Sir:

At the present time the Department is considering payment of your account for the wind charger and other equipment installed in the teacher's residence at the Lake Manitoba Indian Day School. To comply with audit requirements it would be appreciated if you would advise me the model and capacity of the charger which you installed at a cost of $36.95, also the rate per hour and the number of hours involved in the installation charge of $24.00.

Yours truly,

...A. Todd
Supt. of Welfare & Training.

Maxim's Radio Service,
Camp Morton, Man.

The installation was a contract for $24.00
The windcharger is a 6-volt De Luxe
of 120 watt capacity with 5½ ft. steel tower.

I desire to refer to your memorandum of January 17, file 18-18, regarding payment of the account of Hector's Radio Service. We have now obtained the following information:

(a) The wind charger is a 6-volt De Luxe of 150 watt capacity, with 50 ft. steel tower.

(b) The installation charge of $24.00 was a contract price.

Extract from Inspector G.W. Bartlett's report on the Lake Manitoba Indian Day School visited on October 25 and December 1, 1944.

Stove too high off floor; so that there is a layer of cold air on the floor most of the day. Soot clogs the base of the chimney flue preventing its drawing the cold air off floor; and also adding to the fire hazard. This should be supervised.

I note with approval that pupils have individual drinking cups.

Wash dishes are supplied but need supervision as pupils have a tendency to leave dirty water standing, or even for different pupils to wash in the same water. Individual towels, or at least small face cloths, should be made available, either by the Department or by arrangement with parents of pupils.

School is provided with fire extinguisher. For how long is the efficacy of these extinguishers [redacted]

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.

In reporting on a recent inspection of the Lake Manitoba Indian Day School, Inspector Bartlett writes:-

1. "Stove too high off floor, so that there is a layer of cold air on the floor most of the day. Soot clogs the base of the chimney flue, preventing its drawing the cold air off floor, and also adding to the fire hazard. This should be supervised.

2. "Wash dishes are supplied but need supervision as pupils have a tendency to leave dirty water standing, or even for different pupils to wash in the same water. Individual towels, or at least small face cloths, should be made available, either by the Department or by arrangement with parents of pupils.

3. "Cover of stove badly damaged. It should be replaced."

Suggestions Numbers 1 and 3 should receive your immediate attention. With regard to suggestion No. 2, you may purchase whatever amount of towelling you consider necessary.

The Inspector states that there is a fire extinguisher in the school, but he does not know when it was recharged. If refills are necessary for this extinguisher, you may purchase same.

Dear Mr. Waite,

Several articles that I asked for in my last requisition for School Material have not yet been sent. I do not wish to trouble you but just wish to bring them to your attention as they may have been overlooked. The following is the omitted list:

Flat Wall Paint, White, ½ gal.
Sub-Coat, White, Interior, ½ gal.
Varnish, Clear, 1 gal.
Paint Brush, 3-in. 1.
Putty, 5 lbs.
Brooms, 2.
Dish towelling, 6 yds.

To this list I would like to add ½ gal. turp.

I know there is quite a difficulty in obtaining the wool, prints, and flanelette at present. However, I would be very grateful if you would supply us with the articles in the above list. Or, if you would authorize me to do the buying, I could procure all the paints and putty at a wholesale price, and send you either the bill or the receipt -- whichever way you instruct me to make the purchase. The brooms and dish towels would naturally have to be bought elsewhere. Kindly advise.

Waite

Very truly yours,

EXTRACT FROM REPORT OF INSPECTOR A.F. KERR

ON LAKE MANITOBA INDIAN DAY SCHOOL

DATED June 4th, 1946.

The school building appears to be in satisfactory condition. The single desks in use are in good condition. Seating accommodation is available for 28 pupils. The metal shield placed above the drum type heater functions in a negative fashion since it retards circulation of warm air. This could be placed in a vertical position without undue difficulty failing which it should be discarded.

Re: 126-6-5, June 14, 1946.

I beg to make requisition for a new 36 inch Camp Comfort heater for the Lake Manitoba Indian Day School. The heater, at present in use, is badly cracked and there is a danger of fire. Stove cement was shipped to the school last October for repairing the crack, but has not proved satisfactory and a new heater is very necessary.

Regarding the above noted Department letter, I wish to advise that it is impossible to obtain iron to make a new screen locally. The Sister Teacher tried the stove without the screen and prefers to have the shield as it is for the present, as it has given satisfactory results to date.

There is now a new school inspector in the district and his views on the heating of the school may be different from those of his predecessor.

The following letter has been received from Sister M.Margarita, O.S.B., Teacher, Lake Manitoba Indian Day School:

"I am planning a school picnic for the children towards the end of the school term. I do not like to ask for special favours but, if it is customary for the Indian Department to help financially, it would make things so much more pleasant. Some of the money could be used to purchase prizes for best attendance at school while the remainder for races,etc. It is our first picnic in eleven years. Please consider this as only a suggestion, as I do not like to make any unusual demands. If you should consider it in order, ten dollars would be sufficient."

Will you please advise.

My dear Mr. Waite:

I am very anxious about the building of another school on the Dog Creek Indian Reserve, or rather I should say about the establishing of another school. The present residence of the Sisters would be used for the second school. They could have a class in Domestic economy in one room, a class of manual labor in another, a class of knitting and sewing in another, and finally a class of cooking in another. The Indian children are much better when they are educated on their own reserves. They are in constant contact with their parents and what they learn at school they communicate at once to their parents. The Indian Residential School may have its good purpose, but it cannot do the work of the Day School on the Reserve.

I understand that you said that other Reserves might come before Dog Creek, because they did not have in their proximity a good Residential School like Sandy Bay. To me that is not pertinent at all. What is pertinent is that the Day School does not cost as much as the Residential one. Why should there be twenty Indian children at Sandy Bay, when they can be educated better and with less cost in their own Day School on the Dog Creek Indian Reserve? I see no reason why the Department should not convert the Sisters' Residence into another school and build another residence for the Sisters. At the moment there is more than a foot of water in the basement of the Sisters' present residence. The new residence could be built on higher ground. I think these arguments are most convincing.

Very sincerely yours,

Alfred A. Sinnott.

We beg to enclose, herewith, a letter received from his Grace, Alfred A. Sinnott, Archbishop of Winnipeg, which is self-explanatory.

The teacherage on the reserve is the usual bungalow type - not large enough for domestic science classes. An amount will be placed in the Portage estimates this year for the erection of a new school, which we suggest should be built at the south end of the reserve. A later survey of this situation will be made and reported.

Yours truly,

I am advised by the farm instructor of the Lake Manitoba Reserve, that the reserve school platform is badly in need of repairs. He is afraid that unless this is attended to some of the school children may be injured. An estimate has been procured to cover the cost and it will require approximately $32.00 to purchase the lumber, nails and labour.

Will you please advise.

I visited the Dog Creek R.C. Indian Day School recently and noted the basement of the Sister's residence was flooded with water. At the time of my visit the water was within a foot of the floor. They advised me that the water had been pumped out a number of times this year.

In my opinion this building should be moved to another site as it is unhealthy in its present location. I would recommend that the Engineering Branch be requested to have Mr. Gow from Winnipeg Office make an inspection in order to locate a site that would be more suitable.

AGENCY.

Lake Manitoba Indian Day School,
Vogar, Man.
Sept. 2nd 1948.

Mr. A.G. Hamilton,
Superintendent,
Portage la Prairie, Man.

Dear Mr. Hamilton,

I am enclosing a bill, in triplicate, for the bed outfit from Eaton's at $41.50 as stated in your letter of Aug. 4th, File 46-298. After I had sent in the estimate, I came across a mattress of better quality for very little difference in price. Rather than trouble you with more correspondence I paid the difference as you will note on the bill. Thus, the amount slotted by the Department remains at $41.50 plus delivery charges, making it a total of $42.53.

Yours very truly,

L. M. Margarita

Re: Lake Manitoba Indian Day School,
Portage la Prairie Indian Agency.

With reference to Mr. Hoey's memorandum dated August 25th, a report has now been received from Mr. Gow's office in this matter.

The present siting of the school is excellent; it is on the highest ground in the property; there is no complaint regarding it.

However, Mr. Davis was referring to the Sisters' Residence. This is a frame structure over a small cellar pit. This latter is subject to intermittent flooding which interferes with its essential use as a root store. But this flooding evidently does not affect the building itself, and no damage to the residents' health has so far been mentioned.

Three alternative solutions to this difficulty are suggested:

1. Install a drain from the cellar to a roadside ditch; estimated cost $330.00.

2. Fill in cellar pit and provide new storage cabin nearby; estimated cost $300.00.

3. Move entire residence to a new site over a concrete basement; estimated cost $2,400.00.

From a careful consideration of the factors involved, it is our opinion that the 2nd alternative is to be preferred. There is a definite need for storage space for garden produce, etc., for winter use as the property is 25 miles by road from the railway station and they are subject to considerable isolation during the winter. Judging from Mr. Gow's Report and the drawing accompanying it, a copy of which is forwarded herewith, the Residence will continue to be satisfactory if the cellar is filled in.

It is considered that this matter can be handled by Mr. Davis on your authority.

Chief Engineer.

With reference to your letter of August 5th, regarding the basement of the Lake Manitoba Day School, we referred your communication to the Lands and Development Services Branch.

I enclose for your information a copy of their reply and the Department approves an expenditure of $300.00 in order that you may carry out solution No. 2, namely "Fill in cellar pit and provide new storage cabin nearby".

Deputy Superintendent General.

It would be inconvenient for the Department to issue cheques monthly for school teachers' salaries. In fact, without altering our system entirely I do not see how it could be done. The teachers are paid on quarterly returns and it would be increasing the work to have returns prepared monthly, and cheques issued monthly. The cheques would be for small amounts, as the salaries are nearly all about $300.00. I do not see how a change could be made to advantage.

The Deputy Superintendent General,-

In compliance with your instructions of the 7th inst. the Indian Commissioner was written to and asked to advise the Department whether the position of teacher of the Lake St. Martin day school was vacant.

A reply has been received in which he states that Mr. Lewis LeClair resigned the position and on October 1, last, Mr. John E. Favell was appointed, on the recommendation of the Rev. Archdeacon Phair.

Sir,

The Department is pleased to note the success which has attended your efforts as teacher of the Lake St. Martin's School, where the percentage of children enrolled has increased until practically all those of school age are in attendance.

It would like to know what methods you have adopted to arouse the interest of the children and parents and would be pleased to have a special report from you on your work, not only in the school, but also among the Indians on the reserve.

In recognition of your services your salary will be increased to $400.00 from the first of January.

Sir,

I have the honour to reply to your letter of the 19th ult. (No. 118342) as follows.

In regard to the method I have followed to arouse the interest of the parents and children in school matters. Kindness and persuasion has been my two leading factors.

I never flatter them, but give them credit for any meritorious act they have done, and gently, but firmly correct them when they have done anything contrary to common decency. Whenever a child absents himself or herself from school, I invariably make it a point to visit the home, and find out the cause, if I find no definite reason but simply indifference, I set down a reasonable fine against the parents, as a kind and just father would do to his child, and this method I have found out to work satisfactorily. I have also found out that a long experience in Indian work that; it is absolutely no use trying to drive an Indian to do this or that thing, but to win him by kindness and firmness is my principal and I have found to advantage that; this is the only way.

Because I do not say

say I have found out the Indian problem, but with these people in general that is Compassion shown in Sorrow and joy, in feasting and in all things like them, without in any Sense compromising either principal or Manliness, is the correct way to their confidence. I have Joined in any-thing for real fun and Comradeship. Thus I have found my own, and them in turn one and read one as a book, until they know on every page of my life that was written Friendship and the true desire to help them. More than this they Know I believe in them, and I'm Confident they believe most heartily in me.

As for the lives of the people and other matters appertaining to the Reserve, I have no hesitation in stating that, comparisons is for progressing satisfactorily. This has been an exceptional good winter for this district. On this Reserve alone, I should judge that 150 tons of good marketable fish has left the place, and say, as the price of fish goes at present the Indians must have realized about $6000.00 at least of this Commodity. So from this you will judge, from this the Indians are in a flourishing condition and there is no apparent want brought to my notice.

In conclusion, let me thank the Dept for the confidence reposed upon me, and also for the Encrease in my Salary which will Encourage me very much.

I beg to remain

I am sending under separate cover by mail my retusns for December quarter,1913 and trust you will find them right.

Although I have a good many pupils on the roll,still the average is not good,and this accounts for the pupils not attending in the afternoons,which I am at a loss how to remedy,this indifer-ence,formally I invariably gave the children credit for a full day, but this did"nt help me any at the examinations,and I have decided not to do so anymore, The only way to meet this difficulty is, I would suggest that, to keep the children in,say from 9.A.M.to 1.30 P.M. I think this method would not only benefot the teacher but the children as well kindly advise.

In concluding I beg to say the people in the district are as for as I can see in excellant health,although the fishing industry is pretty much a failure,yet there is no apparent fear of any destitution.everybody appears to be alright,with the exception of a few who are having a kind of religious mania,brought in by some half witted people from Fisher River,who claim to be successors to the Apostles and are preaching the doctrine of tongues and miracle working. There is quite a stir at present,but I hope to see the storm quieted in time. Children belonging to the Baptist Church is mixing in with them but of course you understand expect anything else.

My Dear Mr Scott,-

With further references to John Favell, teacher at St. Martin's School. I have asked Mr. Logan, and Inspector Jackson with regard to him. I understand the attendance at his School is not as good as it used to be, and the reason of that is being engendered by the shakers in that locality. Mr Jackson tells me that Favell lives out side the confines of the Reserve, and for that reason is not as useful as he might be, were he resident on the Reserve.

I have no personal knowledge of him, as ^{a} teacher, except through the Agent and Inspector, but I have personal knowledge of the manner in which he tries to assist the Department by giving me information, when it comes to him, of the infraction of the liquor law, and the troubles caused by the holy rollers and shakers of that locality. A small raise in salary would show the Departments appreciation in that way.

Dear Mr.Scott:-

Your letter No118,341-1 of date the 20th.inst. received and in reply. If ypu will ask for my report of School inspection for the year 1913-14 of date the 27th.Feb. (and that report must be in the Department as there are some quotations from it in the last bluebook,) you will find that the last year has been the worst in the history of the Lake St.Martin's school for some years,and for reasons appertaining to religeon. But I may say that the Shaker excitement is now calming down,and we may expect the school attendance to again become normal. With regard to an increase of salary for Mr. Favel,I may say that he is a much better teacher than the late Mr.Sinclair,last years teacher on the adjoining reserve,(Little) Saskatchewan,)and he was getting $500.00 a year,the only objection to Mr.Favel is that he does not live on the reserve.

I have not the 1910 to 1913 blue books at hand but from memory would say that in every year since I have been Inspector in the Lake Manitoba Inspectorate,I have sent in a report on this school.

I have your letter of the 26th instant, in reference to the Lake St. Martin School. In my communication I had reference only to reports that are usually made after inspection trips. I was aware that you had made reference to it in your annual report for last year, but I was looking for further details, such as is usually given in reports of both inspector and agents after visits to schools within their jurisdiction. Even if the school is closed at the time you make your visit a report might be made to that effect, so that it can be placed on the file in the Department relating to that particular school.

MEMORANDUM.

Mr. Scott,-

John E. Favelle, teacher of the Lake St. Martin Indian Day School, applies for an increase in his salary.

Mr. Favelle has been a teacher in Indian schools for thirty-three years. He taught at Ebb and Flow Reserve for nine years, at Crane River for eight years, at Little Saskatchewan for six years and at his present school for ten years. He was educated in Edmonton, in a Methodist mission school, and has no Normal training or other qualifications. He was appointed to this school at a salary of $300.00, which was increased to $400.00 on January 1st, 1910, and further increased to the present rate of $450.00 on April 1st, 1915. There is an enrolment of 27 pupils, with an average of 18.

Mr. Inspector Jackson, in a report on his recent inspection of this school, states that, while the children are only in the elementary grades, they are progressing fairly well. He found the school nice and clean and everything tidy.

Mr. Favelle is a half-breed, sixty-two years of age. He states that he had four sons overseas, one of whom was killed. He has been receiving, with salary and bonus, a total of $600.00.

I would recommend that he receive an increase of $100.00 from the 1st instant.

Extract from Inspector's Report on the Lake St. Martin School, December 7, 1920. Original on 126-7-6

For years this school has remained stationary. At every visit I find conditions just about the same; three-fourths of the pupils are in the lowest grade and 2 or 3 in a high-er grade, and it would appear just as soon as the boys and girls get so that they can do some work they are not sent to school. I would like to see a truant officer appointed on this reserve for a year and compel the larger children to attend. I have spoken to the chief and councillors about this matter of keeping the larger children away from school on many occasions but with no good result. The Chief, Charles Sumner, is an intelligent and go-ahead man. He sees the difficulty but is not able to enforce the at-tendance of these larger children. The attendance as shown by the register is very large, the average for the year ending September 30th, 1920, is as follows, December qr, 1919, 18.44; March 1920, 19.85; June, 23.09 and September 21.85; an average for the year of 21.66, and 80 per cent. of this attendance was in the kindergarten or the A.B.C. class.

x x x x x

There is one thing I would mention about Mr. Favell. He had four sons at the war, one was killed and two of the others were badly wounded. They are at home and getting so that they can work on the land they own near their father. Mr. Favell wished me to ask the Department about his sal-ary as teacher. He was getting $500.00. He applied for a raise and he says he was given the promise of a raise of $100.00 a year but this last quarter's cheque was $137.50 or $550.00 a year.

DEPARTMENT OF INDIAN AFFAIRS

Ottawa, January 11, 1922.

Mr. MacKenzie:

Mr. J. E. Favelle, Teacher at the Lake St. Martin Indian Day School, in the Manitowapah agency, is 63 years of age and has taught for the Department a total of 36 years. His salary at present is $550 per annum, plus bonus. He received an increase of $100 on April first, 1920 and one of $50 April first, 1915.

Mr. Favelle has a common school education only, speaks Cree fluently, has 36 enrolled in the school with an average attendance of 28.

Inspector Jackson has always reported well about this man, who, although not qualified professionally, is filling an important place in the life of the Indians on the reserve. A son was killed overseas and two others wounded.

As we are paying as high as $800 per annum to some teachers in northern Manitoba, I would recommend, in view of the long services of Mr. Favelle and his faithful work, that he be granted an increase of $100. This would make his salary from the beginning of the next fiscal year $650 per annum, plus any bonus allowed by law.

General Remarks.-

Mr. Gibson is managing this school very well. His difficulty is that he has to work out his own methods of instruction never having taken a Normal course and in this he is doing very well. When it becomes necessary to secure another teacher for this school every endeavour should be made to obtain the services of a fully qualified person with some experience in teaching.

It would be well to encourage teachers in Indian schools to attend the teachers' conventions which neighbouring teachers attend in order to give them a broader outlook, to keep them in touch with what other teachers are doing and to permit them to discuss their problems with other teachers who are interested in similar matters.

Sir:

I have to acknowledge receipt of your letter of the 26th instant, informing the Department that the Indian day schools at the Little Saskatchewan and Lake St. Martin reserves were closed on or about the 5th instant by Dr. Pease on account of an outbreak of measles.

In reply I beg to say it is noted that the doctor has quarantined both these reserves, and that all the cases which have developed are getting along well. It is hoped that this outbreak will soon be over and that no deaths will occur.

It is presumed that both schools will re-open as soon as the doctor considers that conditions permit. Both teachers should mention on their quarterly returns the dates between which the schools were closed and the reasons therefor, in order that there will be no deduction made from their salary and bonus.

EDUCATIONAL WORK CONTINUED

MANITOWAPAH AGENCY

LAKE ST MARTIN DAY SCHOOL.-This school is under the Church of England Mission, the teacher is Mr. Cecil Garwood. There are 40 pupils on the Register with an average attendance of 33. This school also supply a mid-day meal to the pupils during the winter month's and has shown in all the schools where these meals are supplied they are a great success in keeping up a regular attendance at school during the winter month's, as some of these children live several miles distance from the school and would not come if it was not for having a hot meal of soup etc., given to them. These mid-day meals are prepaired by the wives of the teachers with help from the older girl pupils.

You will be pleased to hear that all the schools have made good progress during the year. Fairford operating under most favorable conditions still holds the lead, but it is being overtaken by Lake St. Martin School, though Mr. Garwood works alone there with scanty equipment, unfavorable environment and a heavy ungraded school. All are doing well, however. Mr. Wheadon, of Little Saskatchewan, has done much more efficient work this year and the school shows substantial progress.

The school is a log building in a good state of repair. There are 39 children enrolled, the average attendance being about 30.There were 35 present at the time of my visit. This school is taught by Mr. C. Garwood who has been here for 3½ years. I first visited this school a year ago. Before going there, Mr. Ogletree, the Agent, gave me to understand that the teacher was worse than useless, and I no doubt went there with that in my mind. However, I changed my opinion considerably while I was there but did not like to say very much about Mr. Garwood in my last report on this school. However, after enquiring thoroughly into this man's work, I have come to realise that we have a first class teacher here. He is very much interested in his work; I spent a couple of hours in the classroom and in my opinion the children did very well and showed great improvements over last year. Mr. Garwood also does a lot of work on the reserve when there is sickness and co-operates in every way with Mr. Waite, the Farming Instructor.

A mid-day lunch is served to the children and on the day I was there it consisted of a thick soup with a little meat in it, some rice and evidently flour had been put in to make it thick. Each child also received

Most Reverend Sir:

I have to inform Your Grace that the Department has received the resignation of Mr. Cecil Garwood, teacher of the Lake St. Martin Indian Day School, to take effect at the end of the present month. The Department is accepting same with regret, as Mr. Garwood's services were entirely satisfactory during the period he has been teaching this school.

I have to request that Your Grace will be good enough to nominate a suitable successor in time, if possible, to begin duties on the 1st of May, next. The name, qualifications and experience of the teacher nominated by Your Grace should be forwarded for the approval of the Department. I may say it is regretted that Mr. Garwood could not complete the balance of the present school year, as it may be difficult to obtain a successor at the present time. If the services of a teacher cannot be obtained for the months of May and June, next, the school will have to remain closed. I should be grateful if Your Grace would give this matter your early attention.

Dear Mr. MacKenzie,

I regret to state that though I have made great efforts I have not as yet been able to light upon a suitable teacher for the school at Lake St. Martin. Mr. John E. Powell is doing the Church work but of course not taking the school. I have written to a Mr. Weller, who is leaving Moose Factory, asking him whether he would care to take the position. He has done most satisfactory work at Moose but I am not certain as to whether he possesses the necessary academic standing by way of certificate. Perhaps you know.

The distribution of medicine, etc., for many years was attended to by the Missionary at Fairford but for some time it has been done by the teachers at the "Improved School". I am writing to ask whether, without disturbing your financial arrangements, it would be possible to revert to the old method. I ask this for two reasons. In the first place, it is claimed that during the summer months, when the school is closed and the teachers are absent, the handling of the medicines is not done and the Indians complain. In the second place, the Indians around Fairford make such a poor living that they are not able to supplement the salary of the Missionary as they should and the addition of the remuneration for attending to the medicine will be of great assistance to Mr. Smith. I do not wish this done if the transfer will affect the salaries of the teachers at the Improved School, which I understand continues to go on so well, but all the same the transfer would be very satisfactory to me. The Bishop of Brandon, who has just visited the district in my place, reports that the Improved School building needs some repairs in the way of painting outside and some attention to the interior. If this could be carried out during the vacation it would be very desirable. I have most gratifying reports of the satisfactory work of the Farm Instructor at Little Saskatchewan or Sandy Bay.

With kind regards, I am,

Very truly yours,

J. F. MacKenzie, Esq.,
Acting Asst. Deputy and Secretary,

The Secretary,
Dept of Indian Affairs,
Ottawa, Canada

Sir,

Will kindly supply me with the official Record of my service with the Indian Dept, and much oblige.

I need it in connection with an application for old Age pension.

I entered the service of the Department on July 1st 1894, commencing duties as teacher at Little Grand Bay reserve on Lake St Martin, now officially known as Little Saskatchewan Reserve, on July 17th, 1894.

I remained there until Sept 30th 1897, when O.K. I was transferred to Lake St Martin reserve, Oct 1/97.

I was transferred from Lake St Martin to Pinaymootang River reserve in June 1st 1904, and remained there until June 30th 1909; when I came to take charge of Fairford Mission.

I remained in the service of the department as Medical Dispenser until Sept 30th 1916, when making my connection with the Dept then, as I could not conveniently find storage room for the rations distributed to the indigent Indians.

TO WHOM IT MAY CONCERN:

This is to certify that Mr. T. M. Dobbs was in the employ of this Department as teacher in Indian day schools and as dispenser and issuer of rations, as follows:

Appointed teacher of Little Saskatchewan Indian Day School July 1, 1894, teaching continuously until September 30, 1897.

He was transferred as teacher to the Lake St. Martin Indian Day School October 1, 1897, teaching continuously at this school until June 30, 1904.

He was transferred to Shoal River Indian Day School July 1, 1904, and taught there continuously until June 30, 1914.

He was transferred from Shoal River to Fairford Reserve July 1, 1914, and remained in the service of the Department as medical dispenser and issuer of rations until September 30, 1916, at which time he relinquished his connection with this Department.

His services while in our employ were entirely satisfactory.

Dear Sir,

I find that I cannot finance my contemplated trip to the Old Country unless I can have my salary cheque for the June quarter ahead of time. The amount that I now have on hand is barely sufficient to pay the ocean fare without allowing for railway journey and the many incidental expenses en route.

I wonder if you would care to ask the Department, if I could have special consideration in this regard, and have my cheque a month ahead of time. This would relieve me of much anxiety and I could then proceed to book my pas-sage without delay.

Thanking you, I beg to remain

Yours very truly

Sir:-

I beg to herewith enclose a letter received from Mr Sam Waller, Teacher, Lake St. Martins Day School, in which he requests that his cheque for the quarter ending June 1933 be forwarded a month ahead of time, so that he may book his passage to England. I would advise that Mr Waller is doing excellent work, not only as a teacher, but his work amongst the sick has made a considerable saving to the Department. Will you please advise in this matter.

Sir:

I have your letter of the 15th instant, enclosing a communication from Mr. Sam. Waller, teacher of the Lake St. Martin Indian Day School, requesting that his cheque for the quarter ending June 30th, next, be forwarded a month in advance, in order that he can arrange for his expenses in making a proposed visit to England.

In reply I have to say it is regretted that the cheque for the full quarter's salary cannot be sent in advance, as the Auditor General would take exception to the payment. However, we will forward Mr. Waller a cheque for one-half the quarter's salary about the middle of May, next, and the balance can be paid upon receipt of his return at the end of June.

Sirs:- Re 103-7-5, January 2nd.1930

In answer to the above noted letter, I beg to say that I have contracted for the building of the necessary outhouses at the Little St. Martins Day School. I have received quotations for erecting a suitable building at the Little Saskatchewan Day School but, however, they were unsatisfactory. The cost of materials etc, and labour would be as follows;-

Lumber, nails, paint etc	71.10
Hauling, holes, erecting etc	47.50
Total two toilets	118.60

Sir:-

I have your letter of the 10th inst. giving an estimate of two cent of building two (2) toilets at the Lac St. Martin's Indian Day School. In this connection I have to say that the Department will approve of you arranging to have this work carried out as soon as weather conditions permit and owing thereto. You should see that these toilets are located on suitable sites near the school. It is noted that you estimate the cost of materials and labor to be $16.66. You should see that a satisfactory job is completed, arranging for the purchase of the lumber and other materials required and for the labor in having the toilets built. It is hoped that you will keep the cost within your estimate. When the work has been completed you should forward accounts in duplicate, properly certified, covering the cost of the material and for the laborer employed.

Lake St Martin Day School.Manitoba.

Dear Sir,

I learn from Mr Garwood,the former teacher at the Lake St.Martin Day School,that there are no carpenters tools that I could use at this school,and I was wondering if the Department could provide a set similar to enclosed advertisements clipped from the T.Eaton catalogue of the Winnipeg Store. I hardly think there is any need for a more expensive set as these should give good service and seems to contain a very complete assortment.

I have written to His Grace,the Archbishop of Ruperts Land to see if he could obtain from his Diocese a small grant towards furnishing this place with the larger items of furniture needed,but some of the smaller articles can be made by me and painted to suit my own particular fancy. I have not yet had a reply from him.

Owing to limited means,I am not able at this time to make any great outlay,but with the things I already have,and with what the Archbishop may be able to get for me I hope to make myself very comfortable.

A set of tools will always be useful not only to a resident teacher but to the pupils as well when there is an opportunity for manual handicraft.

If the Indian Agent has recommended any painting to be done either inside or outside the School dwelling,if the Department provides the paint, I would be quite willing to do this myself in my spare time,as I rather enjoy painting.

Believe me to be,

Yours truly

Wm Wells.

Sir:

I have your letter of the 31st ultimo, requesting that a supply of carpenter's tools be provided for use at the Lake St. Martin Indian Day School, and enclosing clippings from the T. Eaton catalogue giving prices, etc.

In this connection I have to say that the Department is communicating with Mr. Agent Waite, Portage la Prairie, and authorizing him, after consulting you in the matter, to arrange for the purchase of carpenter's tools to an amount not exceeding $25. You should call at the office of Mr. Waite, in Portage la Prairie, on your way to the school. We are sending him the clippings which you forwarded. Mr. Waite will arrange for the purchase of tools not exceeding the above amount, after you inform him what you require.

Relative to furnishings for the teacher's residence, I have to say that the Department is not aware as to what supplies of this nature are in the residence. I may say that a new building was erected as a teacher's residence in the summer of 1927. After you arrive at the school, should you require a small supply of furnishings, you may prepare a requisition and forward same through the office of Mr. Waite. If possible, you should state the prices of the various articles. You should also, at the same time, requisition for any paint that may be required. It is noted that you would be willing to perform the labour in carrying out the painting.

A. F. MacKenzie,

Sir:

The Department has received a request from Mr. Sam Waller, whom you were informed by official letter of the 11th ultimo, has been appointed teacher of the Lake St. Martin Indian Day School, to be supplied with a set of carpenter's tools. He forwarded the enclosed cuts from the catalogue of the T. Eaton Co., Winnipeg, Man. Mr. Waller has been requested to call at your office when proceeding to the school and discuss with you this matter. You may incur an expenditure not exceeding the sum of $25 in the purchase of the carpenter's tools as selected by Mr. Waller after his visit to your office. Please obtain an itemized account, in duplicate, covering the cost. This you should certify in the usual manner and send to the Department for payment.

We have also requested Mr. Waller to prepare a requisition for any furnishings that may be absolutely necessary for use in the teacher's residence. He states that he will perform any painting that may be required, and he was also requested to forward a requisition through your office for the paint required. When you receive these requisitions, you should forward them to the Department for approval.

With reference to the above noted letter, I have the honour to inclose herewith a requisition received from Mr S.Waller, Teacher, Lake St Martin's Day School, for furniture carpenter tools etc. I do not consider that the tools are necessary, as a Farm Instructor is located on the Little Saskatchewan Reserve, unless Mr Waller intends to instruct in Manual training, and I think it would be advisable for to go over the ground first. The list could be cut down, and I beg to make the following suggestions;-
A box-stove in place of the circulatory heater.
one kitchen table 28L 146.
one bow backed chair 28-L 189.
The chiffonier could be omitted from the list.
Mr Waller did not visit the office before proceeding to the school and I did not have an opportunity of going over the list with him.

Sir:

I have your letter of the 5th instant, enclosing a requisition from Mr. S. Waller, teacher of the Lake St. Martin Indian Day School, for furniture for the use of the teacher's residence and also carpenter tools.

In connection with the carpenter's tools asked for, I would refer you to official letter of the 1st ultimo in which you were authorized to incur an expenditure not exceeding the sum of $25 in the purchase of the tools as selected by Mr. Waller. You should consult him as to the various tools he requires and arrange for the purchase to an amount not exceeding the above mentioned sum. The Department understands that Mr. Waller intends to conduct a class in manual training and that these tools are required for this purpose.

Relative to the furnishings for the teacher's residence, you may arrange for the purchase, at the lowest possible cost, of a cook stove and a box stove, both of a wood burning type that would be satisfactory for the purpose for which they are required. You may also arrange for the purchase of the quantity of stove pipe, elbows, damper pipes, taper pipes and stove board required. You may also purchase a drop leaf table, 2 small tables, 6 chairs, 1 bow backed arm chair, 2 beds and 2 mattresses. The above furnishings, while of a good substantial type, should be purchased as cheaply as possible. It is not considered necessary to supply a chiffonier. The cost of each article should, if possible, be kept within the estimate submitted from the catalogue of the T. Eaton Company. Please arrange for the purchase and delivery of the above authorized supplies as soon as possible.

After the above purchases have been made, you should forward itemized accounts, in duplicate, properly certified, covering the expenditure incurred.

Sir:

I have to acknowledge receipt of a requisition from the teacher of the Lake St. Martin Indian Day School for supplies for the use of the school and teacher's residence.

In reply I have to say that you may arrange for the purchase and delivery of the following for the use of the school: 2 brooms, 1 galv. pail, 1 coping saw with one dozen extra blades. You may also arrange for the supplying of the following for use in the school garden: 3 rakes, 2 hoes and 1 digging spade.

It is noted that the teacher requests paint, varnish, etc., for the teacher's residence. In this connection I shall be pleased to have a further report from you as to whether you consider that the paint and other supplies asked for should be furnished or not, and, if these are supplied, if the teacher will perform the labour in doing the painting and if there would be any charge made for his services in doing the work. When we have information regarding the painting, consideration will then be given to authorizing the purchase of the materials required.

After you have made the above authorized purchases, you should forward itemized accounts, in duplicate, properly certified, covering the expenditure incurred.

This house is not fenced, consequently there is no protection from the stock which roam all about the place. Mr. Waller would like a small garden, which could be fenced in along with the house and would greatly add to the appearance of the place.

ST. MARTIN INDIAN DAY SCHOOL.

Mr. Sam Waller is the teacher in charge here. The school was closed for Easter holidays, so I can make no remarks in regard to the progress of the children.

The school is a big building with a dining room on the rear. The building is in fair repair, and I found the place very tidy.

There are 38 pupils on the roll, and the grades range from Grade I to Grade III.

The teacher's residence is a five roomed house, which I found to be well furnished and spotlessly clean. Mr. Waller is a bachelor. He does all his own

Dear Mr. Booth:

I am enclosing herewith a report on the various schools in the Portage la Prairie and Manitowapah Agencies. This report was made by Mr. Inspector Hamilton, who was occupied from the 26th February to the 11th April in making an inspection of these two agencies.

x x x

The Lake St Martin Day school was closed at the time the Inspector made his visit, as also was the Little Saskatchewan Day School.

x x x

On the whole I would say that the report on these schools is very satisfactory.

Yours very truly,

H. M. Graham.

Sir,-

I beg to acknowledge the receipt of your No. 34 of the 11th instant, enclosing Voucher C. 91 for $27.40, in favour of Schofield's Ltd. It is noted that this account covers both relief supplies and the cost of articles required at the Lake St. Martin and Little Saskatchewan Indian Day Schools.

Forwarding accounts in such manner is the cause of considerable inconvenience to the Department, as there are separate files for each service. You should, therefore, submit a voucher in favour of Schofield's for the cost of the relief supplies, also a voucher in favour of the same firm for the articles supplied to the Little Saskatchewan Day School and a voucher for the supplies for the Lake St. Martin Day School. All three of the above vouchers should be submitted in triplicate and the voucher which you forwarded is returned in order that you can prepare same in the manner desired by the Department.

Inspector's OFFICE

Winnipeg, Man., April 9th, 1934.

LAKE ST. MARTIN INDIAN DAY SCHOOL, MANITOWAPAH AGENCY
Inspected March 6th, 1934.

Sir:-

Mr. Sam Waller is the teacher in charge. The roll calls for 46 pupils - 21 girls and 25 boys. The grades are arranged as follows:-

Grade	I	- 33
"	II	- [redacted]
"	III	- 1
"	IV	- 5
		[redacted]

I found 25 pupils present and the average for the past quarter was 24.5.

The children were clean and fairly well dressed. In appearance, they were not as tidy as at some of the schools. I checked their work books and found them neat and the work nicely set down. They appear fairly well along in their grades, but are shy and do not speak out clearly. Mr. Waller takes a keen interest in his work and I believe satisfactory progress is made.

The building is of log construction. All the windows are on one side and it was quite easy to see the blackboard from any seat. The seats are the old double style, but in fair repair.

The children are provided with a noon lunch, consisting of soup and biscuits. The soup is discontinued as soon as the warm weather starts. The dishes are washed and put neatly away by the girls.

Wood is supplied by the Indians at no cost to the Department. The school will need whitewashing again this summer.

Sir:

With reference to your No. 34C, of October 9th, 1934, the Department forwarded you at that time an accountable cheque for $5.20, covering the cost of hauling school biscuits from the C. N. R. siding to the Lake St. Martin and Little Saskatchewan Reserves. You should have forwarded a credit voucher with receipts attached, accounting for this advance.

Please let me have a credit voucher at once, with receipts attached from the persons who did the work. This should have reached the Department before the end of March.

Requisition for School Material

Date June 17 1925. 19

For Lake St. Martin Day School Manitowapah Agency

NOTE.—Text-books should be secured from the Department of Education, of the Province in which the Indian School is situated, a list of the text books authorized for use in the white schools. In ordering text books only those authorized in this list should be requested.

To avoid delay, teachers should give full particulars regarding each article required.

The name, series number, grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "No. Authorized."

Sir:

I have to acknowledge receipt of a requisition from the teacher of the Lake St. Martin Indian Day School and, in reply, to inform you that you may arrange for the purchase and delivery of 20 bushels lime, 2 whitewash brushes, 2 trowels and 3 pounds shingle nails.

Please obtain an itemized account, in triplicate, covering the cost, which you should attach to proper voucher forms, certify in the usual manner and forward for payment.

It is understood that the teacher will perform the labour in whitewashing.

Ottawa, August 6, 1935.

Sir:

Mr. S. Waller, teacher of the Lake St. Martin Indian Day School, visited the Department several days ago. He states that the chimney of the teacher's residence, in its present condition, might cause fire to the building. I have to request, therefore, that you will arrange to have the necessary repairs made. It may be necessary to demolish the present chimney and build a new one. You should engage the services of a competent man to do the work - you to purchase any brick, lime, etc., that may be required. I would request that you have this chimney placed in good condition at an early date. Please forward an account, in triplicate, properly certified, covering the cost of any material and labour.

Referring to official letter of the 10th ultimo, in which you were authorized to supply a quantity of lime, whitewash brushes, trowels and nails, it was stated in this letter that the teacher was to perform the labour in whitewashing and re-chinking the outside of the school building. The teacher states he is unable to do this work, and you may therefore engage the services of Indians. If possible, the work should be completed before the school re-opens after the present summer holidays. No doubt, the farm instructor could oversee the job.

When forwarding accounts, in triplicate, for the labour, you should state definitely the number of days or hours employed and the rate paid.

Your obedient servant,

T. R. L. MacInnes

Dear Sir:

The Department finds it necessary to return two accounts which you recently forwarded.

With regard to the voucher issued in favour of Soloman Beardy. It is noted that you attach receipts from Beardy to Schofields Limited. It, therefore, appears that the voucher should be issued in favour of Schofields Limited.

Regarding the voucher of $17.60 issued in favour of yourself, I would point out that this amount should be covered by two vouchers - one in favour of Alf. Johnson for $6.60 and the other in favour of M. Brodsky for $11.00.

The receipts which you forwarded should be attached to the respective vouchers.

Yours truly,

A. F. MacKenzie,
Secretary.

Requisition for School Material

Date March 26. 1936.

For Lake St Martin Indian School, Manitowapah Agency

NOTE:—Teachers should secure from the Department of Education, of the Province in which the Indian School is located, a list of the text books authorized for use in the white schools. In ordering text books only those authorized in this list should be requested.

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "No. Authorized."

EX'D.

Ottawa, March 30, 1936.

Rev. Sir:

With reference to requisition dated the 16th instant for supplies for the Lake St. Martin Day School, you may purchase 6 packages kalsomine, 1½ gallons varnish, 1 quart paint and 1 kalsomine brush. It is noted that this material is required for painting the interior of the teacher's residence, and it is presumed that the teacher will do the necessary work without cost to the Department.

Owing to lack of funds, we are not prepared to consider supplying the paint requested for the exterior of the teacher's residence.

A flag will be forwarded to the teacher.

Yours truly,

T. R. L. MacInnes,

AUG 27 1937
RECORDS

In Estimates 1937-38 the following amounts were estimated for the building of schools on certain Lake Reserves. Will you please advise if these amounts are available for expenditure this year. In the event of new schools being built this year, the Church of England, through Mr. Sam Waller, Teacher, Lake St. Martin Reserve, have asked that the Logs in the Lake St. Martin school be given to them as they could make use of them in the building of a new church they contemplate erecting on the reserve.

Little Saskatchewan Reserve, new day school 21X40, materials $2400.00, Labor $600.00

Lake St. Martin Reserve, new day school, 25X45, Materials $2700.00, Labour $800.00.

Ottawa, August 31, 1937

Sir:

With reference to your letter of the 24th instant, the Department finds it impossible to provide the funds requested for the erection of new day schools on the Little Saskatchewan and Lake St. Martin Reserves during the present fiscal year. We have, however, noted the necessity for new schools on these Reserves, and will endeavour to obtain the necessary funds in our appropriation for the fiscal year 1938-39.

Dear Sir:

With reference to requisition dated May 14th, for supplies for the Lake St. Martin Indian Day School, you may arrange for the purchase and delivery of the following: -

5 gallons floor oil,
2 brooms.

It is noted that the teacher requests 30 yards flannelette and 15 pounds knitting wool. You may purchase a reasonable quantity of flannelette and knitting wool for the purpose of teaching plain sewing and knitting to the pupils, but it is considered that the quantities requested by the teacher are excessive.

It is also noted that the teacher requests 1 gallon flat wall paint, 3 pkts. kalsomine, white, 5 pkts. kalsomine, cream, and 2 gallons varnish. In reviewing previous correspondence, we find that you were authorized to purchase the above quantities of paint, kalsomine and varnish in letter dated April 26th, 1940. Please let me know if this material was furnished at that time, and, if so, why it is necessary to again supply the above.

Yours truly,

Sir,

With reference to the water situation at Lake St Martin Day School and teacherage, I beg to suggest that ice be packed for use during the spring and summer months. There is a log building on the teacherage lot that could be used for this purpose. The cost of the ice would be in the neighbourhood of $10.00, and the sawdust for packing $6.00.

The ice should be packed as soon as possible as the ice is getting too thick to handle easily.

Will you please advise in this matter.

Mrs. Kathleen Beschell, teacher of the Lake St. Martin Indian Day School, has asked the Department to supply her with, one pair of pillows, one bed and mattress for the nurse's room, and one coal oil lamp for the dispensary.

You may give her a pair of pillows from the stock of salvage you have and purchase a single bed and mattress and coal oil lamp and forward them to her. I believe that the room where these are to be used is occupied by the nurse when she is at Lake St. Martin. Do not get a too expensive bed and mattress.

Re: 127-7-5 W T 1, July 15, 1946.

I beg to acknowledge receipt of the above noted letter regarding a well at the teacherage, Lake St. Martin Reserve. It is true that the water in Lake St. Martin is not fit for drinking purposes, although the Indians drink it. Ice is packed for the teacherage, but this is not entirely satisfactory.

Some years ago an attempt was made to drill a well at the teacherage on this reserve. Four inch casing was used and a stop had to be made at 100 feet as the casing was too light to stand further drilling and the casing was pulled out.

At the present time there is an experienced driller on the Little Saskatchewan Reserve, drilling a well for the proposed nursing station. His costs are as follows and attached hereto is his price.

> $7.50 per foot, including cost of 5" standard casing, board and lodging and the cost of moving. The Department of National Health and Welfare are paying the moving costs from Winnipeg to Little Saskatchewan Reserve and return.

It was expected that water would be obtained on this reserve at a depth of approximately 100 feet. The soil, however, appeared to be of the same constituency all the way down the 100 foot hole that was drilled some years ago. It is possible that water would be found if drilling could have been continued to a depth of 150 feet. The wells in the district are from 60 to 200 feet. The cost of a well would be high and I would suggest that if drilling is to be done on this reserve

Col

that a new hole, a distance from the old one, be drilled. The old hole was filled in as it was dangerous for stock.

Mr. Mills has a number of jobs in the environs of the City of Winnipeg and is anxious to return, but would be prepared to do this job if approved by the Department. It is expected that the well at the nursing station will be completed on or about the 26th of this month and if the Department intend to have a well drilled at this point immediate action is necessary.

A dug well is out of the question as only surface water can be obtained by this method.

J. Waite,

AIRMAIL

Ottawa, July 25, 1946.

Mr. J. Waite, Indian Agent, Portage la Prairie, Manitoba.

Water for [illegible] Reserve Day School.

Reference your letter 49-298 of 23 July, 1946.

The contents of your letter have been discussed with the Director and it has been decided to act in accordance with your recommendation and dig a well at this teacherage provided that you are satisfied there is a reasonable chance of obtaining water.

We have had unfortunate experiences in the past with the digging of deep and expensive wells on the Prairies. It is realized that it is almost impossible to place a limit beyond which the well should not be dug because of the cost. Therefore, this depth will have to be decided by you in consultation with the contractor, Mr. Mills. His experience at Little Saskatchewan Reserve should prove helpful.

Please advise us of the progress of this well digging.

LAKE ST. MARTIN

The Indians requested that two schools be provided if possible next year. They have one now but it is a log building and in very poor condition and cold. Two new buildings are needed and if possible should be built next spring. The contractors will be building a nursing station on the Little Saskatchewan Reserve early in the spring and if contacted now might undertake to build the schools.

Re: 208-11A.G. March 18, 1947.

[illegible] noted letter. I wish to advise that it is regretable that the money voted for the new school at Lake St. Martin Reserve will have to be used for a new residence. Enclosed please find my report on this fire, submitted to the Department on March 8th.

The only contractor I know in the Gypsumville district, who, I think, would be capable of tackling a job the size indicated would be Mr. Herman Helgason, Ashern, Manitoba. I hope to be able to erect the bull barn this year and have already received his quotation for [illegible] work.

I wish to point out that the estimate of $2500.00 for the building of a residence at Lower Fairford School was for a lean-too dwelling to the school. Of the $2500.00, $500.00 was estimated for a drilled well, pump and piping. This would leave, on an estimate, $2000.00 for the building.

Re: [illegible]

On March 7 we sent you a list of our projected buildings as contained in the 1947-48 estimates. Amongst was the sum of $[illegible] for a one-room school and teacherage at Lake St. Martin, Portage la Prairie Agency.

Instructions are that contractors are willing to bid for this construction. Mr. Lussier, our inspector, reports that Mr. Lussier also is buying the mining stables at Lake [illegible] whereas, Portage agency, will consider quoting on the school. Mr. Lussier must write reports that Mr. Norman Hodgson of Winnipeg is also interested in quoting.

Therefore, would you please circumstances. Can Mr. Lussier to have use of his engineers survey the proposed site. As we already have a log building at this reserve now, there should be little or no difficulty. We hope to proceed immediately with the construction of this school and anticipate your full co-operation in having the site surveyed immediately.

PLEASE QUOTE FILE 49-39C

May 16, 1947.

Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

Mr. Gow, Department Engineer, Winnipeg, called me on the telephone on the 13th, relative to the surveying of a new school site, Lake St. Martin Reserve. I called on Mr. Gow yesterday, also Mr. Inspector Hamilton, regarding this work. In neither Mr. Inspector Hamilton's nor Mr. Gow's letter is the matter made plain. Is it the Department's intention to build two schools? I take it that at the present time it is the intention to build a combined school and teacherage this summer and to employ two teachers. Both teachers will reside at the proposed school residence for the present and the old log school will be operated in addition to the new school. I would strongly recommend the combination school and residence. At Lake St. Martin Reserve two schools are required and should be placed about 1½ to 2 miles apart for the convenience of the children. The old residence, that was burnt down, is at the approximate centre of the reserve. A well was drilled at this point and could not be used for either school, if it is the intention to build two schools. This would mean that two new wells would have to be drilled.

I have been arranged with Mr. Gow to proceed to Lake St. Martin Reserve on June 2nd. In the meantime I would be pleased to receive advice in connection with this matter, so that the survey may be satisfactorily carried out.

Mr. J. Waite, Indian Agent,

With reference to your letter of the 16th instant, it is our intention to build a combined school and teacher's residence on the Lake St. Martin Reserve this year.

I note that you consider that a second school is required on this reserve, but we will have to use the old school for the academic year 1947-48, providing that we can obtain two teachers.

We are not certain from your letter at what point you intend to locate the new combined school and residence. If it is at the site of the former residence, I presume it will not be necessary to drill another well as you state a well was built at this particular point.

However, if the site is changed, it is noted that it will be necessary to drill a well and you might let me know if you can have this work done and at what cost.

With reference to your memoranda of May 1st and June 2nd relative to the above, I may say that Mr. Gow was requested on May 9th last to arrange for a member of his staff to make an investigation and survey of the proposed school site and to report thereon as soon as possible. No reply however has been received from Mr. Gow on the subject but our Engineering and Construction Service has written him airmail on June 10th to forward the required data as soon as possible.

As soon as the necessary report and plan is received copies will be transmitted to you.

Memo to Mr. D. B. Gow

Re:- Lake St. Martin Indian School Sites

The sites visited for the proposed Lake St. Martin Day School were firstly just above the Narrows on Narrows Reserve No. 49, close to the Anglican Church, and secondly, about a mile to the southwest - both within a hundred yards of the lake shore and both selected by Mr. Waite, the Indian Agent.

The sites are located on knolls of grassed areas away from other buildings, clear of the bush and chosen by Mr. Waite to be as central as possible for the children located in homes along the shoreline of the reserve. The surface soil is a sandy loam and short grass forms a tough turf. Underlying this is a sandy clay subsoil with a few scattered stones one to four inches long. This subsoil is well consolidated so that a man took 1½ hours to go down 1½ feet with a post-hole auger after the first foot was dug out. This type of sandy clay has been found to go to a depth of 20 feet or more all over this area. A second hole on the first site was dug out 2½ feet deep, in one-half hour. No water is encountered in the vicinity as vegetable pits keep dry when dug to 6 or 8 feet depths, so that foundation conditions would be good.

No Indian house has a well and only at one place has a very limited supply of water been obtained in boring for wells. Other holes were dug with bores up to 100 feet deep and deeper wells are salty. Lake water is generally used for domestic and stock use. Ice blocks are used to some extent. For this reason the Agent considered it inadvisable to have any sewage disposal system which might contaminate the lake nearby.

There is no electric transmission line closer than Ste. Rose, over 50 miles to the southwest, and no electric current is generated on this reserve.

Drinking water is obtainable at a drilled well about 1500 feet south. This well has a limited supply of about four barrels per day and was used by the former teacher. This well supply was the only successful bore of several tried and is located in an enclosure which contains the foundation of the burned-out teacher's residence. The well casing should be surrounded by a concrete block about 2 feet high, and drainage away from the bore should be made by building up soil around the platform block. A 6" standard casing was put down 57 feet when water was located in gravel. Pumping was done to lower the water in the casing to the bottom and it took 1½ hours to rise 8 feet. The pump cylinder is 20 feet below the surface and static level is 10 feet below the surface, according to information supplied by the local Farm Instructor.

For concrete foundation work, beach gravel may be had 1½ miles from either site.

Re:- Lake St. Martin Indian Day School,
Portage la Prairie Agency, Manitoba.

Enclosed you will please find the following with reference to the proposed Lake St. Martin Indian Day Schools:

(a) Memorandum by Mr. J. T. Rose prepared from the results of his examination of the site on June 3,

(b) Duplicate prints showing the proposed School Site # 1, together with key plan of the reserve,

(c) Blue prints, in duplicate, showing the proposed School Site # 2.

Upon the receipt of your letter of May 9 with reference to the inspection of the site, we got in touch with Mr. Waite, Indian Agent for the district at Portage la Prairie, but he had not received any notification of the inspection from his own department. Inasmuch as he was of the opinion that two schools should be built rather than the one, the visit to the reserve had to be delayed until such time as the matter could be referred by him to his own department at Ottawa. Naturally the selection of a site or sites would be governed by the consideration as to whether there should be one or two schools and now I understand that two schools are being considered.

The data given in Mr. Rose's memorandum, supplemented by the sketch plans forwarded, provide the information requested in your letter of May 9. You will especially note the reference to the dry drilled wells and the fact that the only underground water supply procurable to date is located about 1500 feet from the proposed # 1 site or at the location of the burned teacher's residence. This matter of water supply should be a determining feature in the selection of a site or sites and also as to whether there should be one or two schools. The water of Lake St. Martin is unsafe and usually unfit for human consumption and before any school is constructed, an underground water supply must be assured in the immediate vicinity.

Re: Lake St. Martin Indian Day School,
Portage la Prairie Agency, Manitoba.

With further reference to the memorandum from Mr. Hoey dated the 2nd instant, regarding the above, we have now received from Mr. Gow a report dated Winnipeg, June 11th, and plans of proposed school sites No. 1 and No. 2 prepared by Mr. J.T. Rose of his staff, copies of which we are transmitting to you herewith together with a copy of Mr. Gow's covering letter dated the 13th instant, for the information of the Indian Affairs Branch.

(1) It will be noted that the only source of drinking water is from a well with a limited supply of about four (4) barrels a day situated about 1500 feet from No. 1 site and presumably about 3760 feet from No. 2 site. As the expense of installing a pumping installation from the existing well to either site could obviously not be justified, it would appear that water required for drinking purposes at either site would have to be hauled from the well periodically to a storage tank, which should be installed in the schools.

Lake St. Martin Indian Day School

We have now received from the Chief Engineer of the Surveys and Engineering Branch, copies of letters from Messrs. Rose and Gow of the Surveys and Engineering Branch reporting upon their findings in your agency.

In his covering letter Mr. Mills states as follows:-

" It will be noted that the only source of drinking water is from a well with a limited supply of about four (4) barrels a day situated about 1500 feet from No. 1 site and presumably about 3780 feet from No. 2 site. As the expense of installing a pumping installation from the existing well to either site could obviously not be justified, it would appear that water required for drinking purposes at either site would have to be hauled from the well periodically to a storage tank, which should be installed in the schools."

As you are by now aware, we have funds at the present time sufficient only to build one of the two schools which you say you require. It has been suggested that a two room school, located at one of these sites might handle all the children and would provide more efficient education than by erecting two one room schools a mile or so apart. We would appreciate your comments upon this observation.

We also attach copies of the blue prints showing the location of the school. Would you please indicate which school site you would wish to have a building erected upon this year.

Dear Sir:-

We are returning under separate cover the blue print forwarded by your Department of a combined school and residence.

The plan does not lend itself to Prefabrication, and it would mean too much individual workmanship at this particular time of the year.

We are right in the middle of our busy season with a night shift in operation trying to keep up with our orders.

We would like to go into this with your department and work out a standardized plan for a school that we could turn out for you. We could keep this plan on file and make delivery at any time on your order.

We trust that we will hear from you again and that we may be able to go further into the matter in the near future.

Re: School, Lake St. Martin, Portage Agency

A plan of the proposed school was sent to the North American Lumber Company by the Department with the request that they submit a price on a prefabricated structure.

In conversation with the chief architect he stated that in view of the volume of work for which they are already committed it would be impossible to supply a school this year.

I would, therefore, request that the Department write Mr. Waite and have him secure a quotation from Mr. R. Sigurdson on building the school. Mr. Sigurdson is at present engaged in building a Nursing Station on the adjoining reserve (Little Saskatchewan). I would suggest that Mr. Waite be instructed to ask Mr. Sigurdson to quote using as much of our local lumber as possible. If this were done it would only be necessary to purchase the finishing lumber for both inside and out, shingles, insulation, and hardware.

I have made extensive enquiries in connection with securing a competent carpenter to act as foreman, but without success. Therefore I feel sure if we hope to get this school built our only chance is to use Mr. Sigurdson who is in the district, provided he is willing to do the work and will submit a reasonable quotation.

A copy of a letter received from the North American Lumber Company concerning the above matter is attached for your information.

The attached letter has been received from North American Buildings Limited, Winnipeg, concerning the school plan submitted to them. We have already sent you under separate cover a copy of this plan.

Is there any contractor who is willing to erect these buildings on the various reserves in which you require them? It was suggested by Surveys and Engineering Branch that possibly one big company might consider the erection of all four buildings. If this is not possible, then we must investigate the possibility of having either bids from local contractors or advertising in Saskatchewan newspapers.

Having discussed this situation with you personally, and realizing the shortage of materials and contractors in your province, we realize how disappointing will be this news from the North American Buildings Limited.

Standard One Room Day School and Residence Plan

We submitted a copy of your one room day school plan to the North American Buildings Limited in Winnipeg for a quotation on a pre-fabricated building. As you are aware, we are purchasing pre-fabricated teachers residences from this company. We are also having serious difficulty with the contractors bidding upon these schools.

Would you consider it feasible to have this Company work out a standardized plan along the lines of your drawing as is suggested in paragraph four of the attached letter.

The situation at the present time is that we are having extreme difficulty in getting any contractors to submit bids on our buildings and, therefore, because of the urgency of our need, we are forced to look elsewhere for the erection of these buildings.

Dear Sir:

Lake St. Martin Indian Day School

The tender of Mr. Sigurdson for the construction of this proposed school, for $16,410.00, was submitted to our surveys and Engineering branch, along with a similar tender for a school in the Fort Arthur Agency, for their recommendation.

We have now received a reply reading in part as follows:

> "This Service has no hesitation in stating that tenders for one-room schools where the cost will approximate $16,000.00 are exorbitant and no contract should be awarded."

In view of the fact that we are having this identical building constructed elsewhere for prices ranging from $11,000.00 to $13,000.00, we are definitely not prepared to accept Mr. Sigurdson's tender.

With reference to the above noted letter addressed to Mr. Inspector Hamilton, copy of which was forwarded to this office, I wish to advise that the plans and specifications have been returned here by Mr. Sigurdson. Should they be returned to the Department? There would appear to be no contractors large enough in the Portage district to undertake a job of this size and I am not acquainted with the large contractors in Winnipeg.

I would point out, however, that the storehouse, at present occupied by the teacher at Lake St. Martin Reserve, is not fit for a winter residence and very little can be done to the building to make it warm and comfortable. In the first place it is too small and built too high off the ground. The building is on piers with the intention of making it rat proof.

Mr. J. Waite, Indian Agent,
Portage la Prairie, Manitoba.

We have your letter of the 11th instant with reference to the situation at the Lake St. Martin School.

I note that you state that the present building occupied by the teacher is not fit for winter residence and very little can be done to make it comfortable.

Is it possible to rent any other building on the reserve that would be suitable for the teacher during the current academic year?

We would like the Dept of Indian

Dear Mr. Bryce:

I have for answer your letter of October 29th.

I regret very much that we have been unable to erect a new day school at Lake St. Martin this year. As you are probably aware, the sum of $8,000.00 was included in our main estimates this year for the construction of a one room day school and teacherage for this Reserve. Inspector Hamilton and the Indian Agent did their best to interest contractors in the construction of this school. The only tender that they were able to obtain was that of Mr. R. Sigurdson of Winnipeg, Manitoba. His tender was for $16,410.00 and was submitted to our Surveys and Engineering Branch for their comments.

The reply which we received from this Branch read in part as follows:

"This service has no hesitation in stating that tenders for a one room schools where cost will proximinate $16,000.00 are exhorbitant and no contract should be awarded".

In view of this statement from our architects and because we were have this identical building constructed elsewhere for prices ranging from $11,000.00 to $13,000.00, we could not accept Mr. Sigurdson's tender. Inspector Hamilton and Mr. Indian Agent Waite were informed of this fact.

However, we have been able to arrange for a suitable boarding place for Mrs. Beachell and also to provide for daily transportation to the school for her. It is our intention to include a revote of $14,000.00 in our next year's appropriation for the construction of this school. It is hoped that we can interest a contractor for its erection next year.

Re: 126-7-5 (WT1), September 16, 1947.

In reply to Department letter above noted, I wish to advise that two holes were drilled on this reserve to approximately 100 feet without locating water. Later a well was drilled on the reserve, and water found at approximately 50 feet. There is an adaquate supply of water in this well for the average household. The run in rather slow. I believe water could be obtained at the proposed sites of the new schools at an approximate depth of 80 feet. Both sites are on high land, fairly close to Lake St. Martin. The drilled wells in the outlying district approximate this depth.

The cost of the two wells would be $800.00, plus the cost of the pump and piping, an additional $100.00.

We have your letter of the 6th instant with reference to drilling wells at the Lake St. Martin and Fairford Schools.

If it is not too late in the season, the Department approves an expenditure not exceeding $500.00 for drilling a well at the Fairford School. If water is obtained at a reasonable depth, we would be prepared to authorize the drilling of a well at the Lake St. Martin school next spring.

Re: 126-7-5 (WT) Dcember 23, 1947.

In reply to Department letter above noted, I beg to suggest that the Lake St. Martin Day School be closed for the two months indicated, January and February.

I realize that the two months mentioned are usually cold and stormy months in Manitoba and I would be concerned about a woman driving five miles alone, especially during a blizzard. They come up quickly between the lakes, and driving five miles would not only be a hardship, but there would be a danger of getting lost.

The plans of the proposed school at Lake St. Martin Reserve, which were forwarded to Mr. Sigurdson were returned here and I forwarded them to Mr. Herman Helgason of Ashern for an Estimate. He will work on them during spare time this winter and give an estimate as soon as his prices are completed. I believe his estimate will be considerably less that that quoted by Mr. Sigurdson. Mr. Helgason built the nursing station on the Little Saskatchewan Reserve, also the bull barn. I know he is a capable contractor and any work he undertakes is done in a satisfactory manner.

Yours truly,

J. [illegible],

The Auditor General has insisted that, in future, the clauses of the Public Works Act with regard to advertising for tenders be adhered to. During the emergency war years, some variations from these regulations were permitted, but we are now required to advertise for tenders on construction of public buildings in excess of $5,000.00. Attached hereto please find a sample advertisement. It is our intention to advertise for tenders for the construction of the Lake St. Martin Day School in the near future. Therefore, we would request you to advise us:

(a) The names of the newspapers in or near your agency in which you would recommend that we advertise;

(b) Post offices and other government buildings in which we should display drawings, specifications, etc.

Naturally, your own office will be one in which we will display drawings, etc. If no tenders are received after advertising, you will be advised so that other means can be considered whereby the construction of this school can be carried out during the fiscal year 1948-49. These other means

Attached Teacherage [redacted]

We have now a stock of blueprints, specifications and bills of materials for our standard one-room day school and [redacted].

The Auditor General has insisted that, in future, the clauses of the Public Works Act with regard to advertising for tenders be adhered to. During the emergency war years, some variations from these regulations were permitted, but we are now required to advertise for tenders on construction of public buildings in excess of $5,000.00. Attached hereto please find a sample advertisement. It is our intention to advertise for tenders for the construction of the Lake St. Martin Day School in the near future. Therefore, we would request you to advise us:

(a) The names of the newspapers in or near your agency in which you would recommend that we advertise;

(b) Post offices and other government buildings in which we should display drawings, specifications, etc.

Naturally, your own office will be one in which we will display drawings, etc. If no tenders are received after advertising, you will be advised so that other means can be considered whereby the construction of this school can be carried out during the fiscal year 1948-49. These other means

involve:

1. Direct approach to contractors when advertising has failed to produce tenders.

2. Construction on a day labour basis.

3. The erection of a prefabricated school.

With regard to (2) above, the Department, as previously stated, has a complete bill of materials for the construction of this standard school. Other agents have successfully had this school constructed this year by employing a foreman-carpenter and Indian helpers. The drawings and specifications are very clear and the Department buys all the necessary materials. I give you this information so that you can consider such a mode of construction if advertising fails.

We would appreciate receiving from you the information required in paras (a) and (b) above. We should also be advised as to the availability of hydro and water facilities and their distance from the school building.

In reply to Department letter above noted and especially to paragraph A and B, I wish to advise as follows:

A. The only newspapers delivered in the area Winnipeg to Gypsumville are the Winnipeg Free Press and Winnipeg Tribune.

B. I would suggest postings in the three following post offices:

Lundar, Ashern and Gypsumville.

There is also a daily newspaper at Portage la Prairie, The Daily Graphic. I would also suggest that this newspaper be used as it has a fairly large circulation in the Portage district.

It would seem that before any definite steps can be taken with regard to advertising for tenders for the construction of the above Day School that we reach a definite decision as to the intended site. Could we please be advised whether you have received from Mr. Hamilton, copies of the reported submitted by Mr. D.B. Gow, District Chief Engineer, Lands and Development Services Branch of this Department. You will recall that Mr. Gow visited the Lake St. Martin area in June, 1947, and submitted a report concerning two sites which you had suggested. In a covering memorandum from the Chief Engineer we were advised at the time as follows:

" It will be noted that the only source of drinking water is from a well with a limited supply of about four (4) barrels a day situated about 1500 feet from No. 1 site and presumably about 3700 feet from No. 2 site. As the expense of installing a pumping installation from the existing well to either site could obviously not be justified, it would appear that water required for drinking purposes at either site would have to be hauled from the well periodically to a storage tank, which should be installed in the schools".

We are quite determined not to locate any school unless we are assured of a good source of water. Past experience has indicated the wisdom of being assured of a water supply before the construction of a school begins.

Therefore, it would seem evident that steps will have to be taken with regard to the sinking of a well before any further consideration can be given to the request for tenders. In view of your knowledge of local conditions, it would be appreciated if we could be advised as to the obtaining of an underground water supply.

Under separate cover you have already been forwarded a copy of the blueprints for a standard one room school with attached teacher's residence which we intend building at this place. You will note that although only one classroom is actually provided for, the basement is very large and well lighted and is so planned as to be available for a second classroom if and where needed.

RECEIVED

I beg to acknowledge receipt of Depar[illegible] above noted, and wish to advise that Mr.Gow's report was attached to Department letter of June 24th. 1947. This letter was answered on September 10th.

The present well, at the old school site on this reserve, gives about 20 pails a day. The water runs in slowly and is being used by the Indians. This would be sufficient water for the school and teacher's residence, but would not accomodate the Indians in addition.

My understanding is that it is the intention of the Department to build one school this summer and another in the near future. If this is correct, the new school this summer should be built at the south site and a well should be drilled. I think water should be obtained at the south site between 80 and 100 feet. The site is slightly rolling and approximately one mile from the old school site. The depth at which water should be obtained, is more guess work than anything. The depth of wells vary considerable in the immediate district, from 38 feet to 150 feet. The well should be drilled before any work is done on the school, as there is every possibility of a running well in such close proximity to the lake. Any overflow can be taken care of if drilled before anything is done on the building of the school.

If it is intended that only one school is to be built on the reserve, then the old site should be chosen. It is fairly central, but it would mean that children remote from the site would have to walk 4½ miles. If the south school was built this year, the old school would accomo-

date the children from the north end of the reserve for another year or two. However, it would mean two teachers, one of whom would have to walk from the old school to the residence to be built on the new school. The present teacher, Mrs. Beachell is very difficult to get along with. None of the Department nurse's have been able to live with her even for a few days at a time, and I am doubtful of an arrange ment where two women would have to live together for quite some time.

Will you kindly advise further in this matter regarding the intention of the Department in the matter of erecting one or two school.

Proposed Peguis South Day School

Proposed Lake St. Martin Day School

Oak River Day School.

During his recent visit to the Department Mr. Indian Agent Young advised that he was completely satisfied with the work of Mr. John Robertson of Kenton, Manitoba, in erecting the Oak River School. It is therefore suggested that Mr. Robertson be approached to ascertain if he is interested in building another school for us on the same basis.

Included in our 1948-49 estimates are one-room schools and attached teachers' residences for Lake St. Martin in the Portage la Prairie Agency and Peguis South in the Fisher River Agency. It is recommended that Mr. Robertson be approached concerning these schools. They would be identical with the one he is now finishing at Oak River.

It would require two or three months to obtain the standard bill of materials for these schools. Therefore we are trying to line up our building programme now, before there is too much contracting activity.

I might add that we have found that the day labour basis of building, as adopted at Oak River, has proven cheaper than the cost plus basis contract, as used at Hurtosh in the Fisher River Agency. While we have not yet the final cost

However, it is evident that the Oak River School will cost less than the Portage School (these buildings are identical).

From the map it would seem evident that Mr. Robertson would be more likely to be interested in the Lake St. Martin School rather than in the Fergus School. Therefore Mr. Lemaby should advise if there is any good carpenter interested in the Fergus School on a day labour basis.

Blueprints, specifications and bills of materials for the standard one-room school with teacher's residence are being sent, along with this letter to the two Agents concerned.

Dear Sir:

Re: 126-7-5(E) January 30, 1948.

With reference to department letter above noted I enclose herewith two tenders for the proposed school at Lake St. Martin Reserve. One is at a monthly rate of $300.00 as overseer of the work, the other is a quotation for labour in an amount of $4,968.00.

I expect a further tender from Mr. Helgason of Ashern, Manitoba in the course of a few days.

This will acknowledge receipt of yours of April 2nd, file 49-396, with regard to tenders for the above mentioned Indian day school.

I am attaching hereto a bill of materials for the construction of this standard school. This will mean that you can prepare the necessary requisition for the supplies required as soon as a decision has been reached with regard to the acceptance of Mr. McKenzie or Mr. Helgason's tender. It is presumed that we will receive this latter tender in the course of the next few days.

It will not be necessary to type onto a standard requisition form the entire bill of materials. It will only be necessary to prepare a requisition reading somewhat as follows:

> "Materials as listed on the attached bill for standard one room Indian day school and attached teacherage."

This can be attached to the mimeographed bill of materials and sent in here for forwarding to the Departmental purchasing Agent. An extra copy of the bill of materials is being sent for your own information.

Further to our letter of April 13th, it will be in order for you when submitting a requisition for materials required for the above school to advise as to local firms which can supply the needed articles.

You will note that the bill of materials is divided into six parts,

(1) Stone Masonry, tile pipe, etc.
(2) Hardware
(3) Lumber insulation
(4) Mill work
(5) Furnace
(6) Plumbing

It is suggested that the delivery of materials might be speeded up if we were able to advise the Departmental Purchasing Agent which local firms have a supply on hand of the needed items. It will not be necessary to advise with regard to the cement and paint and these are normally ordered directly from the manufacturer.

Re: Lake St. Martin

If you refer to Mr. Waite's letter (March 4, 1948, file 126-7-5) you will notice that he recommends two schools. He wishes to avoid transportation.

The enrolment of 51 pupils as recorded in the last quarterly return (December 1947) seems to justify this stand. On checking the treaty list I find 51 pupils - 1 to 6 and 59 - 7 to 16. These figures check fairly well with the last census (1944) which give 56 and 44 respectively.

Enclosed please find a map of the reserve. The pencilled "X" is the approximate location of the present school. It is fairly central and is about four miles from the East and West boundary. The distances referred to are road distances which are longer than that indicated on the map, due to many detours which are necessary due to low lands. This distance will be shortened when the road program is carried out.

The two new schools would be about one mile East of the present school and one mile West. The population is grouped mostly in the centre of the reserve. There are about two families living near the West boundary, that would be over three miles from the centre and four families, living near the East boundary, that would be over three miles away.

I believe that a central two-room school would provide educational facilities to this community for many years. Briefly, the advantages of a two-room school over two, one-room schools, would be as follows:

Advantages of two, one-room schools:

1. Will bring the East and West boundary families within three miles from the school.

2. Possibly avoid the necessity of transportation.

Advantages of one, two-roomed school:

1. Less expensive to construct than two, one-room schools.

2. Would avoid the necessity to drill two new wells. There is a well at the central location.

OVER

Indian Affairs. (RG 10, Volume 6238, file 522-5, part 3)

PUBLIC ARCHIVES ARCHIVES PUBLIQUES

CANADA

Book
Copy

3. Less difficulty to obtain teachers.

4. Better community centre.

5. Less liable to create factions.

6. Better educational opportunities for the children.

One main disadvantage of the central large school would be the necessity, possibly, of transporting the pupils from the two extremes. This would not be a serious problem as these people have horses. It might entail an expenditure of about $500.00 yearly.

The educational setup of a two-room day school was discussed with Provincial Inspector Simms who concurs with our opinion of its advantages over the double proposition. Mr. Waite suggested the two schools to conform to the policy of "no transportation".

Should the proposition of one central school be decided it will be necessary to send the plans, specifications and bill of material for a two-room school. Mr. McKenzie is willing to undertake it on the same conditions as the others. However, a new estimate for the lump sum must be calculated.

Yours truly,

A. J. Doucet.

(2) Where there are special circumstances which in the judgment of the Minister of Labour make it expedient that he should do so, he may decide what are the current or fair and reasonable rates of wages for overtime, and what is the proper classification of any work for the purposes of wages and hours. Immediately upon receipt of notice of any decision of the Minister of Labour hereunder the Contractor shall adjust the wages and hours and classification of work so as to give effect to such decision. In case the Contractor shall fail so to do, or fail at any time to pay to any employee or employees for any services performed or for any hours of labour wages according to the rates set forth in the schedule or fixed therefor by the Minister of Labour hereunder regarding overtime and classification, the Minister of Labour may authorize and direct the Minister to pay any such wages at the rates so fixed and to deduct the amount thereof from any moneys owing by the Government to the Contractor and any such payment shall for all purposes as between the Contractor and the Government be deemed and taken to be payment to the Contractor, and the Contractor shall be bound in every particular by any such authority, direction and payment as aforesaid

Minister of Labour to determine disputes.

(3) For the protection of the workmen employed, the Contractor shall post and keep posted in a conspicuous place on the premises where the contract is being executed, occupied or frequented by the workmen, the Schedule inserted in this contract, also the preceding paragraph (2) and any decision of the Minister of Labour made thereunder.

Notices to be posted.

(4) The Contractor shall keep proper books and records showing the names, trades, and addresses of all workmen in his employ and the wages paid to and time worked by such workmen, and the books or documents containing such record shall be open for inspection by the Fair Wages Officers of the Government at any time it may be expedient to the Minister of Labour to have the same inspected.

Books, etc., of contractor open for inspection.

(5) The Contractor shall not be entitled to payment of any money which would otherwise be payable under the terms of the contract in respect of work and labour performed in the execution of the contract unless and until he shall have filed with the Minister in support of his claim for payment a statement attested by statutory declaration, showing: (1) the rates of wages and hours of labour of the various classes of workmen employed in the execution of the contract; (2) whether any wages in respect of the said work and labour remain in arrears; and (3) that all the labour conditions of the contract have been duly complied with; nor in the event of notice from the Minister of Labour of claims for wages, until the same are adjusted. The Contractor shall also from time to time furnish the Minister such further detailed information and evidence as the Minister may deem necessary in order to satisfy him that the conditions herein contained to secure the payment of fair wages have been complied with, and that the workmen so employed as aforesaid upon the portion of the work in respect of which payment is demanded have been paid in full.

Payment by contractor for labour etc.

(6) In the event of default being made in payment of any money owing in respect of wages of any workmen employed on the said work and if a claim therefor is filed in the office of the Minister and proof thereof satisfactory to the Minister is furnished, the said Minister may pay such claim out of the moneys at any time payable by His Majesty under said contract and the amounts so paid shall be deemed payments to the Contractor

Power to pay wages in default of payment by contractor.

(7) These conditions shall extend and apply to moneys payable for the use or hire of horses or teams, and the persons entitled to payments for the use or hire of horses or teams shall have the like rights in respect of moneys so owing them as if such moneys were payable to them in respect of wages.

(8) With a view to the avoidance of any abuses which might arise from the subletting of contracts it shall be understood that subletting, other than such as may be customary in the trades concerned, is prohibited unless the approval of the Minister is obtained; subcontractors shall be bound in all cases to conform to the conditions of the main contract, and the main contractor shall be held responsible for strict adherence to all contract conditions on the part of subcontractor; the contract shall not, nor shall any portion thereof be transferred without the written permission of the Minister; no portion of the work to be performed shall be done at the homes of the workmen

Subletting, etc.

(9) All workmen employed upon the work comprehended in and to be executed pursuant to the said contract shall be residents of Canada, unless the Minister is of opinion that Canadian labour is not available or that other special circumstances exist which render it contrary to the public interest to enforce this provision.

Lake St. Martin Indian Day School

Reference your 206-4B (127) of May 17.

This will acknowledge receipt of bill of materials for two-room Indian Day School at Lake St. Martin. In view of Mr. Dowset's recommendations, we are transferring money from Valley River (where we intended to erect a two-room school) to Lake St. Martin (where we intended to erect a one-room school). This change in plans means that we will have funds for a two-room school at Lake St. Martin and for a one-room school at Valley River.

It is anticipated that we will be receiving from you in the near future a tender for the labour on the construction of this building. In the meantime we cannot place the entire order for the bill of materials until Ministerial approval as to the contractor is obtained. However, we are ordering the cement immediately so that there will be no delay with the excavation of the basement and the pouring of the concrete. If the contractor could give an indication as to the approximate cost of the lumber required for the concrete forms we could authorize local purchase of this amount, so that work could begin on the basement almost as soon as we have Ministerial approval for the labour tender.

Therefore, we are today forwarding to the Departmental Purchasing Agent a requisition for the purchase

of 700 bags of cement. It is presumed that we will also hear from you with regard to local purchase of the gravel required. I would also like to know if we should forward an accountable advance of $500.00 to you in order to cover hauling and other local charges.

I beg to enclose, herewith, contract for labour received from Mr. Herman Helgason for the two-roomed school and residence on the Lake St. Martin Reserve.

Kindly note that the contract is for installing the windows but a request is made that the frames be made in the factory. Mr. Helgason is of the opinion that 800 sacks of cement should be ordered. The poplar lumber on the Little Saskatchewan reserve is fit for the use of forms but 2 x 4 dimension, nails and wire will have to be shipped in.

I beg to request an accountable cheque, in amount of $800.00, be forwarded to the Portage Agency for the purchase of 150 yards of gravel and 75 loads of stone. This money will also be required for the hauling of the material. Will you please advise if the contract is acceptable as Mr. Helgason is ready to go ahead with the work?

Yours truly,

R. S. Davis,

Indian Agencies, Winnipeg, Manitoba.

Reference your letter 209-4B (127)-June 8,1948

Lake St. Martin Indian School

Upon receipt of your letter the following action was taken:

(1) A requisition was prepared for 850 sacks of cement for purchase by the Departmental Purchasing Agent.

(2) An order in council was submitted to the Minister's office for the acceptance of Mr. Helgason's tender. We will wire you immediately when a decision is reached on this tender.

It will be necessary to submit a separate requisition for door and sash hardware. Mr. Helgason can doubtless assist you with such a requisition if his tender is accepted. We will also require a requisition for the lumber needed for the cabinets and stairs. It is presumed that Mr. Helgason can make these on the ground.

I will send you a copy of the requisitions to the Purchasing Agent. You will note that I have recommended local purchase of the gravel and sand required.

I would also suggest that you consider submitting a requisition for the paint which will be needed. I would suggest the following colours:

(a) Outside - white with shamrock green trim.

TO THE EXECUTIVE COMMITTEE OF

THE GOVERNOR GENERAL IN COUNCIL.

The undersigned has the honour to report:

THAT it is immediately necessary, and funds are provided in the 1948-49 estimates, Indian Affairs Branch, Mines and Resources, to construct a combined two-room Indian day school and teachers' residence on the Lake St. Martin Indian Reserve, Portage la Prairie Indian Agency, Province of Manitoba;

THAT it is essential that educational facilities be provided for the Indian children on the Lake St. Martin Indian Reserve and living quarters for two Indian day school teachers;

THAT Section 36 of the Public Works Act, Chapter 166, R.S.C., 1927, provides, in part as follows:

"Whenever any works are to be executed under the direction of any Department of the Government the Minister having charge of such Department shall invite tenders by public advertisement for the execution of such works except in cases (a) of pressing emergency in which delay would be injurious to the public interest . . . . ";

THAT efforts have been made to interest builders and contractors in the vicinity of the said reserve but the builders and contractors have advised that they would not be interested in tenders if invited as aforesaid, as they have all the work they can do in their own localities;

THAT a competent building contractor, namely Herman Helgason, of Ashern, Manitoba, whom our officials state to be a reliable contractor, has agreed to undertake the construction of the said building immediately on a straight labour contract of Seven Thousand Two Hundred and Fifty Dollars ($7,250.00) with the Department supplying all materials;

THAT it is considered that the construction of this building is a pressing emergency and within the exception provided in Section 36 above recited and further, it is considered that the work can be more expeditiously and economically executed as suggested herein.

The undersigned, therefore, recommends that authority be granted for the provision of this building as outlined above, this being the only arrangement possible at the present time and it being essential that this work be undertaken at once and carried to completion in order that the building will be available for use by the time the next school term commences.

Respectfully submitted,

Minister of Mines and Resources.

Re: Lake St. Martin Indian Day School.

Included in our main estimates for the year 1948-49 was the sum of $14,000.00 for the erection of a one room Indian day school and attached teacher's residence on the Lake St. Martin Indian Reserve, Portage la Prairie Indian Agency, Province of Manitoba.

Before erecting this school we had an educational survey carried out by our Supervisor of Vocational Training. We were of the impression here that a two room school should be erected and this feeling has now been confirmed by Mr. Bouset's report. It has been decided to transfer funds from the Valley River Day School and to erect a two room school at Lake St. Martin, instead of the one room school originally planned.

We are, therefore, forwarding today to the Departmental Purchasing Agent a bill of materials for the erection of such a school.

Please find attached a copy of a tender from Mr. Herman Halfason of Ashern, Manitoba, for all the labour work connected with this school. Normally the construction of a school costs us between $25,000.00 and $30,000.00, depending upon its location. We have an estimate from North American Lumber and Supply Company on the bill of materials for this school amounting to approximately

$9,000.00. With Mr. Helgason's labour contract of $7,250.00, we should be able to erect the school for approximately $20,000.00.

We feel that Mr. Helgason's tender is a satisfactory one and have, therefore, prepared the Order in Council as indicated above.

LAKE ST. MARTIN INDIAN DAY SCHOOL.

By authority granted by Order-in-Council P.C. 2869 of 26 June, 1948, the Department is authorized to enter into a contract with Herman Helgason of Ashern, Manitoba, for the construction of a standard two-room Indian day school with attached teacher's residence on the Lake St. Martin Reserve.

We are now consulting with Treasury officials concerning the necessity of getting a security deposit of 10% from Mr. Helgason before issuing the contract. When this matter is settled you will be hearing further from us. We have again asked our Departmental Purchasing Agent to do everything possible to expedite the delivery of the materials required for this school.

Re: Lake St. Martin Indian Day School
Mr. Hoey's memorandum of June 14/48
File 126-7-5 (E)

We have copy of P.C. 2869 dated 26th ultimo covering the contract of Herman Helgason of Ashern, Manitoba, for construction of the above building at $7250.00, and were advised that no action on our part in connection with this work is necessary.

However, we also have the tender of North American Lumber & Supply Co., Ltd., who offer to supply the material except the door and sash hardware, blackboards, cabinets, stairs, gravel, and sand at $9014.72, f.o.b. Winnipeg.

Your requisition also states that the Ashern Supply Company of Ashern, Manitoba, are interested in tendering on these supplies. Have you or the Indian Agent received this Firm's tender?

As the expenditure involved is in excess of $5,000.00, will you please arrange to submit the usual recommendation to Council covering the purchase of this material.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL.

The undersigned has the honour to report:

THAT funds are provided in the 1948-49 appropriation, Indian Affairs Branch, Mines and Resources, to construct a combined two room Indian Day School and teachers' residence on the Lake St. Martin Indian Reserve, Portage la Prairie Indian Agency, Province of Manitoba;

THAT authority has already been granted by P.C. 2869, June 26, 1948, to engage the services of Herman Helgason to construct the said building;

THAT every endeavour has been made to obtain quotations from various firms for materials required for the building;

THAT the Departmental Purchasing Agent has received a tender from the North American Lumber and Supply Company, Limited, who are a reliable firm. They offer to supply the material, except the door and sash hardware, blackboards, cabinets, stairs, gravel and sand at a cost of $9,014.72, f.o.b. Winnipeg;

THAT the Purchasing Agent considers the price quoted to be fair and reasonable.

The undersigned, therefore, recommends that authority be granted for the acceptance of the tender of the North American Lumber and Supply Company, Limited, to supply the materials on which they have quoted a price of $9,014.72, f.o.b. Winnipeg, as it is essential that the materials be purchased at the earliest possible date in order to allow the erection of the building to proceed.

Respectfully submitted,

Minister of Mines and Resources.

ARTICLE II: The Contractor undertakes and agrees:-

(a) to do, and perform, the works, materials, matters and things required to be done, furnished and performed, in connection with the following work or works namely,-

The construction of a Standard Combined Two Classroom Indian Day School with attached Teachers' Quarters (according to the drawings and specifications as prepared by the Lands and Development Services of the Department of Mines and Resources - Index No. 849) on the Lake St. Martin Reserve in the Portage la Prairie Agency, in the Province of Manitoba.

(b) To complete substantially, and to the satisfaction of the Minister, all the work, on or before the date or dates following, viz:- the ..... day of ..... Nineteen Hundred and ..... A.D.

(c) Time shall be deemed to be material and of the essence of this contract.

ARTICLE III:

The Minister undertakes and agrees, in consideration of the premises, and subject to the performance and observation on the part of the Contractor, of all covenants, provises and conditions in the Specifications contained:

(a) To provide the materials required for the construction of the school as described in Article II (a).

(b) To pay the Contractor, in current funds, for the performance of the contract Seven Thousand Two Hundred and Fifty Dollars ($7,250.00) subject to additions and deductions as provided for in the Specifications governing the work.

(c) To make progress payments on account thereof as provided for hereunder:

With reference to Department letter 126-7-5 of July 9th last, will you please advise if you have anything to advise concerning the construction of the two-roomed school and residence on the Lake St. Martin Reserve. Mr. Helgasson is now ready to proceed with this work, and unless the job is started in the near future, it will be impossible to have it finished this fall. The sand and gravel will be on the job within the course of a few days, but Mr. Helgasson wishes to be able to go ahead with the framing as soon as the cement work is ready for construction. It would appear that the lumber for framing has not yet been ordered.

Please advise further in this matter.

NOTES

1. We have already received a tender for the provision of the above building materials from the North American Lumber and Supply Co. Ltd. Their quotation is $9,014.72 but this includes 645 sacks of cement (already ordered by you previously)

2. Another firm interested in tendering on these supplies is Ashern Supply Co., Ashern, Manitoba.

3. I would recommend local purchase of gravel and sand for foundations of this school.

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

Attention: Mr. W. M. Vincent.

Dear Sir:-

We wish to thank you for your order 82581-15-3 Manitoba, dated August 9, 1948 covering building materials to the amount of $ 9,014.72 for Lake St. Martin Indian Day School.

At the time that the above estimate was submitted we stated that delivery of materials would be subject to prices in effect at the time of delivery. Since the time that we submitted our tender, prices on spruce have advanced $7.00 per M; and on fir $5.00 per M. All in all these advances will increase the above estimate by approximately $400.00 to $ 9,453.28.

We have been advised by Mr. Davis of your office here to make delivery. However, we would be very much obliged if you would kindly confirm this authorization by wire. Also due to conditions beyond our control we wish that you would authorise us to make any necessary substitutions in order to complete delivery.

Yours truly,

Please find herewith copies of a letter from the vendor, which is self-explanatory. I have discussed this with Mr. Lauchlan who is of the opinion that, since P.C.3566 authorizes a fixed cost of $9014.72 for the bill of material, it will be necessary to submit an additional memorandum to Council recommending that approval be granted, authorizing payment of approximately $400.00 extra, due to increase in the price of spruce and fir.

I may add that the tender of North American Lumber and Supply Company Limited, Winnipeg, Manitoba, contained an escalator clause reading as follows:-

"Above price ($9014.72) subject to prices in effect at time of delivery."

Will you please take the necessary action.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL.

The undersigned has the honour to report:

THAT funds are provided in the 1948-49 appropriation, Indian Affairs Branch, Mines and Resources, to construct a combined two room Indian Day School and teachers' residence on the Lake St. Martin Indian Reserve, Portage la Prairie Indian Agency, Province of Manitoba;

THAT authority has already been granted by P.C. 2869, June 26, 1948, to engage the services of Herman Helgason to construct the said building;

THAT every endeavour has been made to obtain quotations from various firms for materials required for the building;

THAT the Departmental Purchasing Agent has received a tender from the North American Lumber and Supply Company, Limited, who are a reliable firm. They offer to supply the material, except the door and sash hardware, blackboards, cabinets, stairs, gravel and sand at a cost of $9,453.28, f.o.b. Winnipeg;

THAT the Purchasing Agent considers the price quoted to be fair and reasonable.

The undersigned, therefore, recommends that authority be granted for the acceptance of the tender of the North American Lumber and Supply Company, Limited, to supply the materials on which they have quoted a price of $9,453.28, f.o.b. Winnipeg, as it is essential that the materials be purchased at the earliest possible date in order to allow the erection of the building to proceed.

Respectfully submitted,

AJD/HM.

Minister of Mines and Resources.

Dear Sir:

Re: Lake St. Martin School.

During our conversation you referred to certain changes in the plan for our two room school - one change was the stairway - another was a doorway upstairs. Please supply instructions in duplicate so I can forward one to Mr. Helgason.

I would also like by airmail, two sets of blue prints. These are necessary in order to secure without delay, a quotation on a furnace.

Yours truly,

A.G. Hamilton,
Superintendent.

Lake St. Martin Indian Day School.

Reference your 49-39 C of October 16th.

Further to our conversation, please be advised that the following minor structural changes will be necessary in the blue prints provided for this school:

(1) The stairs from the teachers' living quarters to their bedrooms should be straightened out to remove the landing. This is due to the fact that the hand rail at the foot of the stairs is too high to permit the passage of furniture between it and the ceiling. By eliminating the landing, we will allow more space in the living-room and also will be able to take large pieces of furniture upstairs more easily. The Contractor at one of our other construction projects did this by putting in fourteen steps and by raising them 8" apart.

(2) On Sheet No. 3 of Plan # 849, you will note that the door in the closet to the left hand bedroom is so situated that it hits the sloping ceiling of the bedroom when it is opened. This can easily be removed by moving the door 3" to the right.

Re: Furnace New School Lake St. Martin.

On receiving the blue prints for the above school I immediately tried to get quotations on a furnace as per specifications. I called on Ashdown's, Marshall-Wells, General Steel Wares, Eaton's, Imperial Iron Corporation and Dufault Sheet Metal.

No one could supply a cast iron furnace and no promise could be made when one of 200,000 capacity could be made available. It was stated definitely nothing could be done this year. Another real problem was the shortage of sheet metal. In this respect Mr. Dufault gave some glimmer of hope.

I attach a cut showing the only large furnace I could locate in Winnipeg. These furnaces are in urgent demand and Mr. Argue could not hold one pending a reply - thus the need for your immediate decision.

Spring mind for Pilot Mound and Interlake

You will note Mr. Dufault has been good enough to undertake this work, but he is short of sheet metal. Is there any way the Department can get released to Mr. Dufault the metal listed on his quotation? The quotation is only good pending the release of metal.

Mr. Helgason already is asking for the pipes for the partitions to the upstairs and these should be supplied at the earliest possible date.

Lake St. Martin Indian Day School.

Dear Mr. Pook:

I have for answer your letter of October 8 concerning the above school.

This is to be a standard two-room Indian day school with attached teachers' residence. This teachers' residence contains two bedrooms if our plans are followed. We have no information at all concerning the fact that there would only be one bedroom.

I would suggest you call Mr. Davis in regard to this matter.

With best personal regards, I am

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Re furnace for Lake St. Martin
Indian Day School, No. 522
I.A.B. File 522-5.

We have your requisition of the 28th instant, with a quotation from Dufault Sheet Metal & Retinning Company, St.Boniface, at $1,085.00. This quotation appears to be the price on supplying the equipment only, and is rather high. I would suggest that your western representative obtain at least two competitive prices, and submit them to this office to enable us to secure requisite approval. It might be well to obtain price for installation as well as equipment.

DEFICIENCIES AND IRREGULARITIES TO BE MADE GOOD AT
THE LAKE ST. MARTIN INDIAN SCHOOL, Manitoba

1. Basement Wall & Floor Surfaces are to be rubbed down as provided for under [illegible] on Page 20. Wire ends are to be bent into wall to help key the patching. Patching is to be done after wall is wetted and brushed with neat cement wash. Mortar of one cement to two parts sand should have just enough water added to make mixture workable. Use lake water.

2. Basement Floor Drains - Grilles are to be set flush or slightly below floor level on a ledge to be formed of concrete inside present opening. Use one cement to three sand and insert wood blocks on edge to receive screws of grilles. Keep lower openings to drain pipes clear of cement.

3. Floor Edges are to have cove floor mould laid in Tremco and screwed down every two feet by 1½ inch screws and Rawl Plugs.

4. Furnace Room and Dispensary First-Aid - Partitions are to have plates on floor and studs along concrete walls where no wood bucks have been placed. Plates are to be bolted in place.

5. Spaces around all windows and doors are to be filled flush with tightly packed mineral wool and nails are to be drive into wood to hold any patches of concrete and mortar necessary.

6. Chimney. Pointing of joints is to be filled flush with cement mortar after brick is brushed and thoroughly wetted with water. Chimney precast caps are to be cured at least three days before being placed on chimney. Build saddles (crickets), as shown. After placing, any damage is to be made good to roofing. Scaffold lumber used must be hooked over roof ridge and not nailed to roofing shingles. Any holes or gouges in shingles must be filled with caulking compound as built. Flashing must have seal asphalt caulking compound filling forced into brick joints after aluminum nails have been driven into the brick joints until nail heads are flush with brickwork and spaced every four inches, approximately.

7. Furnace Room doors are to be made of shiplap and covered with galvanized iron as specified.

Outside Catchbasin. This is to be built according to the plan and have an inside bottom level six (6) inches below the present end of the outlet pipe which will reach just flush inside the wall and be water tight (particularly under the inlet pipe.) An outlet thimble is to be set at the same level as the inlet and facing the lake. Both pipes are to be temporarily plugged with bags of linseed by Mr. Farol. The lid is to have buttons top and bottom. This work must be done without freezing concrete before initial set. The contractor may do this in the spring, if materials are stored for this purpose.

Outside Concrete Walls. Smoothing is to be done but no cement is to be applied until frost is absent.

Kitchen - is to have (a) - Stove where dresser is shown. Asbestos board is to go on wall.
(b) - Sink unit against classroom partition with cupboard section on top to ceiling. Unit is bought.
(c) - Dresser on wall where sink is shown but clear of window. This unit is made to roll plan.

Chimney jointing is to be filled flush in all joints to roof top. Exterior brickwork requires weathered joints.

Attic trusses are to be knee-braced as soon as 3" x 4" arrives and gussets, if not in, are to be placed under ridge and at bottom of

hangers, which are to be spliced with 1" x 8" strips well nailed to each of present double hangers.

Grilles and louvres are to have galvanized wire mesh nailed over them.

Toilets are to have squared holes in peaks covered with this mesh and boys' urinal trough is to be framed and lined with galvanized iron to run to pail. Mouth boxes are to be made for toilets and lined with tar-paper for winter. Metal deflectors are to be placed under toilet seats to just clear pails.

Attention: Mr. B. F. Neary.

I am enclosing herewith a Progress Report on the Lake St. Martin School. This man has not followed out the specifications, but he has been instructed to make the necessary changes. However, he has plenty of work done to cover this additional $2000.00 and I recommend payment be made.

Last week, I visited Lake St. Martin 2 room school, which is under construction, with Mr. Rose of the Surveys and Engineering Branch, and I am forwarding you a list of work that Mr. Helgason, the Contractor has not done according to specifications. The shiplap on the main walls of the building on the outside, has not been done as specified - it has been nailed straight around the building in place of putting it diagonally. While the building would have been stronger if it had been put on diagonally, nothing can be done at this late date.

Mr. Hamilton has visited this school practically every week this summer, but as far as I can see has done nothing but make social calls. I advised Mr. Helgeson that final payment will not be made until such time as these changes are made.

Further reference to your letter of October 30, 1948, file No. 522-5 (E) regarding the furnace for Lake St. Martin Indian Day School.

It is difficult to obtain quotations from firms as they do not care to undertake work out of town. However, I am attaching hereto quotations received from Campbell Heating Company and C. R. Dufault Limited.

Mr. Dufault advises that he will be unable to undertake this contract unless the Department can give him priority to obtain the sheet metal.

The building should be heated or the work will be held up, therefore, would you please advise as soon as possible.

Reference your 206-48 of November 22 -

We have noted the changes which Mr. Rose has directed Mr. Helgason to make in this building. It is unfortunate that this contractor has not followed the specifications. They are very clear and were written purposely in a simple way so that each superintendent and other field official could check on the work being done by contractors.

We concur in the instructions which you have given Mr. Helgason with regard to the final payment and in accordance with your recommendation we are passing Progress Payment No. 2 for payment, to our Chief Treasury Officer.

Lake St. Martin Indian Day School.

Please find attached a self-explanatory letter concerning Miss A. M. James, who is interested in the position of senior teacher at the school now under construction.

Have you given any thought as yet to the furniture which will be required for this new teacherage. I am attaching a copy of our standard list of furnishings for a one-room school. It is only necessary to equip a second bedroom for a two-room school. Therefore, if you have not already done so, would you prepare a requisition based on this list so that there will be no delays when the school is finished before we are ready to have it operating.

I would ask you also to advise [redacted] janitor supplies, etc., which will be required. In fact, we must do everything possible to anticipate the opening of this school and to order such equipment now.

If preparing the furniture requisition, please order rugs, curtains, etc., in colours which will match the colour schemes of the various rooms. You will also have to check the size of the linoleum rugs to ensure that they fit the rooms.

Re: File 582-5 (E) dated January 3, 1949,
addressed to Fisher River Agency

With reference to Departmental letter above noted addressed to Mr. Doyne, Acting Superintendent, Fisher River Agency, we wish to advise that his voucher No. 1463 in amount of $452.86 made in favour of the Sherwin-Williams Company for paint for the Lake St. Martin School was authorized by this office. The authorization was given, having in mind that the season was very late and that painting had to be done immediately if it was to be done before freeze-up. The weather at the time was fine and dry and immediate action had to be taken.

We trust that our action is approved and that the account be paid.

DEPARTMENTAL PURCHASING AGENT

Re: Lake St. Martin Indian Day School #522

Attached is an account amounting to $452.86 covering the cost of additional paint required at this school which is under construction. As an explanation of this account, Regional Supervisor Davis writes as follows:

Re: File 522-5 (E) dated January 3, 1949, addressed to Fisher River Agency

"With reference to Departmental letter above noted addressed to Mr. Boyne, Acting Superintendent, Fisher River Agency, we wish to advise that his voucher No. 1463 in amount of $452.86 made in favour of the Sherwin-Williams Company for paint for the Lake St. Martin School was authorized by this office. The authorization was given, having in mind that the season was very late and that painting had to be done immediately if it was to be done before freeze-up. The weather at the time was fine and dry and immediate action had to be taken.

We trust that our action is approved and that the account be paid."

Please issue Purchase Order so that the account may be paid. The coding is as follows: 522-516-13-491 ER 2583.

Attention: Mr. B. F. Neary.

Mr. Campbell has left me a list of materials required for heating a one and two room school. He recently completed both Lake St. Martin and Peguis #1 School.

Mr. Campbell advised me that he had to make some changes in our list; and he is also, in his letter which I am attaching, making some suggestions which may be helpful for building in the future. One suggestion is regarding heat in the basement.

Attn. Mr. T. J. Davis

Re your letter of Feb. 22, [illegible] re work on Lake St. Martin School. I might state that the main work left on this building is the painting inside and out. Owing to severe weather and very bad roads I have not thought it advisable to do anything up there. I expect to go up there with men on the 20th and will finish all work possible. I gave Mr. J. Waite a list of material still missing. Kindly advise me if this has been sent up. I do not think that the outside painting can be done satisfactory before the end of this month unless the weather breaks. There has been enough work done to put the [illegible] which I have not received yet, kindly see to that.

re: I. R. St. Martin [illegible]

The Contractor, Mr. H. Helgason, for the above mentioned school has not as yet completed construction of same. I have been in contact with Mr. Helgason and as you will note from attached copy of a letter Mr. Helgason claims it will be impossible to do the necessary finishing before the end of this month.

I am pressing Mr. Helgason to commence work as soon as possible in order to try and clear this matter up prior to the 31st of March of this year. If the work cannot be completed before the end of March will you please advise me as to the latest date which I may submit accounts to be paid out of 1948-49 funds.

I am also enclosing a requisition for several items still required by the Contractor to complete this building and I would request your authority for local purchase of same. Please may I have your advice by wire.

Re: One and Two Classroom Indian Day Schools.

With reference to your memorandum of March 10th your file 522-5 (E.1) in connection with the above, you are advised that we have checked the Bill of Materials submitted by the Campbell Heating Limited of Winnipeg, and have noted their comments.

While their Bill does not agree in detail with the Bill prepared by this Division, it is essentially the same and it is our opinion that the variations listed are of a minor nature and will not affect the installation.

It would appear that this firm were supplied with plans Indexed 849 which shows the original arrangement of the furnace room. Revised plans Indexed 889, were drawn up to provide additional space in the furnace room.

We do not concur with their suggestion to inclose the furnace room in frame walls instead of concrete as shown. Every effort has been made to reduce the fire hazard to a minimum and for this reason in addition to structural considerations, the furnace room should be built as shown.

As requested, we are returning herewith the letter from the Campbell Heating Company Limited.

Mr. R.S. Davies, Regional Supervisor,
638 Dominion Bldg.,
Winnipeg, Man.

Dear Sir: Re: Heating on Indian Schools.

We are sending you a corrected list of materials required to heat the different schools:

First is the one room school with teachers living quarters:

Item #1 as per list.
Item #2 as per list.
Item #3 5-20" length 10" diameter tin pipe leader with 1 damper
2 - 45 deg. adjustable angles 10"
1 - 90 deg. " elbows 10"
1 - 12"x10"x10" diameter floor box
1 - collar 10" W.A.
Item #4 30-20" lengths 14" diameter tin pipe leader with 3 dampers
5 elbows 14" adjustable 90 deg.
3 -16"x16"x14" diameter boxes
1 -14"x3¼"x14" " boot
4 collars 14" W.A.
Item #5 20-20" lengths 12" diameter tin pipe leader with 2 dampers
4 - 30 deg. adjustable angles 10"
2 elbows 12" adjustable 90 deg.
1 1½"x16"x12" diameter boot
1 14"x3¼x12" " "
2 collars 12" W.A.
Item #6 3-20" lengths 12" diameter tin pipe with 1 damper
2 45 deg. adjustable angles 12" diameter elbow.
1 elbow 12" adjustable 90 deg.
1 16"x16"x12" diameter box.
1 collar 12" W.A.

-2- Mr. R.S. Davies. Re: Heating on Indian Schools.

Item #7 3 - 5"-0" lengths of 12x3¼ wall stack.
Item #8 as per list
Item #9 1 - 12"x10" floor type with floor box 12x10x10 collar
Item #10 1 - 12"x10" floor type with sgle. floor register box 12x10 no collar
Item #11 1 - 12"x14" floor type with sgle. floor register box 12x14x10 collar
Item #12 2-16"x4" baseboard register faces (no boxes)
3-16x16 floor type with sgle. floor register box.
16x16x14 collar
Item #13 36'-0" of 22"x10"x24 ga. galvanized duct
1 - 65 deg 22"x10"x24 ga " elbow
6 - 30" lengths 16" diamter x24 ga. galvanized return air leaders.
2 - 24"x24"x12"x24 ga. galvanized return air shoes.
2 - 24"x12" floor type return air grilles
2 -24"x12" return air register boxes
4 ends 22x10
2 J.L. Collars 16"
4 angles 16"
2 pipe bands 16"

On item #7 we would suggest a 12x3¼ wall stack as there is no room for a 14x3¼, as the studding is only 16" centre and this leaves 13" between same.

We would strongly recommend a cold air from the work shop in the basement as there will not be any heat in this room without circulation or returns from the room.

8 galv. angles 16"
4 draw bands 16"
16 galv. pipe 16"
4 boxes 12x24

If our suggestions are followed the following materials should be included in the bill of material:

Cold air living quarters to class room
2 intakes 6x14 flat (no box)
Cold air from dispensary and first Aid room to furnace room
2 intakes 6x14 flat (no box)
Cold air from manual training room to furnace room
1 cold air face 12x14
1 cold air grille on furnace casing to take care of the cold air from the above rooms
1 - 12x14

Cold air from sewing room to furnace
1 cold air face 12x14
1 cold air box 12x14
5 pipe 12"
1 elbow 12"
1 cold air collar 12"

As the warm and cold air pipes are very difficult to run through the concrete wall, we would suggest a frame partition for all walls in the furnace and coal rooms.

The furnace room is too small and should be enlarged to 15'x15' at least.

There should be a cold air grille from the living room to the class room, allowing the cold air to escape from the living quarters and bed rooms.

There also should be cold air grilles from the dispensary, first Aid & manual traing rooms to the furnace room and the furnace casing should have a grille at floor line to take care of these returns. The sewing room should have a cold air run direct to furnace.

Winnipeg, Manitoba.

With reference to your letter of the 3rd instant enclosing a letter received from Mr. Campbell who installed the heating system in the Lake St. Martin School, we submitted his letter to the Lands & Development Services Branch, and they have replied as follows:

> "While their Bill does not agree in detail with the Bill prepared by this Division, it is essentially the same and it is our opinion that the variations listed are of a minor nature and will not effect the installation.
>
> We do not concur with their suggestion to inclose the furnace room in frame walls instead of concrete as shown. Every effort has been made to reduce the fire hazard to a minimum and for this reason in addition to structural considerations, the furnace room should be built as shown."

We do not appear to have received Mr. Campbell's final bill, and if it has not already been forwarded, you should let us have it as soon as possible.

Dear Sir:

Attached hereto is a memorandum by Mr. J. T. Rose reporting on the work to be completed on the Lake St. Martin Indian Reserve School.

You will note that Mr. Rose estimates that about $2,000. will be required to complete the school in accordance with the specifications. It would appear advisable, therefore, that sufficient funds should be retained in order to insure that the Contractor will finish this work in a satisfactory manner.

Yours very truly,

D. B. Gow,

WINNIPEG, April 14, 1949.

Memorandum

Mr. D. B. Gow

Re:-Progress Report on School Building for the Indian Affairs Branch (Lake St. Martin Reserve).

A visit was made by writer to the above school on April 12th in company with Mr. Waite of the Indian Affairs Branch and an inspection was made of the work done.

[redacted]

Finishing of walls and floors remains to be done. Doors are to be made and hung. Windows are to be hinged and fitted with transom chains, locks and chain raising attachments. Storms are to have brackets attached. Other finishing is to be done and painting completed.

The furnace work is completed but the draft controls are to be carried to a fixed plate upstairs and one cold air entry is to be made into the south basement room. This type of furnace takes so much space it would be advisable to have any future school built to this plan changed so that the furnace room would be 3 feet wider. At present there is no way to get at the smoke pipe for cleaning or replacement except by removing one cold air pipe which blocks access space at present.

[redacted]

Blackboards, cupboard door frames and a minor amount of work on the trims and window shelves remain to be done. Painting has not been started. The floors require sanding before varnishing.

Living Quarters:

The dresser remains to be built and installed. All trim and floors require sanding before painting. Chimney beading and plastering over the brick besides all crackfilling, here and in the school rooms, are to be done before painting can be carried on.

A vent should be cut and trimmed for the chemical toilet.

[redacted]

Chimney capping and painting of the flashing around the chimneys are to be done. Flashing is to be completed along water stop. All painting is to be done. Toilets are to be put on sills and placed. The outside catchbasin is to be built at junction of drains from basement rooms.

E! Inspector

It is estimated this work will amount to about $2,000. It was found, on a visit to the contractor in his home at Ashern, that he planned to proceed on Monday with his workmen to complete the work as rapidly as possible. He expects a payment to be made him on account. It seems reasonable that he receive an amount which would leave $2,000. to be paid on completion of the work.

Attn. Mr. B. F. Neary, Superintendent of Education

With reference to your signal, dated April 9th, regarding the Lake St. Martin School, I am enclosing, herewith, our voucher #109 in amount of $1000.00 to be paid to Mr. H. Helgason, Contractor for this school.

There is still left to build approximately $2250.00 worth of work, which includes inside and outside painting, plastering and painting the basement and also some sewer work and several sundry odd jobs. Mr. Helgason is commencing work on the 18th of April and will stay on the job until construction is absolutely complete. Additional expenditure required for sundry items should not exceed an amount of $100.00. Therefore, it is requested that this additional sum be set aside for future accounts in connection with this school.

I have had an inspection made by the Engineering Branch who have promised the report for Thursday, April 14th, which report will be forwarded to you by air.

R. S. Davis,
Regional Supervisor of
Indian Agencies.

Re: Voucher #166

I have received advice from the Fisher River Agency to the effect that an account payable to the North American Lumber & Supply Company in amount of $8.90, which was vouchered for from this office under date of July 7, 1949, #166, was passed for payment by the Fisher River Agency under cover of their voucher #573 dated May 19, 1949.

Please may the voucher forwarded from this office, namely #166 in amount of $8.90 be cancelled. It is regretted that this account has been passed twice and steps are being taken to insure that this does not happen again.

I am enclosing, herewith, copy of correspondence received from the Fisher River Agency regarding transportation of Indian children on the Lake St. Martin Reserve to their school.

Mr. Davis concurs in Mr. Nield's recommendation. Mr. Davis has asked me to advise you to the effect that this school was changed to a two-room school just before Mr. Davis took over this Province. On checking over the roads on this reserve he feels that Mr. Nield's request is in order and strongly recommends approval by the Department.

Dear Mr. Davis:-

Re Van South and Lake St Martin school.

At the South end of Lake St Martin reserve are about 8 children who have several miles to go to the Lake St Martin School. The roads are bad on this reserve, and it was recommended by the Indians that Dave Traverse, who resides there and has a good team, be allowed $10.00 per month to drive these children to and from school each day.

It is expected that school attendance will be very poor from this end unless a van is employed, and yet it does not warrant a new school, and probably, will not for some time.

We would be pleased to be advised if authority could be secured to pay Dave for driving the children to school at the above rate.

Yours very truly

A/Superintendent.

Fencing - Lake St. Martin School

I am enclosing, herewith, a requisition for material required to build a fence around the Lake St. Martin School.

Mr. Davis, Regional Supervisor, has concurred in this requisition and recommends Departmental approval. Mr. Davis recommends the building of this fence due to the fact that this school is in the open and if not properly fenced horses and cattle roaming near the school will, no doubt, do considerable damage.

May authority be granted for the items requested or action taken by the Departmental Purchasing Agent.

Re: Lake St. Martin Indian Day
School. Your File 136/27-8-522

We have your letter of the 9th instant with reference to driving certain children to the Lake St. Martin School.

Please let us know the distance the 8 children on the south end of the reserve are from the school. If the roads are bad, we cannot see how it will be any easier to transport the children than to have them walk.

Before committing ourselves for any expenditure, we must have some very definite information about the whole situation, as when we start driving children in one place we are almost inevitably requested to provide similar service in other places. Funds at our disposal do not permit unnecessary expenditures in this particular regard.

I am enclosing herewith final Progress Payment Report in favour of Mr. Herman Helgason in connection with building the Lake St. Martin two-room day school. I do not appear to have any record of the amount that has been paid Mr. Helgason. However, if you check your records you will find the attached amount to be outstanding.

This building has been completed and it will be in order to make the final payment. Would you please rush the cheque direct to Mr. H. Helgason, Ashern, Manitoba, as he is badly in need of the money.

Re Purchase Order No. 46440
Vote 516-02-210 E.E. 1120

In writing up this order we specified, in error, f.o.b. Lake St Martin Day School, whereas Northern Motors, Moosehorn, quoted f.o.b. Moosehorn. They have charged $3.00 per hour for trucking the coal from Moosehorn to the above school, a distance of about 75 miles.

Likewise they shipped an excess quantity of 9700 lbs., and have invoiced Indian Affairs Branch accordingly.

Under the circumstances will you please increase the encumbrance of $525.00 set up to cover the cost of this 30 tons of coal for Lake St. Martin School by the sum of $352.45.

Dear Sirs:

Re: Invoice No. 111105 dated
November 19th, 1948.

This account covered the cost of materials supplied to the Lake St. Martin Indian Day School in an amount of $84.70. The account was apparently mislaid in the Indian Superintendent's office, and only reached us recently.

Included on the account is an amount of $1.15 for freight. Our present regulations require that we have a receipt from the transportation company. Please obtain and forward this so that we can pay the account.

Sincerely yours,

I am enclosing, herewith, this office voucher No. 267 in amount of $46.99 payable to the Manitoba Bridge & Engineering Works Limited for material required for the completion of the Lake St. Martin School.

A grooving tool in amount of $26.40 was necessitated by the fact that trusses had to be erected in the roof and this grooving tool was used to fit the Teco fasteners.

This tool was procured on the recommendation of the Engineering Branch and they feel that the charge is a just one. The tool is in the possession of this office.

Dear Sir:-

There is also a request from Little Grand Rapids for a teacher for the coming summer. We have had teachers there in the past but during the last two years none was sent. I could probably secure a probationer of our ministry to go out there for the summer. Would the Department favour this appointment ? The salary to be paid would be about $2.50 a day for every day taught.

Yours respectfully.

Rev. Sir,-

Referring to official letter of May 6th, last, in regard to conducting a summer school at Little Grand Rapids I beg to say that the Department regrets that at the present time it has not information as to the condition of the building at this point and whether there would be any probability of having a successful summer school. In further reference to your letter of April 30, last, in regard to sending a teacher in to Little Grand Rapids for the summer months I beg to say that the Department is informed by the Inspector of Indian Agencies that these Indians are only on the reserve in the neighborhood of the school building for a short time while payments are being made when they return to their homes, which are scattered along the shores of Eagle Lake, distant some six to ten miles from the reserve and school-house. It would not appear advisable, therefore, under these conditions to send in a teacher to take up work on the reserve, but the Inspector is being asked whether it would be practicable to establish a school for these Indians where their homes are situated.

To the Secretary,
Department of Indian Affairs,
Ottawa,Ont.

Dear Sirs,-

Replying to your favor of August 29th #259818/1 re a teacher for Little Grand Rapids, I may say that a Mr. Atkinson has been out there all summer and his reports will be received by the Department.

When I was out on the Lakes this summer I made special inquiries regarding this work and I find that the people at Little Grand Rapids are living without a house on the whole reserve, and that they are residing, as your Inspector has reported,along the shores of Eagle Lake. This condition of residence I was not aware of as I have never visited the reserve. However, in the years we have had a summer teacher out there, we have had a fair attendance during the summer months. Having heard nothing from Mr. Atkinson, who is out there this summer, I cannot speak regarding this year's attendance. At the same time Mr. Atkinson will have to be paid for his services. If the Department does not wish a teacher sent out there in future, why of course we will not think of sending one out. Whatever may be decided on for another year by the Department will be satisfactory. In the meantime provision will have to be made for Mr. Atkinson's summer's work.

Ottawa, September 18, 1913.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 13th instant reporting that you had sent Mr. Atkinson out to Little Grand Rapids to engage in school work during the past summer.

On May 23rd, last, you were informed that the Department regretted that it had not information regarding the probability of conducting a successful summer at this point and that it was not considered advisable to send in a teacher. Apparently, nothwithstanding this letter, you have sent Mr. Atkinson in. Nothing has been heard of him by yourself and nothing by the Department. No school supplies were asked for and no instructions of any kind were given, from here.

In view of the letter above referred to the Department would like to have some explanation from you as to why you sent Mr. Atkinson in, what instructions you gave him with regard to the school work, the rate of pay that you agreed upon, etc. The Department cannot bind itself to pay Mr. Atkinson unless he has performed services as a teacher, which is highly improbable, at least to any appreciable extent.

Dear Sir,-

Replying to yours of the eighteenth #269818/1 re teacher at Little Grand Rapids, about the sixth of April I visited Wesley College for the purpose of securing teachers and missionaries for our summer work and engaged Mr. Atkinson at that time. This will explain why your communication of May 23rd. came too late to prevent any action being taken this year. I do not ask the Department to pay for any work except that which has been done by Mr. Atkinson in the school. I do not think he has given much time to anything other than teaching. I have had no report from him as yet. No doubt the report of his work and the attendance at the school will reach the Department in due time.

I expect to be in Ottawa some time after the middle of October, and will be able to answer any further questions that might throw light upon the case.

Yours sincerely,

T. Ferrier

Sir,—

Referring to your letter of May 6th No 259,816/I. I beg to report as follows,-

I visited Little Grand Rapids School on July 23rd and found a log building, with the seams between the logs open to the weather, situated outside the reserve near to the Hudson Bay Fort.

A Mr Johnston was in charge as Teacher.

I enquired of the Councillor and Bandif the people would remain in the vicinity of the school during the summer months, and was told that the people were only there to receive their annuity and supplies after which they would remove to their usual fishing and hunting stations some distance from the reserve.

There is only one house in the reserve at present.

The Councillor asked for biscuits for the children attending the school, but I informed him that,not knowingthe school was in operation biscuits had not been estimated for.

The Band asked to have a school built for them in the reserve, I pointed out to them that before this could be done it would be necessary for the people to be established in homes upon their reserve.

The building now in use is not fit in its present condition to be used as a school at any season of the year.

I think under the circumstances a summer school at Little Grand Rapids is waste of time and money, and would respectfully recommend that after the present season is past it be discontinued until such time as the improvements warrant the expenditure.

Sir,—

I beg to acknowledge receipt of your letter No 259818/I. of the 3rd instant requiring further information of the work being done at the Little Grand Rapids School.

I regret to state that I had no opportunity to examine any work, the children not being assembled while I was there; the whole band was upon the treaty ground.

The equipment consisted of slates, in poor order, pencils, primers, 1st &2nd readers; the seats are made of logs with holes bored, into which pegs were driven for legs.

A rough board desk for the Teacher's use completed the furniture.

I did not make a list of the equipment, but I believe a small blackboard was upon the walls also some religious cards.

In reference to previous correspondence regarding educational matters on the Little Grand Rapids Indian Reserve I beg to say that the Department is in receipt of reports from its Agent and the Inspector of Indian Agencies which shows that it is not practicable to provide educational facilities for these Indians, as they are too much scattered and the conditions are such that to attempt this work under the present situation would prove a failure. In view of these reports it is not considered advisable to continue the school work there until present conditions have changed.

Dear Sir/-

Replying to your favor of the 8th, re teacher for Little Grand Rapids.

I have just received a letter from Mr. Lowes of Berens River, bearing on this subject, which it would be well for the Department to consider.

I enclose you an extract from his letter, it reads as follows:-

"Mr. Beleher, Jenny Moore's new assistant at Little Grand Rapids was down this week and I had some conversation with him. He says the people are very anxious to have Mr. Johnson as teacher again next year.

It is true that the school which is also in summer used for church purposes- is not on the Reserve, but it was either the Church or the Government or both working to-gether that put it where it is. I think the Indians would move the school over to the Reserve if asked to do so, and would build houses there too if encouraged by the Church and the Department.

I know these people have not done much in the past to help themselves, but then they are very ignorant and perhaps have not been encouraged as they should have been?

Yours sincerely,

TF/JM.

I beg to acknowledge the receipt of your letter of the 23rd ultimo, No. 259818/I referring to school work at thexr reserve of Little Grand Rapids.

In reply I respectfully beg to state that when there at the annuity payments the band stated that they would build up in their reserve so as to be in a condition to ask that a school be built and a teacher supplied.

I am unable to say now if any childmen could be sent from this reserve to the Elkhorn school, the families are scattered in different directions and will not be assembled again until next treaty time; when at Beren's River I will endeavour to ascertain, but I do not expect to be able to obtain children and would suggest that this be brought before the band at the next treaty payments.

the buildings be removed into [illegible] before spending more work upon them, and that I was of the opinion that the Department would not be disposed to grant any assistance for building a school outside the limits of their reserve.

The land asked for is upon the opposite side of the Berens river from the Hudson's Bay Post, and immediately below the rapids from which the reserve gets its name. The Band is willing to exchange land at the south of the reserve for the land asked for, and I respectfully ask for your decision in the matter.

The land in this district is of very little value, and if the Department feels disposed to grant the request of the Little Grand Rapids Band for this exchange, arrangements can be made now and survey obtained when convenient.

The establishment of a Hudson's Bay Post at the reserves of Deer Lake [illegible] provides work by [illegible] for many men of the Little Grand Rapids band [illegible] during the summer months. Sir,-

When I was at Little Grand Rapids recently, I was asked for more biscuits for the Summer Day School, that is operating there this summer, by the teacher in charge.

I found that the teacher was doing fairly good work, and the attendance was steadily quite in excess of expectation. I delayed giving a reply on my way up to Deer Lake, and then up to Pekangekum, a period of about 15 days, I found that the attendance kept up, so I decided that the request of the teacher, for more biscuits, was based on something that was real, and I told her I would get her some biscuits. When I arrived at Berens' River, I asked Mr Jones to send to Little Grand Rapids, 8 bxs Biscuits, from the school biscuits of Berens' River Day [illegible], to be replaced, from the I.D. Warehouse in Winnipeg. I beg now to submit my action for consideration, and ask for approval of same, and authority to have 8 bxs Biscuits, shipped to Berens' River Day School, to replace those sent to Little Grand Rapids.

Dear Sir,-

Replying to yours of the 19th, No. 259818/1 re the qualifications of the teachers at Little Grand Rapids, Pekangekum and Deer Lake:

I have delayed answering until I received a report of the work done in the schools. I requested the Rev. Mr. Barner to make a special report of the schools on the river and this is incorporated in my reply.

Alex Murdoch who is teaching at Deer Lake, Ontario, is a graduate of Brandon Industrial School and has a pretty fair education. He has had one years' experience teaching at Nelson House. Mr. Barner reports of him as follows: "I visited the school at Deer Lake on the 19th of July, 1918, and found 15 children present. Mr. Alex Murdoch, a graduate of Brandon School in charge. He commenced work on June 17th and up-to-date has had an average attendance of 10. This will increase when the Cranes arrive from Sandy Lake. I was much impressed with Alex's ability to teach these children. He certainly has the genius though not the professional training of a teacher. The children are well behaved and tidy. The building belongs to the people and the church. It is made of logs well covered up. The roof is made of [illegible] poles covered with tar paper. The walls inside are done [illegible] building with hewn poles. The floor is made of [illegible] lumber. There are no doors. The [illegible] made. Alex Crane is at Pekangekum. He has had a good [illegible] at Norway House. He [illegible] training but [illegible] for [illegible] School. Mr. Barner [illegible] visit this school.

Mrs. Mary Nanakup teacher at Little Grand Rapids is a graduate of this school and has a good general education in English. Mr. Garner visited the school on the 12th of July and reports as follows: "I found a good building made of logs, well roofed but not chinned or plastered in any way. There were 4 children in attendance well behaved and attentive. Mrs. Nanakup, (nee Jane Ribeault) a graduate of the Brandon Industrial School was in charge. This woman is evidently a consecrated worker and quite capable of handling a school of this elementary type. The furniture and equipment are very poor. The seats are simply rude logs on legs and there are no desks of any kind. With the few lesson cards and scribblers in stock the teacher was getting very good results in lettering and writing by the pupils. We visited the school again on Monday finding 71 present. We talked to the people about the school in the Sunday services and urged them to send their children."

"I am deeply interested with what I have seen of the experiment of opening the Indian Day Schools of this country [illegible]. [illegible] of these [illegible] a journey [illegible] of Deer Lake [illegible], [illegible] of [illegible], we have only one [illegible] term of school, the young men who are now freighting can keep [illegible] their books, do some figuring and some writing in Cree. It seems to be a hopeless thing to send persons into these schools who do not know the Cree as well as the English for there cannot be a point of contact with the children."

Trusting that the Department will find this report satisfactory, I am

Dear Mr. Scott:

It was understood when I was in Ottawa last May that $300 would be paid in full by the Department for a teacher at each of the following points on the Berens River, namely, Little Grand Rapids, Pekangekum, and Deer Lake. We supplement this with $100 in each case, and I am settling with the teachers on a basis of $400. I understand from the accountant of our Mission Board that no cheques have been received as yet from the Government for these three schools. I presume this is on account of the reports not having reached Ottawa. I will see that they are forthcoming as soon as I return to Brandon, but when the cheque is issued will you kindly see that it covers the amount of $900, irrespective of the number of days that was given in the classroom in each of the schools. This I believe to be the maximum that was possible during the summer in each case.

Will you kindly see that supplies for next summer for these schools are sent in not later than February, so that they will be at Berens River ready to go up as soon as the boats move on the river.

Yours sincerely,

I have to acknowledge the receipt of your letter of the 24th instant, with reference to the payment of salary for the period the Little Grand Rapids, Pekangekum and Deer Lake schools were open during the summer months.

In reply I beg to say that the only return received is from the teacher of the Deer Lake school, which shows the school was open 60 days with an average attendance of 19 pupils.

As soon as returns are received from Little Grand Rapids and Pekangekum the grant due for salaries will be paid. The Department will provide an amount of $300.00 for salary for each of these schools and will pay this amount in full, provided the schools are open a minimum of at least 60 days during the [redacted].

LITTLE GRAND RAPIDS.

The summer day schools at Little Grand Rapids, Deer Lake and Pekangekum did not operate this summer, I understand. In fact the work at these several reserves varies in operation so much that it is not very satisfactory from any view point so far as I am able to figure it out.. In fact so long as the Indians are of nomadic habits it is doubtful if schools can be of much advantage, as it is very difficult to assemble the children for classes owing to the erratic habits of life of the parents or guardians.

Dr. Russell, Dept. of Interior
Ottawa

Dear Sir,

I beg to inform you that the School Teacher, that is the Missionary Teacher, Miss Pitts, who was at Wabasca has been stationed by the Manitoba Conference at Little Grand Rapids up in Manitoba. She will be the first Manitoba School under the Sanction of the Indian Department using our Church building for the purpose.

I understood that there was a standing arrangement between Dr. Scott and the Dept of Interior that those inland points were to be supplied by Summer School teachers whenever we could find teachers who were willing to go. The places are hard to reach. In this case the man is prepared to stay all year and I trust the Department will see its way clear to appoint him as a yearly teacher for 1922-23.

Miss Pitts has gone up there this summer at my request and at my own expence to build a little home for herself. She is sending in a requisition for School Supplies. I trust you will give special attention to it. I was there myself last January and know that the outfit is a necessity.

Yours sincerely,
Arthur Barner

Reverend Sir:-

I have to acknowledge receipt of your letter of the 26th ultimo, informing the Department that Mr. W. J. Hope, formerly Teacher at Poplar River, has been transferred to Little Grand Rapids, and that he will open school at that place, using your church building for the purpose.

In reply I beg to say that the re-opening of this school, under the charge of Mr. Hope, is approved. He will be allowed salary at the rate of $800 per annum plus any bonus provided by law.

It is noted that Mr. Hope is prepared to remain throughout the year, and if the attendance of Indian children warrents it, the Department would have no objection to this school being open the full year. We will be better able to decide this point after the first quarterly return, showing attendance, etc., is received from Mr. Hope.

I may add that the requisition forwarded by Rev. Mr. Niddrie has been received. The text books asked for have been ordered, to be sent from the Government Stationery Office, and Mr. Agent Latulippe, of Selkirk, was instructed to forward the other supplies asked for.

Reverend Sir:-

We are informed by Rev. Arthur Barner that Mr. W. J. Hope, formerly teacher at Poplar River, has been transferred by the Manitoba Conference to take charge of the school at Little Grand Rapids, and that he will open the school at that point, using the Methodist Church building for the purpose. Mr. Barner requests that the school at this point be kept open for the full year, as he states that Mr. Hope is prepared to stay throughout the year.

We have informed Mr. Barner that the transfer of Mr. Hope is approved and that the salary allowed will be at the rate of $800 per annum plus any bonus provided by law. This is the same rate as was allowed per schedule of salaries agreed upon for teachers in that northern district.

We have forwarded a supply of stationery and have asked Mr. Agent Latulippe to purchase and send to the teacher a quantity of other material which was asked for.

The question of continuing this school throughout the year will depend on the attendance, as shown by the first quarterly return received from Mr. Hope.

They state that Mr. Hope is prepared to stay at this point throughout the year, and request that the school be kept in operation the full year instead of for the summer months only.

We are allowing Mr. Hope salary at the rate of $800 per annum, plus any bonus provided by law. We have also arranged to forward a supply of classroom and other material which was requisitioned for by the church authorities.

The question of continuing this school during the full school year will receive consideration after the first quarter return, showing the attendance, etc., is received from the teacher.

I may point out at this juncture that the only building available in which to teach school in that district is situated at Little Grand Rapids, near the Hudson's Bay post. When Mr. Niddrie, our Missionary, went up there in July to assist Mr. Hope in erecting a small dwelling he held council with the Indians regarding the best place to carry on for the present time and with the exception of one man, they decided to conduct school in the church at Little Grand Rapids. Therefore a small house was erected, the walls of logs, in which Mr. Hope will live this year.

If it is finally decided that there shall be no change in the location of the Reserve, it may be necessary to change the site for the school house to one of the other points mentioned in your letter. It goes without saying that we wish to cooperate in every way with the Department in its plans. I shall be glad to know at any time should a decision be made to erect a school house for the Indians in this district. I have no doubt that Mr. Ferrier will be taking this matter up with you personally when he visits Ottawa. I am sending him a copy of this letter.

Yours faithfully,

Reverend Sir:-

I have yours of the 27th ultimo, referring to Mr. W. J. Hope, late Teacher of the Little Grand Rapids Indian Day School. I have noted that Mr. Hope is in the Dynevor Hospital and that you are waiting for further information before suggesting a successor for the cause at the Berens River.

Mr. Agent Latulippe reports that Mr. Hope has informed him there were no children in attendance at the Little Grand Rapids Indian Day School on the first of September, last, and that he did not expect any until the time of the 1923 annuity payment. In view of these facts, the Department will not expect to continue the grant for this school for the winter months. It is extremely doubtful if school activities at Little Grand Rapids, Kisangikum and Deer Lake are successful enough to warrant Government expenditure.

Concerning Mr. Hope at the Dynevor Hospital, I wish to state that the Department will expect him to meet his own expenses.

Sir:-

I have to acknowledge the receipt of your letter of the 2nd instant, enclosing Quarterly Returns covering the period the Little Grand Rapids Indian Day School was in operation during the past summer.

In reply I beg to say that salary is being allowed Mr. W. J. Hope for two months from the 24th of July, last. As this school is conducted under the auspices of the Methodist Church, a cheque for the amount of salary due him for the two months, viz. $160, has been sent to the Treasurer of the Missionary Society, Toronto. A cheque for the amount of bonus due for two months, viz. $30, is being sent him in your care. Mr. Hope should apply to the Treasurer of the Methodist Missionary Society for the amount of his salary.

Regarding the appointment of the teacher at the Berens River Methodist Indian Day School, you will be advised in a separate communication.

Dear Mr. Perrier,-

Re your letter of October 27th in connection with Mr. W. J. Hope:

I walked out to St. Peter's reserve to-d y to see this man, a rather longer walk than I had expected, as the man resid s on the east side of the river about six miles from my home.

I found the man at home in a poor little house. He is alone but his friends, perhaps help him. He is far from well and unless he gets some proper treatment I fear he will not live long. I spoke to him about going to Ninette. Dr. Gibbs has made some arrangements to receive him in hospital at Ninette and the man is quite willing to go but he is without means and if he is required to pay, cannot do so. Can you through the missionary society do anything for him? With proper treatment he may recover. Left alone as he is I do not think this possible and he should not be left alone. Perhaps the Indian Department might pay for his keep as he is an Indian.

Dear Sir,-

In your letter of the 7th No. 125-12-1 you state the following re Mr. W. J. Hope,-

"Concerning Mr. Hope at Dynevor Hospital, I wish to state that the Department will expect him to meet his own expenses."

I requested the Rev. Mr. Somserset, the Methodist Minister at Selkirk to visit Mr. Hope and report to me. I enclose you a copy of his reply. The old man is in a needy condition and I feel something should be done for him. Does he not belong to the Poplar River Band or the Berens River Band and receive his annuity from the Department? I have had a conversation with Dr. Stewart who has charge of the Ninette Hospital and he informs me the best he could do is to put him on the waiting list. He says the Municipalities pay the Institution $1.95 per day per patient for those unable to pay for themselves but that the actual cost is $2.60 per day. Would it not be possible for the Department to arrange to take him into the Dynevor Hospital? I make this request believing the case is more urgent than the Department was aware of when writing on the 7th. If this can be done it might be well to instruct your Agent to take immediate steps towards this end.

Reverend Sir:-

I have your letter of the 21st instant, explaining to the Department the condition of W. J. Hope, late Teacher at the Little Grand Rapids Indian Day School. I have noted that Mr. Hope is in a needy condition and is living alone on the old St. Peter's Reserve.

In reply I wish to state that Mr. Hope's name does not appear on the treaty lists for the Poplar River or Berens River bands. The Department believes this gentleman is a half-breed and is non-treaty. In view of his straitened circumstances and ill health, it has been decided to have him admitted to the Dynevor Hospital, and Mr. Agent Latulippe of Selkirk, Man. was telegraphed today in this connection.

I might inform you that a cheque for $160 - the amount of salary due to Mr. Hope - has been directed to the Treasurer of the Methodist Missionary Society in Toronto, and a cheque for $30 for bonus has been made out in favour of Mr. Hope and mailed in care of Mr. Agent Latulippe.

Dear Sir,-

In my recent visit on the Lake Winnipeg District I was informed by the Rev.Mr.Riddrie of Berens River, who had just returned from a visit to Little Grand Rapids that a day school is under erection at that point. The building will be completed about the 1st of October. I understand that all the necessary supplies for opening the school are on hand with the exception of any blackboard. They are asking for a teacher for the coming year. There is a Miss Moore, daughter of John Moore a Hudson Bay Officer who is available. I believe she has had three years' training in a high school and should be quite competent to take charge.

I would like if this appointment could be sanctioned by the Department at such a salary as is thought right. I would suggest it be at the rate of $600.00 for the year as I believe the girl can live in her father's home. This would amount to $450.00 for the nine months and would give me a chance to tryout the school during that time..

Mr. Latullippe your agent, was paying treaty during Mr. Riddrie's visit and no doubt will be able to give you a full reporton this proposition.

The Heart of the Forest

Mr. Luther Rhuetze, a former trader, has become our missionary teacher at Little Grand Rapids, midway between Lake Winnipeg and the Ontario boundary. He speaks five languages, and came to the belief that by teaching he could do much more for the Indians than as a dealer in furs. He had come to love the forest folk and has been able to induce a number of trappers to leave their wives and children at the one centre long enough for school work to prove

The Department has received from the Royal Canadian Mounted Police a report of a patrol of one of their officers to the Little Grand Rapids Indian Reserve. The following is an extract from this report: ...."The United Church missionary located here is one, Luther Sabuetze, who is also supposed to be the teacher, but he hires an unqualified Indian boy to do the teaching, and he hauls freight for the Hudson's Bay Company from Lake Winnipeg by way of Bloodvein by horse team."

The Department, in the Fall of 1928, recognized this school as of a permanent character and provided a regular salary for teaching services at the rate of $90 per teaching month, it being expected that the teacher would devote full time during the regular classroom period to the teaching services. The Department would be grateful if you would write giving any information which your office may have in this matter.

Dear Sir: Re Mr. Luther Schuetze, Little Grand Rapids.

In further reply to your letter of February 25th, 1930, - File #125-12-1 - I beg to state that when Mr. Luther Schuetze was appointed as missionary teacher at Little Grand Rapids, he found himself without buildings of any kind on the Reserve. Therefore he had to proceed to erect both school house and residence. Your Department provided material for the school house, and our Board provided material for the mission house, but Mr. Schuetze was entirely responsible for the erection of these buildings. It was impossible for him to accomplish all this work out of school hours without some assistance. Our Board, therefore, provided an Assistant for him in the person of a graduate of the Norway House Residential School. We chose one of the brightest ex-pupils, so that in an emergency he could take charge of the school if there was work which demanded Mr. Schuetze's attention. I know that Mr. Schuetze has given some personal attention to the freighting of the material, but it was not for the Hudson's Bay Company - it was in connection with the school and mission buildings.

I regret that this report, which appears to be of a damaging character, has reached your Department; but I think that if there is a thorough investigation by your Agent, it will be discovered that it is only a half truth and that Mr. Schuetze has had no relationship with the Hudson's Bay Company in the matter of freighting. All the reports we receive in connection with his work are very satisfactory, and I believe that both the Government and the Church are receiving full value for all they are investing in this work.

Our Mr. Barner expects to visit Little Grand Rapids during the coming summer and he will report further to me in connection with the work there.

Very sincerely yours,

I have to request that you will report, at your early convenience, regarding the work that is being carried on at the Little Grand Rapids Indian Day School by Luther Sahmetse, the teacher. The department understands that he was carrying out the work of erecting both a schoolhouse and teacher's residence at this point and that it was necessary for him to give some attention to the freighting of the material. I shall be pleased if you will state whether he has also been hauling freight for the Hudson's Bay Company. You might state whether he has completed the buildings, and, if so, if he devotes full time to the teaching of the day school. Sir:

In reply to your letter, No. 125-12-1 of 1st. instant, regarding the work being done by the teacher at Little Grand Rapids, I beg to inform you that the first intimation I had of this man doing any freighting was from the R.C.M.P. Berens River Detachment of 25th. January, which stated that he was hauling for the Hudson's Bay Co.

There were some desks for the school, which were purchased on authority No. 125-12-5, 11th September and shipped to Bloodvein, on the understanding that Mr. Scheutze was to freight these to Little Grand Rapids in the winter free of charge.

I have made further enquiries about this mans work and learn from two men who have been freighting between Bloodvein and Little Grand Rapids, that they met him on the trail several times in the winters of 1928-29, and 1929-30. They did not know whose freight he was hauling.

The schoolhouse and teacher's residence was built in 1924. I understand that logs have been taken out this winter for a church.

In a letter from Mr. Scheutze, dated 28th. February, received last mail, he states that he had an Indian, a former pupil of Norway House Indian Residential School freighting to L. Grand Rapids but that he had let him go. The school was kept open all the time. I presume this was while he was away.

The Secretary,
The Department of Indian Affairs,

Dear Sir: Re Mr. Luther Schuetze, Little Grand Rapids, Manitoba.

In further reference to your letter of February 25th - File 125-12-1, - I may say that I visited the Little Grand Rapids Reserve in the month of July and went thoroughly into the rumour which reached the Department concerning this matter.

I discovered that a request had been made to the Department for 30 school desks. This request was granted on condition that Mr. Schuetze would freight these in without cost to the Department. In addition to this, there was material with which Mr. Schuetze was completing the building operations, and he was made responsible for freighting this material in also. In order to accomplish this with the least expenditure, he had to do the work in the winter, and it was a heavy task. The bulk of the time taken in this freighting operation was the Christmas holidays; but, in addition to that, he gave twelve school days to the work. During these twelve school days he left the school in charge of an assistant who was provided by the Mission Board. This young man is a graduate of the Norway House Boarding School and is thoroughly qualified to take charge of the school for a few days. The report that Mr. Schuetze was freighting for the Hudson Bay Company is entirely without foundation, for he did not handle a pound of their freight during the operation.

In view of the fact that Mr. Schuetze has had to take charge of the erection of two buildings since he went into Little Grand Rapids, and that he has had to perform most of the mechanical work himself, I think that he has accomplished something very fine. I feel sure that on our part, instead of entering into criticism, we ought to commend him highly for his self-sacrificing labours.

Trusting that this explanation will be quite satisfactory to the Department, I remain

Yours faithfully,

Arthur Turner

Sir,-

I have to refer you to official letter, dated April 1st, last, and your reply thereto of the 16th of the same month relative to the services being performed by Luther Schmetze, teacher of the Little Grand Rapids Indian Day School.

As you were informed, the Department was advised that, last winter, Mr. Schmetze had engaged the services of an unqualified Indian boy to teach while he was busy freighting materials. The Department took this matter up with the authorities of the United Church of Canada, under whose auspices this school is conducted. An officer of the Board of Home Missions visited Little Grand Rapids this past summer and I enclose, for your information, a copy of his report to the Department. It would appear that Mr. Schmetze is performing excellent work at Little Grand Rapids and that it was necessary for him to freight supplies used in building operations at this point. It is not intended that any further action be taken in the matter.

Your obedient servant,

Russell T. Ferrier

Reverend Sir,-

I have your letter of the 26th instant, reporting on your visit to the Little Grand Rapids Reserve in July, last.

I note that you inquired thoroughly into the report which reached the Department concerning the services of Mr. Luther Schmetze as teacher of the Indian day school at that point. The officer of the R. C. M. P. who visited this reserve last winter evidently did not make sufficient inquiry into the work which Mr. Schmetze was carrying out. Your report regarding this matter is quite satisfactory.

Report of journey up the Berens River, Manitoba

REV. J. W. NIDDRIE and I left Berens River Mission with two of our Christian Indians, John James and William Everett, at seven a.m. on Thursday, July 17, 1930. We took a nineteen-foot canoe with Evinrude engine, and a supply of gasoline and oil. We also had our camping outfits and a good supply of food. As we expected to be away three weeks, it was necessary to send both fuel and food to the far end of the journey by freight, to be ready for our return.

Our first call is Little Grand Rapids, about 110 miles inland. This point is 209 feet above the waters of Lake Winnipeg, so it will not be surprising that we had to portage canoe and goods thirty-eight times on the journey, each portage around a rapid. Though the water was high and the rapids turbulent, our expert canoe men took everything safely through, and after three days' steady travel we reached Little Grand Rapids at 6.30 p.m. on Saturday.

It is four years since I visited this place. The following statement will refer to the three inland points, Little Grand Rapids, Pekangekum and Deer Lake. When I first visited these places in 1919, they seemed to be hopeless as far as mission work was concerned. For about fifteen years prior to that time Rev. F. G. Stevens, of Fisher River Mission, had made annual visits in the summer to Little Grand Rapids and Deer Lake, teaching the people all that was possible of the Christian religion in the course of two or three days. This policy was continued under Rev. J. W. Niddrie's care each year after 1920 including Pekangekum. But it seemed that something more should be done for the people. In July, 1927, a well-educated man named Luther Schuetze, master of five languages, who was trading with the Indians at Poplar River, felt moved to go and open the work at Little Grand Rapids. He has been used of God in transforming things there. At very small cost to the Church and the Government he has erected a schoolhouse and mission house. He and his family are a great example to the people both in spirit and practice. There are [illegible] 130 into the Christian Church, and his school attendance is very good. He is [illegible] can be done there is raising vegetables, and by keeping goats to provide milk [illegible] people left an increase of [illegible]

Sir:-

It was brought to my attention last week that Miss Mary Mozel has been hired by Mr. Luther Scheutze to teach the classroom on the Little Grand Rapids Indian Reserve.

I discussed this matter with Mr. Irwin, the Indian Agent at Selkirk, who stated that he was aware Mr. Scheutze hired Miss Mozel last year to substitute while he was sick, but he did not know she had again returned last September.

I phoned the Rev. Dr. Cormie, of the United Church, who supervises these appointments, and although he was aware of Miss Mozel being at Little Grand Rapids, he understood she was hired by Mr. Scheutze to teach his own children and expected she was paid from a grant allowed for education by the church. He immediately wrote Mr. Scheutze, instructing him to carry on the work himself and dispense with the services of Miss Mozel in connection with the teaching of the Indian children. Dr. Cormie was very emphatic in his instructions and he is positive they will be carried out. At any rate, he intends to make a thorough investigation of the whole matter.

I have always received good reports in connection with the work carried on by Mr. Scheutze and I have every reason to believe that Dr. Cormie's instructions will be followed out. Any further developments regarding this matter will be reported.

Dear Sir:

I have your 202-11 of the 15th instant, informing the Department that Mr. Luther Schuetze, teacher of the Little Grand Rapids Indian Day School, had engaged the services of Miss Mary Mozel to carry out teaching duties.

In this connection I have to say that it is expected Mr. Schuetze, himself, will perform the teaching services for which he is paid, provided he is in good health. I note that you have taken this matter up with Rev. Dr. Cormie, of the United Church, who supervises the school, and that he has written Mr. Schuetze instructing him to carry on the work himself and dispense with the services of Miss Mozel in connection with the teaching of the Indian children. It is expected that, as long as Mr. Schuetze is employed as teacher of this school, he will carry out the teaching duties himself.

Dear Mr. Hoey: Re: Little Grand Rapids School

At this point we have a man acting as missionary-teacher, by the name of Luther Schuetze. Mr. Schuetze has several children, and in order to provide for their education, he has brought in a teacher. I understand that one, or probably two, of the traders who have chilren are sharing with him the cost of this teacher, who is fully qualified according to the standards of the Province of Manitoba. Her name is Miss Jean McConnell. She is a daughter of Rev. J. A. McConnell of Little Britain.

Mr. Schuetze asks if your Department would give permission for Miss McConnell to substitute for him in the Indian Day School during such times as he is engaged in certain services which he renders to the Indians. I presume that there would be no expense involved so far as your Department is concerned. It is simply a question of regularizing Miss McConnell's teaching in the Indian School, under the supervision of Mr. Schuetze. I think, as a matter of fact, that the quality of teaching in the Indian School would be higher, the only persons to suffer being the children of Mr. Schuetze and the traders, and that is not a concern either of the Church of the Department. We should be glad to have your advice on this matter.

Yours sincerely,

EX'D.

I am in receipt of your letter of September 10th with reference to the Little Grand Rapids Indian Day School.

If Mr. Sahmatse only intends to have Miss McConnell teach the Indian Day School occasionally, when he is absent, the Department has no objection to this procedure. Is it the intention to have the white children also attend the Indian School when Miss McConnell is teaching it?

It should be distinctly understood, however, that if Mr. Sahmatse intends to place Miss McConnell in charge of the school for long periods, the Department could not grant such permission, as it is expected that the teacher appointed to take charge of an Indian School should perform the necessary duties in this regard and not engage someone else for the purpose.

I would appreciate hearing further from you in connection with this matter.

Dear Mr. Hoey:

We are making certain changes in our teachers in Northern Manitoba. Mr. Luther Schuetze is leaving Little Grand Rapids, to take over the missionary work at Berens River. This will leave a vacancy in the school at Little Grand Rapids, and for this we beg to nominate Mr. Richard Schuetze, who has already served for some time in one of our mission schools and who has taken a further year of training in the University of Manitoba. You, no doubt, have all the information concerning his academic and professional standing in your office.

Hoping this nomination will be satisfactory to you,

My dear Mr. Hoey: Re - Little Grand Rapids Day School
Pekangekum Day School

We are in receipt of your letter of June 15th, addressed to Dr. Dorey, in which you say that, by arrangement with Indian Agent McPherson last fall, it was understood that the teacher of the Little Grand Rapids School would take his holidays in April and May. We have no correspondence to show that Mr. Schuetze, who is now leaving Little Grand Rapids, took any holidays in April and May. As far as we know, he is staying there until the end of June. Mr. Street, who is succeeding him, expects to go in the first week in July, but we have no information to the effect that the day school will be conducted during July and August.

The same thing applies to Pekangekum, where Mr. Rushforth is succeeding Mr. Mutch. We do not know anything about Mr. Mutch's taking holidays in April and May. In fact, we have a letter to-day from the office of our Superintendent in Winnipeg, telling us that Mr. Rushforth will go in in July and that Mr. Mutch is planning to stay until the former arrives.

You will understand, of course, that both Mr. Street and Mr. Rushforth are to act as missionaries as well as teachers on their respective fields, which will account for them entering upon their duties in July.

This is all the information I can give you at the present time in answer to your enquiry as to when Mr. Street and Mr. Rushforth expect to take up their new duties.

I went to B.R. in 1911 at the salary of $700. After 17 years I am now receiving $1100. Having been given 2 increases.

Dear Doctor Cochrane:

Mr. Hoey is absent on holidays at the present time but before leaving he asked me to forward to you a copy of a letter which has just been received from Mr. Street who has recently been transferred from the Berens River U.C. school to the Little Grand Rapids U.C. school.

If you refer to Mr. Hoey's letter of June 15 addressed to Rev. Dr. Dorey you will note from the last paragraph that it was pointed out that the salary rating at Berens River is $1100.00 while the salary at Little Grand Rapids is only $900.00.

Officials of the Minister's office recently reviewed our salary list and expressed the opinion that the salary allowed at each school is sufficiently high, especially in view of the fact that there are, at the present time, a large number of qualified teachers available.

Under the circumstances we are replying to Mr. Street's letter by advising him that a salary of $900.00 only can be allowed at the Little Grand Rapids U.C. school.

The salary of Mr. Chenoweth, teacher of the Berens River school, will be at the rate of $1100.00 a year.

Dear Mr. Phelan:

I have your letter of July 18th, addressed to Dr. Cochrane, with regard to the salary ratings at Berens River and Little Grand Rapids.

I note that you say that the Officials recently reviewed the salary list and expressed the opinion that the salary for each school is sufficiently high, especially in view of the fact that the salary scale of the Department is high enough to attract teachers under the present circumstances. That still does not dispose of the difference between Berens River and Little Grand Rapids, and, in view of the cost of living in the two places, it seems to me amazing that the Department should pay $1100.00 at Berens River and $900.00 at Little Grand Rapids. The question that is in my mind is, why Berens River should get $200.00 more than Little Grand Rapids. I suppose it is one of the mysteries that goes back into the dim and distant past. If you will refer to Mr. Street's letter, you will see that the scale of salary at Berens River was originally $900.00 and that it was raised to $1100.00 whilst he was there. However, I do not suppose there is anything that can be done about it, in view of the fact that your estimates are based on that scale.

Yours sincerely,

Geo. Dorey

Re: Little Grand Rapids U. C.
Day School No. 3.

Mr. R. Sebastac has given up duties as teacher of the above-named school and no further salary should be paid to him.

To succeed him the Department has approved the transfer of Mr. C. D. Street from the Berens River U.C. Indian day school to the Little Grand Rapids U.C. Indian day school.

Mr. Street will be allowed the same salary at Little Grand Rapids U.C. school as at his previous school; namely, $1100.00 a year.

I enclose copy of letter of appointment but a new staff questionnaire is not necessary.

While I understand that this school will be open for the months of July and August I have not yet received definite information to that effect from the Indian Agent. As soon as I hear from him you will be advised. In the meantime no payment need be made to Mr. Street.

Dear Doctor Dorey:

On my return to the office this week Mr. Phelan showed me your letter of the 31st ultimo in connection with the salary ratings at Moraine River and Little Grand Rapids.

As pointed out in Mr. Phelan's letter of July 18 it is not possible to increase salaries at the present time. However, it has been decided that Mr. Street will be paid the same salary as previously allowed him.

The following will be the setup at these two schools for the academic year 1939-40:

1. [redacted]

Mr. C.D. Street - Salary $1100.00 a year

2. [redacted]

Mr. H.S. Chenoweth - Salary $ 900.00 a year

Dear Doctor Dorey:

I have for acknowledgment your letter of the 8th instant in which you state that the names of the teachers at Berens River and Little Grand Rapids referred to by me in my letter of August 4 were somewhat confused.

I have perused the copy of the letter written to you on that date and find that the statement should read:

1. Mr. H.B. Chenoweth - Berens River - Salary $900.00 a year

2. Mr. C.D. Street - Little Grand Rapids - Salary $1100.00 a year

I must express regret that this error was not detected by me at the time the letter was sent forward.

Dear Sir:

With reference to your letter of the 30th ultimo the Department is issuing a cheque for $180.00 in favour of Richard Schuetze covering his salary for the months of April and May as teacher of the Little Grand Rapids U.C. Indian day school.

The reason for nonpayment of this salary previously was due to the fact that the Department was under the impression that this school would be closed during the months mentioned.

The cheque is being forwarded in your care and when received you should mail it to Mr. Schuetze.

I desire to refer to the September quarter return of the Little Grand Rapids U.C. Indian day school. On page 2 of the return there are shown the names of 16 children who are stated to be "Non Treaty". Apparently 3 of these are children of the teacher. Their names should not be shown on the quarterly return. With regard to the other 13 please let me know exactly what is meant by "Non Treaty". Are these 13 children living on the Reserve and do you consider that we are responsible for their education? An early reply would be appreciated.

Dear Sir:-

In reply to your letter of November 1, File 125-12-1, I wish to advise that I have checked the September attendance report for the Little Grand Rapids U.C. Indian Day School and all I can find is 9 non-Treaty children attending this school.

The Non-Treaty children attending this school are as follows:

3 of the teacher's children, 3 of Joe Alix, who is a Trader in the District and 3 of Fred Moar's, who is Non-Treaty and works for the Hudson's Bay Company.

In regard to the Moar children, the father is non-Treaty and the mother is Treaty. This family lives on the Reserve.

The Department is not responsible for the education of these children but it is a case of there being no other school for them to attend.

Dear Sir:

I am in receipt of your letter of the 7th instant with reference to the non-treaty children attending the Little Grand Rapids U.C. Indian day school.

When Indian children attend any white school the Department is expected to pay a proportion of the cost of operation for their education. In view of the information given in your letter there does not appear to be any reason why we should educate, free of charge, the children of Joe Alix and Fred Moar. I think you will agree that the principle of paying for the education of children who are not eligible to attend a school should work both ways.

It would appear that both these parties are in a position to provide for the education of their children and unless they are prepared to do so the Department will have no alternative but to refuse them permission to send their children to the Little Grand Rapids U.C. school. Please take up the matter with them at once and advise me.

In the P.M. (22nd. inst.) I proceeded to the U.C. Indian Dept. school where an inspection was made and the teacher Mr. C.D. Street interviewed. The school was found in a fairly clean condition. Mr. Street also informed me the Dept. was furnishing lumber for a new school this season. No complaints were received but Mr. Street informed me some Indians had been making brew and were drunk around the New Year. Thirty children were present at this school although the register recorded fifty-two at times. Twenty-two or three of the children present are Indians, the balance are whites attending from around the settlement. I was also informed that there is some discussion regarding the location of the new school. The band, chief and Councillors desire the school be built on the reserve at the old location. The Missionaries I understand wish it be built by the Mission which is entirely off the reserve and two or three miles from the present school.

Dear Sir:

I note from your letter of the 7th instant that Mr. Street, teacher of the Little Grand Rapids U. C. Indian Day School, taught during the month of April. Under these circumstances a cheque for that month will be forwarded to him.

I would point out that the appropriation for the fiscal year 1940-41 only provides salary for a period of 9 months for each teacher of an Indian day school. Mr. Street has taught one month in the current fiscal year, namely April. Consequently, salary can only be allowed for 8 additional months between now and the end of March, 1941. Under these circumstances the school should remain closed during May, June and July. If, however, Mr. Street wishes to teach during the month of July, it should be on the distinct understanding that it will not be possible for the Department to allow him any salary for that month. Please inform him accordingly at once.

Dear Sir:-

I have to refer to your letter of June 13th, File 125-12-1, relative to the school term of the U.C. Indian Day School at Little Grand Rapids.

Mr. Street has requested that I write and inform you that during the 1939-40 Season, he taught school the following months: September, October, November, December, January, February, March, April and closed his school during May and June. As this only makes an 8 month term, he re-opened his school in July and is teaching this month, but as you state in your letter that he will not be allowed any salary for July, he wishes to point out that both April and July should apply on the 1939-40 school term.

In view of Street's information, please advise if your ruling as outlined in your letter, still stands. Street was informed that he would have to go by whatever decision the Department made.

It is my opinion that Street could be paid for the following months in the 1940-41 school term: July, August, September, October, November, December, January, and February, and close during March, April and May as decided on at Treaty time. This would make an 8 month school term, which would work out right if the Department's ruling is carried out in regard to Street's April, 1940 cheque.

Attention Mr. R. A. Hoey,

Dear Sirs,- Re Little Grand Rapids, Man.

We seem to be in some confusion regarding the number of months that Mr. Street taught between July 1, 1939 and June 30th 1940. According to Mr. Street's statement, he has only been paid for eight months. May I ask if it is correct that Little Grand Rapids was an eight months' school when this was put into effect?

The second point concerns the present year. Mr. Street says that Inspector Hamilton advised him to teach in July 1940. The Agent wrote him to say that he will not be paid for July. May I ask why a teacher who had instructions from the Inspector to teach school for the month of July should not be paid? It is the opinion both of Mr. Street and those who know the situation, that this should be a nine months' school. The children are all at home in July and we believe that the school should be operating from July 1st to March 31st. I should like to know what is covered in your estimates.

Dear Doctor Dorey:

I have your letter of the 11th instant with reference to the salary of the teacher of the Little Grand Rapids Indian Day School.

Mr. Street was transferred to Little Grand Rapids on September 1, 1939, and was paid his salary every month from that date to April 30, 1940. He took his annual summer holidays in May and June and has been paid for July and August.

The academic year and the fiscal year overlap but we must be guided by the amount of money provided for Mr. Street's salary for the fiscal year which started April 1, 1940, and ends on March 31, 1941; namely, $990.00. He has already been paid from the current year's appropriation for the months of April, July and August. Consequently only six months' more salary can be paid him from September 1, 1940, to March 31, 1941. He is, therefore, entitled to take another month's holidays during one of the months between the dates just mentioned.

Dear Sir:

Under separate cover I am writing to you with reference to the Little Grand Rapids R.C. School and in reviewing your letter of July 26 and official reply of July 31 regarding the Little Grand Rapids U.C. Indian Day School it is noted that it has been decided to operate this school to the end of February, 1941, and that the holidays will be taken during the months of March, April and May, 1941. The December quarter return of this school has not yet been received but my purpose in writing to you is to ascertain if the same conditions prevailed in regard to attendance as was the case at the Little Grand Rapids R.C. School.

On reviewing the return for the quarter ended June 30, 1940, at the Little Grand Rapids U.C. School it is found that only 6 children attended that school although the names of 41 children were shown on the return. Apparently the children who should attend this school are not on the reserve during the June quarter.

You can understand that the whole situation on the Little Grand Rapids Reserve is rather perplexing to the officials of this Branch and consequently it would be appreciated if you would let us have a complete report with a recommendation regarding the dates which you consider these two schools should be in operation in order to obtain the best attendance.

FEB 27 1941

Dear Sir:

I have for acknowledgment your letters of February 17th, Files 125-30-1 and 125-12-1, relative to school terms and attendance at the U.C. and R.C. Schools at Little Grand Rapids.

In the case of the U.C. school, the attendance during the December, 1940 Quarter was very good, considering that I have given instructions that all able-bodied Indians were to leave the Reserve for their trap lines.

I believe the poor attendance at the R.C. School was due largely to the fact that the Missionary reported a little trouble between the parents and himself. This was purely a personal quarrel and the parents refused to allow their children to attend school. I wrote the R.C.M.P. at Berens River and instructed him to talk to these Indians when he made his patrol to the Reserve; This patrol has been made and I understand the trouble is now under control. I also wrote Mr. Street, Teacher of the U.C. School and requested that he not accept Mr. Bellavance's pupils in his school. Street replied that he would do as I requested.

In regard to the matter of school terms, both teachers agreed at Treaty time that the months of March, April and May would be the best to have the school closed. I cannot understand why the U.C. School had such poor attendance last June as most of the Indians are on the Reserve at this time of year. The matter of arranging a satisfactory school term at Little Grand Rapids is indeed a difficult one. The situation is, briefly, that there is bound to be poorer attendance during the Winter and Spring if the Indians take their families to the trap lines. It is necessary that the men at least, go to trap lines as this is practically the only means they have of making a livelihood. On the other hand if the women and children stay on the Reserves while their husbands are away trapping we would have to issue rations to them. It is a matter where either the school attendance suffers during the Winter months or we keep the Indians on the Reserve and issue rations to them. I have always instructed the Indians to leave their Reserves in the Winter and go to their trap lines. The matter, therefore, of arranging a suitable school term under the circumstances is very difficult. The present school term has been arranged as suggested by the Teachers of both Schools.

Please advise if you wish me to again take this matter up with the teachers.

Very truly yours,

E. McPherson,

Dear Mr. Hoey: Re - Little Grand Rapids
Indian Day School

We beg to nominate as teacher of the Indian Day School at Little Grand Rapids, Manitoba, Mr. John N. Clarke, of Cartwright, Manitoba. Mr. Clarke holds a First Class teacher's certificate, and is recommended by Dr. Cormie, our Superintendent of Missions in Manitoba, who states that he is a man of good character and deeply interested in church work.

Our understanding is that this school is open from June to the end of February of each academic year. Is this correct?

We shall be glad to have confirmation of this appointment at your earliest convenience.

Dear Sir,-

I am forwarding you the completed forms regarding cost of house and income tax.

While the school at Little Grand Rapids is normally from June 1st 1942 to Sept 30th 1943 I have started a month and a half late due to the fact that I was teaching at Cartwright, Man in connection with Prov. department of education until June 30th. Then it took about a week to make preparations for our move north. I am willing to finish another month at after the school normally closes if that is satisfactory to you.

I have had Constable Bell sign in the place designated for the Justice of Peace as there is no justice of peace within 120 miles of here. I hope that will be satisfactory. I am the divisional registrar for this area.

I might note that while I placed $900 as the salary from the Indian affairs, I receive a salary of about $250 from the United Church of Canada. This gives me a salary of $1150 which I shall consider in making out my income tax forms

I remain,

Yours Sincerely

I have for acknowledgment your letter of July 22nd, File 125-12-1, relative to Mr. J.N. Clarke, U.C. School teacher at Little Grand Rapids.

The present school term of June 1st to February 28th was chosen by Mr. Bellavance and Mr. Street as the 3 months holidays came at the time the Indians are all absent from the Reserve for the Spring rat hunt. I do not think it would be wise to allow Mr. Clarke to have his school open after February 28th. Mr. Clarke will have a very short term this year but I would not recommend any change in the present term.

Dear Doctor Cochrane:

I desire to refer to your letter of May 28 and my reply of June 1, in connection with the appointment of Mr. J.N. Clarke as teacher of the Little Grand Rapids U.C. Indian Day School. For some years past the academic term at this school has been from June 1 to the following February 28. This is due to local conditions and it has been found that there is no advantage in having the school in operation during the months of March, April and May.

I find that Mr. Clarke did not open this school until July 15, 1942, due to the fact that he was teaching at Cartwright, Man., in a provincial school to June 30. I wrote to the Agent recently with reference to extending the term at this school, in order to permit Mr. Clarke to teach the full nine-month period, but in reply the Indian Agent has again directed my attention to the information contained in the first part of this letter; namely, that there would be no advantage in operating the school during the period March 1 to May 31.

Dear Mr McPherson,

I am wondering if it would be possible for me to take July and the first two weeks in August in order that I might attend the University Summer School at Fort Garry, Winnipeg. For some years, except last year when I came here, I attended summer school regularly every summer. In this manner I have worked toward obtaining my B.A. degree and should have my degree within a short time.

I quite realize that July and August are teaching months here but I feel certain that I could teach two weeks in March and possibly most of May without doing any harm so far as the rat season is concerned. I doubt if the Indians will be away from here before March 15th due to the undoubted lateness of the season. Also most of them will likely be back in early May

I would greatly appreciate your careful consideration of my request and if you consider it necessary, this letter could be forwarded to Ottawa. You will realize that it means a lot to me to be able to attend summer school especially since the University of Manitoba does not grant home courses in the 3rd and 4th years.

Trusting this may meet with your approval, I remain
Yours sincerely, John N. Clark

Re: John M. Clark, school teacher, Little Grand Rapids.

I am enclosing a letter which I have just received from Mr. John M. Clark- school teacher at Little Grand Rapids.

I am aware, from reports received, that Mr. Clark is a very competent teacher, and that he is one of the best we have had at Little Grand Rapids; but I am not in favour of changeing the school term at this place. I would rather suggest that the school be closed altogether for the time Mr. Clark is away and I know the Indians will be leaveing for their trap lines a few weeks before the rat season is due. They always do this and, owing to the cold winter I do not think they will be back as soon as usual.

I do not think that it would be possible to have another teacher go in there to relieve Mr. Clark for the summer season as at present it is very hard to get teachers but as you can see by Mr. Clark's letter, it means quite a lot to him to be able to take up his course in Winnipeg.

I wish you would please inform me what the Department considers should be done.

This school should be operated from June 1, 1943, to February 29, 1944. Mr. E. McPherson, Indian Agent, Selkirk, Man.

With reference to official letter of May 24, advising you of the appointment of Mr. N.A. Dueck as teacher of the Little Grand Rapids U.C. Indian Day School, we have today received the attached forms. These forms are very incompletely filled out; for instance, the Declaration of Head of Household for Purposes of Cost of Living Bonus only contains Dueck's name. It should also be signed by you in the space marked "Justice of the Peace". Present regulations permit the Indian Agent to sign this form in the case of teachers in remote sections of the country.

On the staff questionnaire you will note the answer to "Racial Origin" is "Dash". Does this mean Dutch?

The word "Naturalized" in answer to the question "British subject" is wrongly spelled. It would be advisable to have the date of his naturalization stated on this line. I presume from the information given on the staff questionnaire form that he began duties on July 23, but I have not received any word from you to that effect. You should have the forms properly completed and returned as soon as possible.

Mr. D. A. Hoey,
Superintendant Welfare and Training.

I wish to inform you that Mr. N. A. Doesk, reported on July 21, at Little Grand Rapids. He had been delayed considerably by the Selective Service. I do not know what the trouble was, but that was the information he gave me.

I would suggest that he be put on the payroll of Aug. 1, as I do not think he would be able to do much in a week's time. He informed me that he forwarded the papers to the department which I had sent to him some time ago which were to be returned to the department and I explained that he put in his time as starting work on the 21 of July, but he was still not started on the22, because the school had to be cleaned up before he could start teaching.

I am quite well aware that it is quite hard to get men for this place but personally I do not think that him nor the man sent to Poplar River, would be suitable for the position, as neither one of them understand anything about pulling teeth and needling. Drugs

The man, Mr. Shanks who was at Poplar River was a failure as far as being of any value to the department. In my opinion any missionary going out to this reserve should be given a course for six months regarding medicine and work that would be taken up on an Indian reserve, and that is why the Roman Catholics make such a success of their missionaries when they send them north into Indian country. They have to learn the Indian language and how to handle the Indians in the outlaying districts. I trust that you will accept this only as a suggestion.

I have your letter of the 15th instant, with reference to the salary of Mr. W. A. Dueck, teacher of the Little Grand Rapids United Church Day School.

Our records indicate that Mr. Dueck's cheque has been sent regularly at the end of every month, addressed to him at Berens River, Manitoba. The last cheque, for the month of December, was mailed from here on December 24th. I suggest, therefore, that you get in touch with the post master at that point, and if the cheques addressed to Mr. Dueck are not being held, you should advise me.

A review of the latest postal guide does not show "Little Grand Rapids" as a post office. Berens River is the address to which we have always sent communications for this school.

I have your letter of the 1st instant, in which you suggest that the Little Grand Rapids R.C. and Little Grand Rapids U.C. Schools be closed for the months of March, April and May. This will result in the teachers of these schools only being paid for a period of nine months. You realize the difficulties of obtaining teachers and, if we keep the term to nine months, I am inclined to feel that both teachers will consider that we are not dealing fairly with them.

In your letter of June 18, 1943, you suggested that the Little Grand Rapids R.C. School be kept open until the end of March. It opened on June 1, 1943, and, if it remains in operation until the end of March, the teacher of this school at least will feel assured that he has received ten months' salary.

Under the circumstances I would appreciate your giving the matter further consideration and writing again.

I wrote Mr Hoey on Feb 1st stating that as I had previously suggested, I recommended that the U.C. and R.C. Day Schools at Little Grand Rapids be closed for months of March, April and May.

On receiving your letter I note that you do not think we are dealing fairly with the teachers by only having a nine months term. I know that teachers are hard to get at the present time so if the Dept thinks we should operate these schools another month I will notify the teachers to have the schools remain open during month of March. I think that it was on account of the closing of the school last season that Mr. Clarke left and possibly it would be easier to get teachers to remain there if the schools were open the full term. In reply to your letter of the 10th instant, relative to your February salary cheque, I wish to advise that your cheque went forward on February 25th but was inadvertently addressed to you at Berens River, Man., instead of Little Grand Rapids, via Winnipeg, P.O., Man. It is regretted that this error of address occurred but if you will get in touch with the Postmaster at Berens River I am sure he will have your cheque for you. I have again brought the matter of change of address to the attention of Central Pay Office and requested them to address all future cheques to you at Little Grand Rapids, via Winnipeg P.O., Man.

The Associate Secretary of the Board of Home Missions of the United Church of Canada visited the Department yesterday and stated that he had received a request in connection with the Little Grand Rapids U.C. Indian Day School. It appears that the majority of the Indians live on the side of the river on which the church is located and that the present school is located on the opposite side of the river. This necessitates all the children crossing the river each day. Our informant states that it would appear desirable to use the church instead of the present school building and I understand that the United Church authorities would be willing to allow us to do so. Please let me have your recommendation in the matter at the earliest possible date.

Dear Mr. Phelan: Re: Little Grand Rapids Day School

We are informed by Dr. Cormie, our Superintendent in Manitoba, that Mr. N.A. Dueck, who has been missionary-teacher at that point is leaving. I do not know whether Mr. Dueck has communicated with the Agent. In any case, we are happy to nominate as his successor Mr. Abram Neufeld, who is twenty-four years of age; has Grade XI; but is without professional standing as a teacher, although he has had some experience. He is a married man, and I think would do good work.

We should be glad to know that this nomination meets with your approval; also, when the school year closes and the rate of pay.

I have just been advised by Mr Dueck of the Little Grand Rapids U.C.Day School that the R.C.School was open during April and May and Mr. Dueck has kept his school open also. Mr. Dueck states that this does not interfere with the trapping and also that it is almost impossible to get the children to attend during the hot days of July & August. Mr. Dueck further states that the Teacher of the R.C.School has received his cheque for April but Mr. Dueck has received no cheque himself.

Dear Doctor Dorey:

I desire to refer to Mr. Moey's letter of May 15, with reference to the Little Grand Rapids Indian Day School. When that letter was written, we were under the impression that the United Church and the Roman Catholic Church Schools on the Little Grand Rapids Reserve would close on March 31. However, it now appears that although Mr. Dueck opened the U.C. school on June 1, 1944, the R.C. school was not opened until September 1, 1944. The latter school continued in operation during April and May, and when Mr. Dueck realised this, he also kept the school open during those months.

The Agent now intimates that these two schools should remain in operation until June 30.

We have no particular objection to this arrangement, but I am writing the agent, stating that in order to avoid such difficulties in the future we should revert to the regular academic year, namely, September 1 to the following June 30.

As Mr. Dueck has remained at Little Grand Rapids, we will be prepared to continue salary to him to June 30, but owing to the circumstances about which we have just learned, I think that Mr. Neufeld should not report to the school until September 1, 1945, with the definite understanding that he will continue it in operation until June 30, 1946.

Mr. E. McPherson, Indian Agent,
Selkirk, Man.

I have your letter of the 22nd instant, with reference to Mr. Dueck, teacher of the Little Grand Rapids Indian Day School.

In view of the contents of your letter it is necessary to review the situation at both the United Church and the Roman Catholic Schools at Little Grand Rapids.

For some time past it has been understood that these two schools would close at the end of March and re-open at the beginning of June. Mr. Dueck re-opened the Little Grand Rapids School on June 1, 1944, and consequently, at the end of March, 1945, he had been paid 10 months' salary. In view of the previous arrangement his name was then removed from the paylist.

A teacher for the R.C. school was not secured until late in August - see our letter of August 22, 1944. He was placed on the paylist from September 1, 1944, and consequently would not teach the 10 months until the end of June, 1945. In view of the above, no injustice has been done to Mr. Dueck.

I note from your letter that Mr. Dueck has kept the school open during April and May, without any authority, and in the meantime we have received a recommendation from the United Church of Canada to appoint Mr. Abram Neufeld as teacher of this school. As we thought that Mr. Dueck had given up duties at the

PUBLIC ARCHIVES CANADA ARCHIVES PUBLIQUES

end of March and that the two months' annual holidays would be taken during April and May, we advised the United Church authorities to have the new teacher report for duty on June 1.

It is perplexing for the officials of this Branch to be informed at the end of May that the preceding arrangement in effect at this school had not been carried out. It is difficult to understand why we were not previously informed of Mr. Dueck's action.

It is possible that both schools on this reserve should be taught during the same months, but I think the time has arrived for us to make a definite decision regarding the months during which the schools should be in operation and inform all persons accordingly, and thus avoid the difficulty that has occurred this year.

To carry out the suggestion contained in your postscript would mean that the children would obtain only one month's holidays. I doubt very much if that would be very satisfactory.

If you agree with the statement made by you by Mr. Dueck, to the effect that the children do not attend the school during the months of July and August, I think the best solution of the whole matter is to revert to the regular academic year, namely, September 1 to the following June 30, and this should apply to both schools. Please let me hear from you immediately.

We are again placing Mr. Dueck's name on the pay-list, so that he will receive salary for the months of April and May and June. This is being done with the understanding that the attendance that he will have during those months justifies the payments being made to him.

I am now informed by the Indian Agent that owing to special circumstances it was considered advisable to continue this school in operation to June 30, 1945. Consequently, Mr. Dueck should be paid salary for the months of April, May and June. His resignation will therefore be effective from July 1, 1945, and the school will not re-open until September 1, 1945, on which date the appointment of Mr. Abram Neufeld will be effective. As stated in my memorandum of May 15, Mr. Neufeld should be paid salary at the rate of $100.00 a teaching month.

Indian Affairs Branch, Dept of Mines & Resources, Ottawa, Ont.

I have your letter 125-12-1 of May 26th re Little Grand Rapids Day Schools.

Owing to the unusual travel conditions this year we were not notified until recently that these schools had been open during April & May. Mr Dueck stated in his letter that the R.C.School had remained open and that he did not want to close unless both schools were closed.

At the time I suggested that these school close during April and May I had hoped that it would benefit the trappers but we have found since that it was not as much benefit as we expected. It was found difficult to have the children attend school during the warm weather. Under the circumstances I would recommend that we no return to the regular season of Sept 1st to June 30th. I have now written both teachers to remain open until end of June as they did not close during April and May.

I would suggest the Mr Dueck's cheque for June is not forwarded until we know whether or not Mr. Rufeld has reported for duty.

Mr. E. McPherson, Indian Agent,
Selkirk, Manitoba.

With reference to your letter of the 2nd instant, it is noted that you agree that the two schools on the Little Grand Rapids Reserve should operate from September 1 to the following June 30. Please notify the teacher of the Little Grand Rapids R.C. School accordingly. I have already communicated with the Board of Home Missions of the United Church of Canada and advised them of the dates that the United Church School would be in operation in the future. It is hoped that as a result of this decision both schools will operate in future from September 1 to the following June 30.

Philip Phelan,
Chief, Training Division.
